000-998

IBM

WebSphere Message Broker V6.0, System Admin

The 000-998 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-998 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-998 exam is very challenging, but with our 000-998 questions and answers practice exam, you can feel confident in obtaining your success on the 000-998 exam on your FIRST TRY!

IBM 000-998 Exam Features

  - Detailed questions and answers for 000-998 exam
  - Try a demo before buying any IBM exam
  - 000-998 questions and answers, updated regularly
  - Verified 000-998 answers by Experts and bear almost 100% accuracy
  - 000-998 tested and verified before publishing
  - 000-998 examcollection vce questions with exhibits
  - 000-998 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-998 exam are now continuously updating and accepting this challenge is itself a task. This 000-998 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-998 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 000-998 Test and save time and money while developing your skills to pass your IBM 000-998 Exam? Let us help you climb that ladder of success and pass your 000-998 now!

Question: 1
The mqsicreatedb command allows the creation and settings of which of the following?

A - All supported databases on all supported distributed platforms
B - The embedded Derby database on windows only
C - The embedded Derby and DB2 database on all supported platforms
D - The embedded Derby and DB2 databases on Windows only

Answer: D

Question: 2
A global company that spans multiple continents is using Publish/Subscribe to optimize the flow of publications and subscription registrations through the network. Which of the following should the company create?

A - A cloned broker in each major region joined into a global collective.
B - A broker domain in each major region and add the broker collective to each domain.
C - A collective and a broker in each major region and add the brokers to the other collectives.
D - A collective in each region and connect them by joining a single broker in each collective.

Answer: D

Question: 3
Which of the following actions can be performed on subscriptions when using the workbench?

A - Create, delete, modify and list
B - Create, delete and list
C - List and modify
D - List and delete

Answer: D

Question: 4
What will be the outcome once the following command is issued?

mqsicreateexecutiongroup -i localhost-p 1414 -q MYQMGR -b MYBROKER e EG1

A - A command is sent to the Configuration Manager which creates the execution group EG1 on the MYBROKER broker.
B - The Configuration Manager sends a command to the brokers queue manager 'MYQMGR' which then creates an execution group called EG1 on the broker 'MYBROKER'.
C - The Configuration Manager creates an execution group EG1 on the broker when it is next deployed.
D - The Broker's queue manager 'MYQMGR' receives a request to create an execution group called EG1 over port 1414.

Answer: C

Question: 5
What is used to start WebSphere Message Brokers components in the Linux and UNIX environments?

A - Any user ID in the mqbrkrs group
B - The user ID 'root' or the service ID
C - The WebSphere Message Broker Toolkit

D - The Configuration Manager Proxy

Answer: B

Question: 6
The HTTPustener is the broker component that waits for incoming Web service requests, by default, listening on port 7080. A broker called ORDBRK1 runs in a distributed (non-z/OS) environment. When an administrator issues a netstat -a command, port 7080 is not showing up. What is the most likely reason for this problem?

A - Although the port number is set to a default, the listener has to be started using mqsistart HTTPListener -p 7080.
B - The listener only shows up if it has been changed to a non-default value (something other than 7080).
C - The listener only activates when a message flow that includes Web services support is started.
D - The listener must be set to autostart using the mqsichangeproperties command for the broker.

Answer: C

Question: 7
In a Publish/Subscribe topology, what is the best way to improve performance without adding new hardware?

A - Clone the brokers.
B - Join broker in a collective and clone the broker.
C - Join brokers in a collective.
D - Add another broker to the domain.
E - Add multiple instances or execution groups.

Answer: C

Question: 8
A company is interested in having individual messages transmitted to various consumers throughout their network. Message persistence is not a concern, however simultaneous reception of the message is. Which WebSphere Message Broker function is best to use to meet this requirement?

A - WebSphere MQ queuing
B - Publish/Subscribe
C - WebSphere MQe nodes
D - Real-time transport with multicast

Answer: D

Question: 9
Multiple execution groups were created on a broker so that each developer in a team has his/her own execution group for deploying and testing the Message Broker artifacts without interfering with others. How should an administrator set up the access control for the team in the broker domain?

A - Grant each developer the Full access to his/her own execution group in the WebSphere Message Brokers Toolkit.

B - Grant each developer the Full access to his/her own execution group using the command mqsicreateaclentry.
C - Grant all the developers the Full access to the broker using Configuration Manager Proxy (CMP) API.
D - Add all the developers to the mqbrkrs and mqm groups on the server.

Answer: B

Question: 10
A new message flow requires HTTP connectivity that requires the right listener port to be set for the broker instance. It what two ways can this be accomplished?

A - Set the properties in the HTTP Input node.
B - Set the broker properties using the "mqsichangeproperties" command.
C - Set the broker parameters using "mqsichangebroker".
D - Define the listener port for the brokers queue manager.
E - Set the listener port when the message flow is started using "mqsistartflow".

Answer: B, C

Question: 11
An administrator needs to modify the ConfigurationTimeout and Contiguration Delay Timeouts of a broker on Z/OS at the command console to 100 and 200 respectively. What command will need to be issued (Where BRKNAME is the broker name)?

A - /F BRKNAME,CHANGE g=100,k=200
B - /F BRKNAME,changebkr g=100,k=200
C - /F BRKNAME,cb g=100,k=200
D - /F BRKNAME ,mqsichangebroker g=100k=200

Answer: C

Question: 12
After setting up a shared development environment, an administrator needs to provide all of the following information for the domain connection EXCEPT:

A - the name of the queue manager used by the Configuration Manager.
B - the queue manager listener port.
C - the name of the Configuration Manager.
D - the name of the server which the Configuration Manager is running on.

Answer: C

Question: 13
A company has all of its Message Brokers in a Windows environment. The company wants to use WebSphere MQ V6.0 as an XA Transaction Manager in its environment. Which of the following databases CANNOT be used as a Resource Manager in this distributed X4 transaction?

A - DB2V8.2
B - Microsoft SQL Server 2000
C - Oracle 9i
D - Sybase 12.5

Answer: B

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
