# 000-173

## IBM

*BPM Blueprint; IBM WebSphere Lombardi Edition V7.1,  
Application Development*

<http://www.ipass4sure.com/exams.asp?examcode=000-173>

The 000-173 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-173 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-173 exam is very challenging, but with our 000-173 questions and answers practice exam, you can feel confident in obtaining your success on the 000-173 exam on your FIRST TRY!

### IBM 000-173 Exam Features

- Detailed questions and answers for 000-173 exam
- Try a demo before buying any IBM exam
- 000-173 questions and answers, updated regularly
- Verified 000-173 answers by Experts and bear almost 100% accuracy
- 000-173 tested and verified before publishing
- 000-173 examcollection vce questions with exhibits
- 000-173 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-173 exam are now continuously updating and accepting this challenge is itself a task. This 000-173 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-173 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-173 Test and save time and money while developing your skills to pass your IBM 000-173 Exam? Let us help you climb that ladder of success and pass your 000-173 now!

<b>Exam Name:</b>	<b>BPM Blueprint; IBM WebSphere Lombardi Edition V7.1, Application Development</b>		
<b>Exam Type:</b>	<b>IBM</b>	<b>Exam Code:</b>	<b>000-173</b>
<b>Certification</b>	<b>IBM WebSphere</b>	<b>Total Questions:</b>	<b>72</b>

**Question: 1**

A Process Owner requires that a particular process begins with three independent system tasks. The Web Sphere Lombardi Edition business process diagram and other assets should be designed for easy readability by non-technical team members. There is also a technical goal to consume as few system resources, such as CPU time, as possible. What is the most effective solution to meet all three requirements?

- A. Start the BPD with a split into three system lanes for the three system tasks.
- B. Start the BPD with a nested BPD step containing the three system tasks.
- C. Start the BPD with a simple loop step to run the three system tasks sequentially.
- D. Start the BPD with a Service step containing nested Service steps for the three system tasks.

**Answer: D**

**Question: 2**

A claim review process is required to wait for external processing of a claim to complete before the review process continues. However, the external processing of the claim may occur before or after the claim review process is initiated. Which Intermediate Message Event options must be enabled to meet the requirement?

- A. Consume Anytime
- B. Close Attached Activity
- C. Durable Subscription
- D. Receivable Anytime

**Answer: C**

**Question: 3**

A simple business process allows a school teacher to submit a proposal for a children field trip. Every proposal needs to be signed off by 3 out of 5A simple business process allows a school teacher to submit a proposal for children? Field trip. Every proposal needs to be signed off by 3 out of 5 other teachers in order for the trip to be funded. All the teachers perform their own research and then sign off on the proposal. How is this implemented in WebSphere Lombardi Edition?

- A. Use a Multi Instance Loop. Run in parallel with a Conditional Wait (complex) Flow Condition.
- B. Use a Multi Instance Loop. Run in parallel with a Wait for All to finish (all) Flow Condition.
- C. Use a Simple Loop. Set Loop maximum to a variable and create a JavaScript loop condition.
- D. Use a Simple Loop. Set Loop maximum to 5 and create a JavaScript loop condition.

**Answer: A**

**Question: 4**

Process instances can be started by firing a UCA associated with a Start Message Event and by using the WLE Web API. From within a running process, an Activity can create a new and separate process instance by using the JavaScript function startBPDWithName. What is a disadvantage of using the startBPDWithName JavaScript function to start a BPD process instance?

- A. The "Where Used" feature of the Authoring Environment won't find the JavaScript reference.
- B. It would be difficult to find out if the second BPD process instance started successfully at runtime.
- C. If there is an error before the first Activity is created it will not throw an exception back to the caller.
- D. It would be difficult to know the instance ID of the second BPD process instance at runtime.

<b>Exam Name:</b>	<b>BPM Blueprint; IBM WebSphere Lombardi Edition V7.1, Application Development</b>		
<b>Exam Type:</b>	<b>IBM</b>	<b>Exam Code:</b>	<b>000-173</b>
<b>Certification</b>	<b>IBM WebSphere</b>	<b>Total Questions:</b>	<b>72</b>

**Answer: A**

**Question: 5**

An external system is configured to integrate to WLE by sending the Event Manager an XML message via JMS. During testing, the integration is observed to fail. What would cause a failure?

- A. The event message XML does not include the Process App acronym.
- B. The event message XML does not include the UCA name.
- C. The event message XML does not include the Snapshot name.
- D. The event message XML does not include the JMS queue name.

**Answer: A**

**Question: 6**

A home loan business process requires an applicant? credit check be performed. The BPD has a large Applicant Data object that contains all the applicant information. Some of this data needs to be verified by external systems. The process interacts with one external system to verify applicant employment information and another system to determine their existing debts. These Activities are performed in parallel and flow to a Join. applicant employment information and another system to determine their existing debts. These Activities are performed in parallel and flow to a Join. The output of both Activities is the entire Applicant Data object. What will happen with the Applicant Data object once those Activities complete?

- A. The data from both objects will cause an error in WebSphere Lombardi Edition and no data will flow to the next Activity.
- B. The data from both objects will be merged by WebSphere Lombardi Edition and the merged object will flow to the next Activity.
- C. The data that gets to WebSphere Lombardi Edition first from one of the external systems will flow to the next Activity.
- D. The data that gets to WebSphere Lombardi Edition last from one of the external systems will overwrite whatever is there and flow to the next Activity.

**Answer: D**

**Question: 7**

The Remediate Product Delivery Failure Process requires notification from a transportation company that the delivery failed in order to start the process. What is the most effective way to implement this in WebSphere Lombardi Edition?

- A. UCA Listener receives the notification and fires an IME before the first Activity to send the first token to the Activity.
- B. Make the first Activity a system-based Activity that is integrated with the transportation system to receive messages and start the process.
- C. Use a Start Message Event to receive the notification from a listener and begin a process instance.
- D. Add an attached IME to the first Activity that listens for the notification and activates the Activity in the participant inbox.

**Answer: C**

**Question: 8**

Refer to the Exhibits.

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
