000-208

IBM

Open Systems Storage Solutions Version 6

<http://www.ipass4sure.com/exams.asp?examcode=000-208>

The 000-208 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-208 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-208 exam is very challenging, but with our 000-208 questions and answers practice exam, you can feel confident in obtaining your success on the 000-208 exam on your FIRST TRY!

IBM 000-208 Exam Features

- Detailed questions and answers for 000-208 exam
- Try a demo before buying any IBM exam
- 000-208 questions and answers, updated regularly
- Verified 000-208 answers by Experts and bear almost 100% accuracy
- 000-208 tested and verified before publishing
- 000-208 examcollection vce questions with exhibits
- 000-208 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-208 exam are now continuously updating and accepting this challenge is itself a task. This 000-208 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-208 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-208 Test and save time and money while developing your skills to pass your IBM 000-208 Exam? Let us help you climb that ladder of success and pass your 000-208 now!

Question: 1

A customer reports that its application, an Oracle database, is running queries rather slowly after migrating the application over to an IBM System Storage DS4800. What should the storage specialist recommend that the customer do first to help resolve the performance issue?

- A. Monitor the cache hit ratio for the array being used by the application
- B. Reallocate the stripe size of the array for better performance
- C. Monitor the array using the Performance Monitor to determine the issue
- D. Change the RAID level of the array for better performance

Answer: C

Question: 2

A customer has two SAN islands. One SAN consists of two IBM TotalStorage 2109-M48 redundant fabrics with server access to IBM System Storage DS4700 disk in production. The other SAN consists of two 2109-F16 redundant fabrics with server access to IBM System Storage DS4300 disk in development. The customer plans to migrate the data residing in the DS4300 to the DS4700 and keep the SANs separate. Which is the least disruptive and most cost-effective solution for connecting the two SAN islands?

- A. Add SAN18B-R
- B. Add a backbone SAN256B
- C. Add switch ISL trunking
- D. Add Cisco 9216A

Answer: A

Question: 3

A client who recently installed an IBM System Storage DS4800 for Exchange is now interested in adding a new high performance, data warehouse application to the disk system. Which configuration on the DS4800 provides the best possible performance for the data warehouse application?

- A. RAID 5 and a large segment size
- B. RAID 1 and a small segment size
- C. RAID 5 and default cache block size
- D. RAID 1 and 32k cache block size

Answer: A

Question: 4

A customer owns a 500 GB usable RAID 5 SCSI disk subsystem attached to a single host and wants to increase data throughput, reliability, availability, and serviceability. Cost is a significant consideration. Which solution meets the customer's requirements?

- A. Convert the RAID 5 subsystem to a RAID 1 subsystem
- B. Convert the existing subsystem to dual-attached SCSI
- C. Replace the existing subsystem with an IBM System Storage DS4000
- D. Replace the existing subsystem with an IBM System Storage DS3000

Answer: D

Question: 5

When an Oracle database is not cache friendly and has a high number of writes, which disk technology provides the best performance on the IBM System Storage DS6800?

- A. 73 GB 10K RPM disk drives
- B. 73 GB 15K RPM disk drives
- C. 146 GB 10K RPM disk drives
- D. 146 GB 15K RPM disk drives

Answer: B

Question: 6

A customer is adding an IBM System Storage DS4800 for a new Exchange 2003 e-mail solution to meet the following requirements:

- 20% yearly growth
- 2,500 mailboxes -- approximately 50/50 mix of read/write operations

The storage specialist has been asked to model this configuration using the expected workload to verify the solution. What is needed to start modeling?

- A. 73 GB 15K RPM drives
- B. The size of the users' Exchange mailbox
- C. The number of servers running Exchange
- D. Jetstress tool that will be used to emulate the Exchange environment

Answer: B

Question: 7

A customer currently has an IBM System Storage DS4300 and an EMC CX500 installed in its data center that provides storage capacity for existing Windows servers. The customer wants to preserve its investment in these systems by implementing an IBM System Storage SAN Volume Controller to virtualize the storage. What must the customer do with regard to its multi-path I/O drivers for the Windows servers?

- A. The customer needs to use RDAC to manage the multiple redundant paths for the DS4300 and the CX500.
- B. The customer needs to migrate to PowerPath to manage the multiple redundant paths for the DS4300 and the CX500.
- C. The customer needs to use RDAC for the DS4300 and PowerPath for the CX500 to manage the multiple redundant paths.
- D. The customer needs to migrate to SDD to manage the multiple redundant paths for the DS4300 and the CX500.

Answer: D

Question: 8

IBM LTO Ultrium 4 technology has which of the following characteristics?

- A. 200 GB capacity per tape and 40 MB per sec data throughput
- B. 400 GB capacity per tape and 80 MB per sec data throughput
- C. 500 GB capacity per tape and 100 MB per sec data throughput
- D. 800 GB capacity per tape and 120 MB per sec data throughput

Answer: D

Question: 9

When a customer has a critical situation, who on the IBM team is the central point of contact to organize resources to fix the problem?

- A. Client Representative
- B. Customer Support Representative
- C. Field Technical Sales Support
- D. Customer Engineer

Answer: B

Question: 10

A customer wants to mix Windows and AIX servers on the same SAN. What does the customer need to ensure success?

- A. The correct number of ports on the SAN switches
- B. The proper size disk drives
- C. Sufficient disk drives for each server
- D. Zoning of the SAN switches

Answer: D

Question: 11

A customer has several Intel-based servers with local attached disk. They recently installed an IBM System Storage DS8100 attached to two UNIX servers for a database application. The customer is now interested in evaluating duplicate files in their Intel environment. Which IBM product best meets the customer's requirement?

- A. IBM TotalStorage Productivity Center for Data
- B. IBM TotalStorage Productivity Center for Disk
- C. IBM TotalStorage Productivity Center for Fabric
- D. IBM Tivoli Storage Manager

Answer: A

Question: 12

What is the function of the IBM Remote Support Manager (RSM)?

- A. Monitors system status and e-mails the customer when problems occur
- B. Monitors system status and pages the customer when problems occur
- C. Monitors the system environment and provides control of power, fan, and controller activities
- D. Monitors system health and automatically notifies the IBM Support Center via e-mail when problems occur

Answer: D

Question: 13

Which resource makes it possible for new configurations to be supported by IBM?

- A. Request Detail Document (RDD)
- B. Request for Information (RFI)
- C. Request for Price Quotation (RPQ)
- D. Request a Letter 112

Answer: C

Question: 14

A customer has ten servers including Windows, Solaris, and AIX that need direct access to a single-tape solution. Which tape solution is the most cost-effective way to meet this requirement?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
