000-433

IBM

IBM Tivoli Storage Manager V5.5 Implementation

<http://www.ipass4sure.com/exams.asp?examcode=000-433>

The 000-433 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-433 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-433 exam is very challenging, but with our 000-433 questions and answers practice exam, you can feel confident in obtaining your success on the 000-433 exam on your FIRST TRY!

IBM 000-433 Exam Features

- Detailed questions and answers for 000-433 exam
- Try a demo before buying any IBM exam
- 000-433 questions and answers, updated regularly
- Verified 000-433 answers by Experts and bear almost 100% accuracy
- 000-433 tested and verified before publishing
- 000-433 examcollection vce questions with exhibits
- 000-433 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-433 exam are now continuously updating and accepting this challenge is itself a task. This 000-433 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-433 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-433 Test and save time and money while developing your skills to pass your IBM 000-433 Exam? Let us help you climb that ladder of success and pass your 000-433 now!

Question: 1

A customer has a Tivoli Storage Manager (TSM) server connected to a library with four LTO4 tape drives, and a backup window of six hours. As LAN backup clients, 20 file servers with 60 GB of data each and a daily change rate of 10% must perform incremental backups, and four database servers with 100 GB of data each must do full backups every day. What is the minimum network infrastructure on the TSM server necessary to accomplish the backup?

- A. T3 45 Mbps
- B. ATM 155 Mbps
- C. 1 Gbps Ethernet
- D. 2 Gbps Fibre Channel

Answer: C

Question: 2

In case of an on-site disaster where several Tivoli Storage Manager (TSM) clients are lost, you want to be able to restore the clients' most recent version of data as quickly as possible. You also want to have all versions of backup-client backup data protected in case of a total site disaster. Which configuration best achieves this?

- A. two copy storage pools and one active data storage pool
- B. primary pool plus one copy storage pool and one active data storage pool
- C. primary pool plus two active data storage pools and no copy storage pool
- D. primary pool plus two copy storage pools and no active data storage pool

Answer: B

Question: 3

Which backup methodology should be implemented to prevent transfer of unprotected data across the network?

- A. enable data encryption using the encrypt.fs option
- B. enable data compression using the compression option
- C. enable data encryption using the include.encrypt option
- D. enable data validation using the validatedataprotocol option

Answer: C

Question: 4

A customer has a failure on a server in a remote location from the main data center where the Tivoli Storage Manager (TSM) server is located. Restoring this server's data is not practical over the network, which was used to back it up over the last several years. What is the most practical way to restore this server?

- A. initiate a remote restore and turn compression on at the tape library
- B. use the adaptive subfile differencing restore feature of the TSM client
- C. have TSM create a backup set for this client and use it to restore the client data
- D. create a TSM database backup and ship it along with client data tapes to restore the data at the remote location

Answer: C

Question: 5

Which resource should you use to verify that the Tivoli Storage Manager (TSM) V5.5 server is supported on AIX V5.3, 64 bit mode, on a pSeries server?

- A. AIX support web site
- B. TSM Concepts Redbook
- C. IBM/Tivoli support web site
- D. pSeries support web site

Answer: C

Question: 6

A customer requires separate TSM server instances, nightly backups, seven Informix servers, three Microsoft SQL servers, eleven SAP R/3 servers, eight terabytes total data, 20% nightly change, and 55% annual growth.

Which TSM solution meets the customer requirements?

- A. TSM Extended Edition and Tivoli Continuous Data Protection for Files
- B. TSM Extended Edition, TSM for Advanced Copy Services, and TSM for Mail
- C. IBM System Storage Archive Manager for Data Retention and TSM for Databases
- D. TSM Extended Edition, TSM for Enterprise Resource Planning, and TSM for Databases

Answer: D

Question: 7

Before installing a Tivoli Storage Manager (TSM) server on an AIX system, the administrator must check hardware and software configurations to ensure the current system meets TSM server requirements. What are two essential elements on this checklist? (Choose two.)

- A. Operating system level
- B. GPFS file system available
- C. Java Runtime Environment level
- D. Graphical interface installed and working properly
- E. Communication protocols installed and configured

Answer: A, E

Question: 8

A customer has several applications which must be backed up with a new Tivoli Storage Manager backup solution. Which three applications easily fit into a customer's new backup plan? (Choose three.)

- A. DB2
- B. EMC
- C. SAS
- D. Siebel
- E. Exchange
- F. SQL Server

Answer: A, E, F

Question: 9

Which two databases are supported with the product Tivoli Storage Manager for Databases? (Choose two.)

- A. Oracle
- B. Sybase
- C. MySQL

- D. Microsoft Access
- E. Microsoft SQL Server

Answer: A, E

Question: 10

A customer has noticed the Tivoli Storage Manager (TSM) server recovery log almost reaches the maximum limit of 13 GB several times during the week (mostly during the weekend). What is the best way of addressing this issue?

- A. Define a space trigger on the TSM database
- B. Define a backup trigger on the TSM database
- C. Define a space trigger on the TSM recovery log
- D. Define a backup trigger on the TSM recovery log

Answer: B

Question: 11

A customer needs to increase the extra inactive versions of data they keep. Which policy setting do they need to modify in order to satisfy their new service level agreement?

- A. Versions Data Exists
- B. Retain Extra Versions
- C. Retain Active Versions
- D. Retain Inactive Versions

Answer: A

Question: 12

When should you use the Tivoli Storage Manager (TSM) Windows Setup Wizard?

- A. For the first client setup only
- B. For changed or new client setups
- C. For the first Storage Agent setup only
- D. For collecting data to send to IBM for problem determination

Answer: B

Question: 13

Which URL must you use to connect to the default installation of the Tivoli Integrated Solutions Console interface?

- A. <http://hostname:1580/ibm/console>
- B. <http://hostname:1581/ibm/console>
- C. <http://hostname:8420/ibm/console>
- D. <http://hostname:8421/ibm/console>

Answer: D

Question: 14

Which statement is true about journal based backup (JBB)?

- A. JBB should be activated on all systems with more than 500 GB of data.
- B. The first backup after enabling JBB will be a regular Full incremental backup.
- C. JBB should only be activated on systems with more that 500 GB of free space.

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
