QUESTION 1:

Lilly has created a form that contains a field of Authors data type. The Role [Manager] is listed in the Authors field. Arthur is a reader in the ACL of the database that contains this form and is assigned the [Manager] Role.

What can Arthur do with documents created from this form?

- A. Read documents only since his ACL is Reader.
- B. Edit all documents created from any form within this database.
- C. Edit documents created from this form by other users and only read all other documents within the database.
- D. Edit and delete documents created from this form and only read other documents within this database.

Answer: A

QUESTION 2:

Kristy created a database with several views. Her default view has a read access list limiting use of the view to only some of the database users.

What will happen when users restricted from using the view open the database for the first time?

- A. Users will be prompted to choose an alternative view.
- B. Users will see a view other than the default view.
- C. Users will not be able to open the database.
- D. Users will see the view even though they aren't included in the read access list.

Answer: C

QUESTION 3:

There are both Web browser users and Notes client users at Adam's company. He wants to allow Web browser users to access an application, but not allow access by Notes client users.

Which one of the following would he assign in the ACL?

- A. No Access to Anonymous, and no entry for -Default.
- B. Reader access -Default-, and No Access to Anonymous.
- C. Reader access to -Default-, and no entry for Anonymous.
- D. No Access to -Default-, and Reader access to Anonymous.

Answer: D

QUESTION 4:

Henry wanted to use the Groups and Roles dialog box to find out why Lisa, a content creator, is unable to author documents in an application. However, the dialog box was NOT available.

Doing which of the following allows the dialog box to appear?

- A. Enforcing local encryption.
- B. Enforcing a consistent ACL.
- C. Placing Lisa's name in a role.
- D. Increasing Henry's ACL access level to Manager.

Answer: D

QUESTION 5:

Ronny has submitted some technical support questions to the STS company on their Web site. After 24 hours he goes to the STS folder on the site and reviews feedback. When he selects the folder, he receives a message that he is not authorized to access. However, he authenticated using an SSL Client Certificate and has Author access in the database.

Why can't Ronny open the folder?

- A. He needs Editor access or higher.
- B. He needs to be added to the folder Read Access list.
- C. He needs to be added to the Directly Link Access list.
- D. He needs to be added to the View Read Access list.

Answer: C

QUESTION 6:

Which one of the following access levels does Erhard need to create Roles in the ACL?

- A. Author
- B. Manager
- C. Designer
- D. RoleCreator

Answer: B

QUESTION 7:

APP1. NSF needs to replicate between two servers. ServerA should only be able to add and modify information in ServerB's replica copy of APP1. NSF. ServerB

190-510

should be able to pull new and modified information from ServerA's replica copy of APP1.NSF, but should not be able to write new or modified information to ServerA's copy. This is not happening.

Which one of the following levels of access should each server have?

- A. ServerA should have Author access to APP1.NSF on ServerB. ServerB should have Reader access to APP1.NSF on ServerA.
- B. ServerA should have Editor access to APP1.NSF on ServerB. ServerB should have reader access to APP1.NSF on ServerA.
- C. ServerA should have Manager access to APP1.NSF on ServerB. ServerB should have Reader access to APP1.NSF on ServerA.
- D. ServerA should have Editor access to APP1.NSF on ServerB. ServerB should have Depositor access to APP1.NSF on Server A.

Answer: B

QUESTION 8:

Which one of the following does this formula do when it is in a form action?

@MailSend("User1";"";"";" Urgent meeting";" Please attend";"")

- A. Sends a memo containing a subject and a copy to User1.
- B. Sends a memo containing two body field entries to Use1.
- C. Sends a memo containing a subject and a remark to User1.
- D. Sends a memo with the document attached as a document link.

Answer: C
