IBM

00M-657 - IBM i2 Intelligence Sales Mastery Test v1

The 00M-657 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 00M-657 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 00M-657 exam is very challenging, but with our 00M-657 questions and answers practice exam, you can feel confident in obtaining your success on the 00M-657 exam on your FIRST TRY!

IBM 00M-657 Exam Features

- Detailed questions and answers for 00M-657 exam
- Try a demo before buying any IBM exam
- 00M-657 questions and answers, updated regularly
- Verified 00M-657 answers by Experts and bear almost 100% accuracy
- 00M-657 tested and verified before publishing
- 00M-657 examcollection vce questions with exhibits
- 00M-657 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 00M-657 exam are now continuously updating and accepting this challenge is itself a task. This 00M-657 test is an important part of IBM certifications. We have the resources to prepare you for this. The 00M-657 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 00M-657 Test and save time and money while developing your skills to pass your IBM 00M-657 Exam? Let us help you climb that ladder of success and pass your 00M-657 now!

QUESTION: 1
What is one of the key benefits to an organization of introducing IBM i2 IntelliShare?

A. IBM i2 IntelliShare will auto-connect intra-organization data silos through enterprise access to enriched data manipulation services.
B. IBM i2 IntelliShare will remove the drawbacks caused by the presence of intra-organization data silos through enterprise access to a single intelligence agency.
C. IBM i2 IntelliShare will remove the drawbacks caused by the presence of intra-organization data silos through enterprise access to smart phone apps.
D. IBM i2 IntelliShare will remove the drawbacks caused by the presence of intra-organization data silos through enterprise access to an enriched single intelligence store.

Answer: D

QUESTION: 2
The IBM i2 Analysts Notebook could be described as:

A. Analyst's Notebook is a web application designed to provide users with a powerful visualization and analytical tool. Analyst's Notebook has a set of programmable JAVA based controls.
B. Analyst's Notebook is a standalone desktop product designed to provide users with a powerful visualization tool. Analyst's Notebook has an API to enable programmatic control of the application via the Analyst's Notebook SDK.
C. Analyst's Notebook is a standalone desktop product designed to provide users with a powerful analytical tool. Analyst's Notebook has an API to enable programmatic control of the application via the Analyst's Notebook SDK.
D. Analyst's Notebook is a standalone desktop product designed to provide users with a powerful visualization and analytical tool. Analyst's Notebook has an API to enable programmatic control of the application via the Analyst's Notebook SDK.

Answer: D

QUESTION: 3
One of the key capabilities of IBM i2 Analyst Notebook is that:

A. Intelligence Analysis Charts can be quickly generated by importing data direct from unstructured sources which can greatly reduce the time taken to import additional information into a chart.
B. Intelligence Analysis Charts can be quickly generated by dragging and dropping data in the form of entities, links and attributes onto the chart. Volume data can be

easily imported from structured data which can greatly reduce the time taken to import additional information into a chart.
C. Intelligence Analysis Charts can be quickly generated by dragging and dropping entropies, links, and attrition rates onto the chart.
D. Intelligence Analysis Charts can be used to perform lookups of internet data and show this in graphical format.

Answer: B

QUESTION: 4
How can the IBM i2 suite ensure that investments in existing systems can be preserved and enhanced to give greater operational benefit to a wider range of users in different geographical locations?

A. Thanks to the IBM i2 Intelligence Analysis Platform's ability to access multiple data sources across varied geographies via the internet, investigations and analysis can be carried out using the data from multiple sources
B. Because the IBM i2 Intelligence Analysis Platform has web search capabilities it can access all multiple data sources across multiple geographies at much lower cost.
C. The IBM i2 Intelligence Analysis Platform's capability to access all legacy data sources from one location retaining full integrity of their searches for investigations and analysis without the need to replace existing databases combined with its nodal technology enable the expansion of capability across multiple geographies.
D. The IBM i2 Intelligence Analysis Platform's nodal capability enables it to operate across multiple geographies but only if all the data is bought into one database.

Answer: C

QUESTION: 5
How can the IBM i2 suite enable financial organizations reduce the time taken and effectively manage risk when the required information comes form multiple data sources?

A. The IBM i2 Fraud Intelligence Analysis Platform enables financial organizations to automatically reconfigure the database schema to match the schemas of the legacy data sets.
B. The IBM i2 Fraud Intelligence Analysis Platform enables financial organizations to automatically reconfigure internal systems so that legacy systems are redundant.
C. The IBM i2 Fraud Intelligence Analysis Platform enables financial organizations to import, model, and analyze data within a single application.

D. The IBM i2 Fraud Intelligence Analysis Platform enables financial organizations to automatically connect to multiple data sets and import all of the data into a single repository via a stochastic web application.

Answer: C

QUESTION: 6
How can the IBM i2 suite ensure that investments in existing systems can be preserved and enhanced to give greater operational benefit?

A. The IBM i2 Intelligence Analysis Platform will access all legacy data sources and return the results in a user-friendly web search tool.
B. The IBM i2 Intelligence Analysis Platform has the capability to access all legacy data sources from one location retaining full integrity of their searches for investigations and analysis without the need to replace existing databases thus enabling the capability that would be gained from a combined system but at much lower cost.
C. Because the IBM i2 Intelligence Analysis Platform has web search capabilities it can access all data sources thus enabling the capability that would be gained from a combined system but at much lower cost.
D. Thanks to the IBM i2 Intelligence Analysis Platform's ability to access multiple data sources across varied geographies via the internet, investigations and analysis can be carried out using the data from multiple sources.

Answer: B

QUESTION: 7
How does the IBM i2 suite enable Chief Officers of Police and Executive teams to actively monitor trends in target crime areas and be assured that the information is in line with other performance information?

A. The IBM i2 Intelligence Analysis Platform enables Chief Officers to have a clear understanding of the accurate trends in criminality across their force/operational area that are consistent between both Business Performance and Intelligence Teams.
B. The IBM i2 Intelligence Analysis Platform enables Chief Officers to have a clear understanding of the accurate trends in criminality across their areas by accessing both local and national reports.
C. The IBM i2 Intelligence Analysis Platform provides an automatic overview of the accurate trends in criminality across their force/operational area.
D. The IBM i2 Intelligence Analysis Platform enables Chief Officers to have a clear understanding of the criminality across force/operational by means of RSS feeds.

Pass4sure Certification Exam Features;

- Pass4sure offers over **4500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **150** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
