QUESTION 1:

SIMULATION

Simulation Exhibit:

Certkiller .com users access resources using a variety of client devices, some clinic-owned and some personal. A number of applications in the current environment are not running correctly on certain types of client devices, causing a steady increase in support calls to the Help Desk. The Clinic CIO wants to limit the client devices that can be used to access resources. Because only client devices that can support all of the currently installed applications are members of the Certkiller AC domain, limiting access to only domain-member devices should solve the problem.

You are requested to create a scan named " Certkiller AC Domain" that does the following:

1Y0-456

- * Ensures only client devices which are members of the Certkiller AC domain can be used to access resources.
- * Runs for the AllUsers logon point.
- * Runs against all client devices regardless of the operating system being used on the client device.

Answer:

QUESTION 2:

SIMULATION

Simulation Exhibit:

Certkiller GmbH. Currently uses LDAP for both authentication and authorization through their Citrix Access Gateway Advanced Edition 4.2 deployment. They have just purchased RSA Tokens for external users in order to improve access security. As part of this upgrade in security, the IT team has decided to use Active Directory for primary authentication and authorization.

You are required to perform the following tasks:

1. Enable all users to use Active Directory for authentication and authorization.
2. External users will be required to use RSA Tokens for secondary authentication

Answer:

QUESTION 3:

SIMULATION

Simulation Exhibit:

Certkiller .com is using Access Gateway Advanced Edition to control access to the file shares, network resources and email in the Certkiller .com corporate office. Certkiller .com wants to be able to improve communication among managers and clerks by providing them access to important corporate information using an internal web site. Because managers and clerks will be using computers which are unsecured to access the information, an additional layer of authentication is required. The users of the site should be able to browse to the URL for the site from external locations whenever needed.

You are required to perform the following tasks:

1. The name of the web site must be Certkiller News
2. The web site must be listed on the navigation page of the managers and clerks
