CSE RSA SecurID 7.1

<http://www.ipass4sure.com/exams.asp?examcode=050-V710-SESECURID>

The 050-V710-SESECURID practice exam is written and formatted by Certified Senior IT Professionals working for today's prospering companies and data centers all over the world! The 050-V710-SESECURID Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 050-V710-SESECURID exam is very challenging, but with our 050-V710-SESECURID questions and answers you can feel confident in obtaining your success on the 050-V710-SESECURID exam on your FIRST TRY!

RSA 050-V710-SESECURID Exam Features

- Detailed questions and answers for 050-V710-SESECURID exam
- Try a demo before buying any RSA exam
- 050-V710-SESECURID questions and answers, updated regularly
- Verified 050-V710-SESECURID answers by Experts and bear almost 100% accuracy
- 050-V710-SESECURID tested and verified before publishing
- 050-V710-SESECURID examcollection vce questions with exhibits
- 050-V710-SESECURID same questions as real exam with multiple choice options

Acquiring RSA certifications are becoming a huge task in the field of I.T. More over these exams like 050-V710-SESECURID exam are now continuously updating and accepting this challenge is itself. This 050-V710-SESECURID test is an important part of RSA certifications. We have the resources to prepare you for this. The 050-V710-SESECURID exam is essential and core part of RSA certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 050-V710-SESECURID Test and save time and money while developing your skills to pass your RSA 050-V710-SESECURID Exam? Let us help you climb that ladder of success and pass your 050-V710-SESECURID Exam.

QUESTION: 1

Enabling the system parameter option "Store time of last login in token records"

- A. increases authentication performance.
- B. is required in order for Lock Manager to prevent replay attacks.
- C. is required for accurate "Last Login" information in a Token Report.
- D. only applies if the Agent Host is using the RSA ACE/Agent 5.0 Authentication Protocol.

Answer: C

QUESTION: 2

To activate a Group on an Agent Host in another RSA ACE/Server Realm, you would

- A. enable External Authorization.
- B. edit the Realm Secret of the Agent Host.
- C. mark the Agent Host "Open to All Locally Known Users".
- D. duplicate the Agent Host record in the Group's home Realm.

Answer: D

QUESTION: 3

In Authentication Manager version 7.1 terminology, a "Server Node" is used to

- A. Replicate the database in either a Primary or Replica instance cluster.
- B. Gather and re-direct authentication requests from Agents to an available server.
- C. Provide a stand-alone database available to either a Primary or Replica instance.
- D. Provide additional authentication services in either a Primary or Replica instance cluster.

Answer: D

QUESTION: 4

The Offline Authentication feature is intended to allow

- A. the capability for a user to temporarily disable the Agent software while the user is working offline.

- B. an RSA SecurID authentication to be processed by a Replica server when the Primary server is offline.
- C. a user to complete an RSA SecurID authentication through the local Agent if the local Agent computer is offline.
- D. several users to use a single RSA SecurID token so that they can share another user's computer if their own computer is offline.

Answer: C

QUESTION: 5

In a Primary/Replica environment, administrative changes can be made only on a server in the Primary instance.

- A. True
- B. False

Answer: A

QUESTION: 6

Which of the following is NOT a component of the technology used within an RSA SecurID token?

- A. algorithm
- B. private key
- C. time source
- D. seed record

Answer: B

QUESTION: 7

The ACME Company has a Primary server instance located in New York and a Replica server instance located in Los Angeles. How is a new user in the Los Angeles office added to the RSA Authentication Manager database?

- A. The user must be manually added to both the Los Angeles and the New York instances.

- B. The Administrator adds the user to the New York instance, which replicates the data to the Los Angeles instance.
- C. The Administrator adds the user locally to the Los Angeles instance, which replicates the data to the New York instance.
- D. The user is automatically added to both the Los Angeles and New York instances when they first authenticate with a token.

Answer: B

QUESTION: 8

What is the maximum number of RSA SecurID tokens that can be simultaneously assigned and enabled on one RSA Authentication Manager user account?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: C

QUESTION: 9

RSA Authentication Manager Replica servers

- A. can be promoted to a Primary server through a command line utility.
- B. require that promotion to a Primary server be initiated on the Replica.
- C. allow the Super Admin administrator to perform user account changes if the Primary server is offline.
- D. can be configured to take over as a Primary server if x number of heartbeat signals are not detected within a specified time interval t.

Answer: B

QUESTION: 10

In an RSA Authentication Manager version 7.1 environment, data replication to provide failover capability can take place between (choose two)

- A. Server Nodes
- B. RADIUS servers
- C. Database servers
- D. Offline data stores
- E. Authentication Agents

Answer: B, C

QUESTION: 11

What two files are required when installing RSA SecurID Quick Admin?

- A. server.cer and sdti.cer
- B. sdconf.rec and sdti.cer
- C. server.cer and sdconf.rec
- D. server.key and sdconf.rec

Answer: A

QUESTION: 12

What types of events are recorded by default in the Authentication Activity Report? (Choose two)

- A. file mappings
- B. time of logout
- C. login requests
- D. network failures
- E. administrative logins

Answer: C, E

QUESTION: 13

After Installing the RSA ACE/Agent on Windows NT, what should be done to make sure the ACE/Agent will communicate with the RSA ACE/Server?

- A. test authentication
- B. clear node secret

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
