000-253

IBM

IBM WebSphere Application Server Network Deployment
V6.1 Core Administration

The 000-253 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-253 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-253 exam is very challenging, but with our 000-253 questions and answers practice exam, you can feel confident in obtaining your success on the 000-253 exam on your FIRST TRY!

IBM 000-253 Exam Features

 - Detailed questions and answers for 000-253 exam
 - Try a demo before buying any IBM exam
 - 000-253 questions and answers, updated regularly
 - Verified 000-253 answers by Experts and bear almost 100% accuracy
 - 000-253 tested and verified before publishing
 - 000-253 examcollection vce questions with exhibits
 - 000-253 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-253 exam are now continuously updating and accepting this challenge is itself a task. This 000-253 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-253 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 000-253 Test and save time and money while developing your skills to pass your IBM 000-253 Exam? Let us help you climb that ladder of success and pass your 000-253 now!

QUESTION 1

Which statement describes the relationship between WebSphere MQ and Web Sphere default messaging as a JMS provider?

A. Default messaging relies on WebSphere MQ as the JMS Provider
B. Default messaging is a version of WebSphere MQ
C. WebSphere MQ and default messaging are separate and do not share any modules or configuration data
D. WebSphere MQ and default messaging must share the same Cloudscape database

Answer: C

QUESTION 2

When attempting to install WebSphere Application Server v6.1 using the silent install, the installation fails early in the process and no log files appear to be created in the logs directory. Which two steps can the administrator perform to troubleshoot the issue?
A. Restart the installation after an OS restart
B. Restart the installation with the log parameter
C. Look for the log files in the system temporary area
D. Run the installation verification test (IVT)
E.Start over by creating a new responsefile.txt using the responsefile.base.txt

Answer: B,C

QUESTION 3

What is the name of the WebSphere scripting tool?

A. wasadmin
B. ws_ant
C. wsadmin
D. wsdeploy

Answer: C

QUESTION 4

An administrator is configuring JDBC database connections. Where is the file system path to the DB2 or Oracle driver .zip files specified?

A. On the Connection manager J2C configuration panel
B. From the Environment -> WebSphere Variables panel of the administration Console
C. Within the .ear file of the deployed application
D. Within the connection pool parameters for the cell

Answer: B

QUESTION 5

When installing WebSphere Application Server v6.1 along with IBM HTTP server and related plug-ins, an administrator notices the following message in the
<plugins_root>/logs/install/log.txt
Plug.install, com.ibm.ws.install.ni.ismp.actions.
ISMPComponentizedFileRepositoryDeployAction, Err, Component not found: prereq.jdk
Which two additional entries should the administrator verify?

A. The PLUGIN_JDK_ROOT value in log.txt
B. The JAV_HOME system environment variable
C. The CURRENT_WORKING_DIRECTORY value in log.txt
D. The CLASSPATH system environment variable
E. The JAVA_INSTALL_PATH value in log.txt

Answer: C,E

QUESTION 6

While an administrator is using the Tivoli Performance Viewer to analyze a performance problem with a production application server, the administrator notes that the database connection pools have a much lower percentage of utilization than the other pools. Which statement explains this observation?

A. The Tivoli Performance Viewer percentages are only useful for performing performance analysis on a server that is executing in a controlled load test scenario
B. the database server is constrained, causing calls to the database to consume more resources than are available for processing
C. The connection pools have not been defined to account for parallel application server calls to the database, causing this particular server to show low utilization
D. This Condition indicates there is a bottleneck in one of the processes upstream in the pipeline of process flows within the application server

Answer: D

QUESTION 7

It has been decided to use database session persistence for a particular J2EE application.
Which two steps must be performed to implement this feature?

A. Create session database
B. Select a multi row schema
C. Configure the JDBC provider and data source
D. Create session database tables
E. Configure row size to match session size

Answer: A,C

QUESTION 8
Which statement is true for a managed application server process to startup?

A. Starting a managed server is not dependent on the presence of a running deployment manager
B. The node agent should not be started before any managed servers on that node
C. A node agent and deployment manager must be running before starting a managed server
D. The deployment manager needs to be started before the managed server

Answer: A

QUESTION 9
When adding a new member to a cluster, why might it be necessary for an administrator to select the option for generating unique HTTP ports?

A. To prevent other applications from using these ports
B. To avoid port conflicts with other servers on the same node
C. To enable encryption over the secure HTTP ports
D. To ensure that cluster members on different nodes have unique ports

Answer: B

QUESTION 10
What are the three possible modes that the replication service instance can be set up to run in?

A. Server mode
B. Broadcast mode
C. Client mode
D. Both Mode
E. Publish/Subscribe mode
F. Event Listener mode

Answer: A,C,D

QUESTION 11
The WebSphere scripting tool supports which two scripting languages?

A. Ant
B. Perl
C. Jacl
D. Jython
E. BSF

Answer: C,D

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
