000-978

IBM

Power Systems with POWER7 and AIX Technical Sales Skills - v1

<http://www.ipass4sure.com/exams.asp?examcode=000-978>

The 000-978 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-978 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-978 exam is very challenging, but with our 000-978 questions and answers practice exam, you can feel confident in obtaining your success on the 000-978 exam on your FIRST TRY!

IBM 000-978 Exam Features

- Detailed questions and answers for 000-978 exam
- Try a demo before buying any IBM exam
- 000-978 questions and answers, updated regularly
- Verified 000-978 answers by Experts and bear almost 100% accuracy
- 000-978 tested and verified before publishing
- 000-978 examcollection vce questions with exhibits
- 000-978 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-978 exam are now continuously updating and accepting this challenge is itself a task. This 000-978 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-978 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-978 Test and save time and money while developing your skills to pass your IBM 000-978 Exam? Let us help you climb that ladder of success and pass your 000-978 now!

QUESTION: 1

Which IBM external storage subsystem model can be natively attached to an IBM i partition?

- A. DS8000
- B. DS5500
- C. DS4500
- D. DS4700

Answer: A

QUESTION: 2

Which of the following describes IBM i DB2 reliability?

- A. DB2 is integrated throughout IBM i which results in a more dependable system.
- B. DB2 Enterprise Edition for IBM i contains programming interfaces designed to prevent data and hardware error conflicts.
- C. The simplified database design of DB2 on IBM i creates seamless compatibility between table data and hardware technology.
- D. DB2 within IBM i uses referential integrity to prevent incomplete database transactions, resulting in a high degree of database stability.

Answer: A

QUESTION: 3

A customer is replacing their current system running 5250 applications with a Power 750. They also intend to implement a WebSphere solution but are undecided whether to run it on Power or x86. Which of the following favors running WebSphere on Power instead of on x86?

- A. The Power 750 can run Windows under PowerVM.
- B. The lower Total Cost of Ownership of IBM i Standard Edition.
- C. WebSphere Application Server is included with IBM i Enterprise Edition.
- D. WebSphere on Power provides greater functionality than WebSphere on x86

Answer: C

QUESTION: 4

A prospective customer has heard that IBM i on Power reduces systems administration resource requirements. The prospect currently uses Windows to run their business. Which of the following explains lower systems administration requirements?

- A. IBM i includes Smart Analytics which provides physical and virtual systems management capability.
- B. IBM i provides a single management interface for automating storage, network, backups and many administrator tasks.
- C. Power Systems hardware built for IBM i simplifies operations by creating a highly self managed and self healing ecosystem.
- D. IBM i includes Systems Director Express Edition which provides an intuitive operations and systems console and performs most functions normally required by a system administrator.

Answer: B

QUESTION: 5

A client is looking for ways to simplify the management of disk space on their x86 file server. They have available disk space on their Power 520 and would like to understand the advantages of using this space and IBM i to help solve this problem. Which of the following optimization features of IBM i will address these issues?

- A. Single consistent system-wide interface
- B. Integrated Systems Director and iSeries Navigator
- C. Shared folders and virtual disk using iSCSI connectivity
- D. Dynamic management of files, programs, and space allocation

Answer: D

QUESTION: 6

A CFO has requested a proposal for a database solution. The environment currently includes several Dell servers which require constant manipulation of the data and the Oracle database software. What part of a Power Systems solution addresses the customer pain point?

- A. IBM i automates storage management.
- B. Business Analytics enables easier data manipulation.
- C. Power Turbo Mode provides lowers database licensing cost.
- D. Capacity Upgrade on Demand enables dynamic addition of processors.

Answer: A

QUESTION: 7

A customer is investigating a new ERP application. It can run under Windows or IBM i. The customer believes that IBM i is much more expensive than x86 with Windows. What advantages should be emphasized to this customer?

- A. The IBM i Express Edition allows applications to run with less overhead. The hardware is better utilized due to superior virtualization.
- B. The application can run on Windows servers and the database under IBM i. Systems Director will manage this environment with less staff.
- C. The TCA of POWER7 is significantly lower than previous POWER technologies. Windows will run in an LPAR. Systems Director will manage this environment with less staff.
- D. The TCA of POWER7 is significantly lower than previous POWER technologies. The hardware is better utilized due to superior virtualization and requires less staff to manage.

Answer: D

QUESTION: 8

Which IBM i Edition only adds DB2 for systems with processor-based pricing?

- A. Basic
- B. Express
- C. Standard
- D. Enterprise

Answer: C

QUESTION: 9

A customer wants to consolidate 2 older iSeries systems and 10 older pSeries systems on to a Power 750 with 6 active cores. What is required to create multiple Logical Partitions (LPARs)?

- A. Purchase PowerVM Standard Edition for the entire system.
- B. Purchase PowerVM Enterprise Edition for the entire system.
- C. Use the integrated function of IBM i to create all of the LPARs.
- D. Purchase PowerVM only for the cores that will have more than one LPAR.

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
