000-578

IBM

Fundamentals of Applying Tivoli Service Availability and Performance Management Solutions V3

<http://www.ipass4sure.com/exams.asp?examcode=000-578>

The 000-578 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-578 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-578 exam is very challenging, but with our 000-578 questions and answers practice exam, you can feel confident in obtaining your success on the 000-578 exam on your FIRST TRY!

IBM 000-578 Exam Features

- Detailed questions and answers for 000-578 exam
- Try a demo before buying any IBM exam
- 000-578 questions and answers, updated regularly
- Verified 000-578 answers by Experts and bear almost 100% accuracy
- 000-578 tested and verified before publishing
- 000-578 examcollection vce questions with exhibits
- 000-578 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-578 exam are now continuously updating and accepting this challenge is itself a task. This 000-578 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-578 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-578 Test and save time and money while developing your skills to pass your IBM 000-578 Exam? Let us help you climb that ladder of success and pass your 000-578 now!

QUESTION: 1

Which IBM product provides a visual representation of the status of a company's business lines?

- A. IBM Tivoli Monitoring
- B. IBM Tivoli Network Manager
- C. IBM Tivoli Netcool/OMNIBus
- D. IBM Tivoli Business Service Manager

Answer: D

QUESTION: 2

What is a good way to identify personnel in an IT organization when trying to determine key decision makers?

- A. Determine who is able to get their tasks done the most quickly
- B. Determine who gets the most important tasks in the organization
- C. Identify if any staff members are always available during interviews
- D. Identify the staff members who have been at the organization the longest

Answer: B

QUESTION: 3

A large shipping company currently employs IBM Tivoli Monitoring, IBM Tivoli Netcool/OMNIBus, and the Syslog and MTTTrapd probes within their monitoring environment. There is currently a collection layer Object Server and a single IBM Tivoli Monitoring instance. The customer wants to deploy IBM Tivoli Netcool/Impact and IBM Tivoli Composite Application Manager for Internet Service Monitoring to add this functionality to the current monitoring environment:

- Event enrichment and correlation based on data within the CMDB
- Monitoring of DNS and HTTP services
- Auto-ticketing capability through WebServices -TCP port monitoring
- Monitoring of LDAP service availability

Which two statements describe the additional value provided by the monitoring solution described above? (Choose two.)

- A. Closed-loop change management
- B. Improvement in mean time to recovery
- C. Improved redundancy within the monitoring solution
- D. Application transaction response time monitoring will improve
- E. New metrics and key performance indicators will be available to identify service performance

Answer: B, E

QUESTION: 4

Which IBM product can be used to open help desk tickets in HP Service Manager based on external customer data?

- A. IBM Tivoli Netcool/Impact
- B. IBM Tivoli Netcool/OMNIBus
- C. IBM Tivoli Business Service Manager
- D. IBM Tivoli Composite Application Manager for Applications

Answer: A

QUESTION: 5

How are business processes identified?

- A. Scope of the software
- B. Information gathered from end users
- C. Information gathered in stakeholder meeting
- D. Interviews with the key personnel that help determine the workflow

Answer: D

QUESTION: 6

Which IBM product can receive events from Nagios and open tickets in HP Service Desk?

- A. IBM Tivoli Monitoring
- B. IBM Tivoli Netcool/Impact
- C. IBM Tivoli Netcool/OMNIBus
- D. IBM Tivoli Composite Application Manager for Applications

Answer: C

QUESTION: 7

A customer currently leverages IBM Tivoli Netcool/OMNIBus, various probes, and IBM Tivoli Netcool/Impact as part of their monitoring solution. They want to add dashboards

and service views to their environment so that they can better monitor the health of their services and determine the root cause of any incidents in a proactive way. The customer has no prior experience with IBM Tivoli Business Service Manager and has not yet leveraged the dashboard functionality within IBM Tivoli Netcool/OMNIBUS Web GUI. They want to understand the product capabilities in their environment before they make a decision on their solution toolset. Which presentation methodology would be best suited for the customer?

- A. White boarding session
- B. Proof of concept followed by a presentation
- C. Live demonstration of a controlled test environment
- D. Microsoft PowerPoint presentation with dashboard and service view screenshots

Answer: B

QUESTION: 8

By measuring the factors like flexibility, supportability, performance, and coverage of the application what will be known about the application?

- A. The weakness of the current application
- B. The ways one can improve the application
- C. The end-to-end solution in which the application is used
- D. The Key Performance Indicators and Service Level Agreement of the current application

Answer: A

QUESTION: 9

A customer has extensive education requirements based on the products being delivered and the number of personnel being educated. Which two components should be included in the education plan? (Choose two.)

- A. Group travel costs
- B. Review white papers and IBM documentation
- C. An onsite training plan to cover all delivered products
- D. A Web-based education plan to cover all delivered products
- E. Schedule training in groups of six to optimize the class size

Answer: C, D

QUESTION: 10

Which two systems need to be documented when gathering information for a Service Availability and Performance Management project? (Choose two.)

- A. Storage Systems
- B. Event Management Systems
- C. Network Management Systems
- D. Application Development Systems
- E. Environmental Monitoring Systems

Answer: B, C

QUESTION: 11

Which two tasks should be performed when producing a project plan for a Service Availability and Performance Management solution? (Choose two.)

- A. Create a work breakdown structure
- B. Schedule working group meetings for the project
- C. Develop a timeline based on a level of effort for each milestone
- D. Identify the team members that will be working on the solution
- E. Develop a system to identify milestones as the project progresses

Answer: A, C

QUESTION: 12

Acme Corporation's (ACME) core business is to provide electronic payment services to financial institutions and companies worldwide. They serve clients worldwide with local offices in the Americas, EMEA, and Asia Pacific. There are data centers located in North America, South America, China, and Italy. One of ACME'S core services is credit card transaction processing (CCTP). At the core of CCTP are multiple clusters of application servers running IBM WebSphere. Transactions are stored in a database environment running on the mainframe. There are additional distributed databases to the application running on Oracle and MS SQL. The clusters of application servers are distributed throughout the data centers. The customers' clients connect to the environment Web-based services such as SOAP, and message queues such as IBM WebSphere MQ. In addition the client hosts dedicated CCTP environments for some of its customers. ACME is experiencing several issues with CCTP. John W. Smith is the Chief Information Officer (CIO) and has contacted an outside company to possibly assist with addressing these issues. After an initial kick-off call with John W. Smith, he has identified the following individuals as part of his team that the outside company will be working with:

Molly Fox - Vice President of Operations
Dennis Boucher- Vice President of Development
