Citrix

Citrix WANScaler 4.2: Administration

The 1Y0-740 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 1Y0-740 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 1Y0-740 exam is very challenging, but with our 1Y0-740 questions and answers practice exam, you can feel confident in obtaining your success on the 1Y0-740 exam on your FIRST TRY!

Citrix 1Y0-740 Exam Features

- Detailed questions and answers for 1Y0-740 exam
- Try a demo before buying any Citrix exam
- 1Y0-740 questions and answers, updated regularly
- Verified 1Y0-740 answers by Experts and bear almost 100% accuracy
- 1Y0-740 tested and verified before publishing
- 1Y0-740 examcollection vce questions with exhibits
- 1Y0-740 same questions as real exam with multiple choice options

Acquiring Citrix certifications are becoming a huge task in the field of I.T. More over these exams like 1Y0-740 exam are now continuously updating and accepting this challenge is itself a task. This 1Y0-740 test is an important part of Citrix certifications. We have the resources to prepare you for this. The 1Y0-740 exam is essential and core part of Citrix certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 1Y0-740 Test and save time and money while developing your skills to pass your Citrix 1Y0-740 Exam? Let us help you climb that ladder of success and pass your 1Y0-740 now!

DEMO EXAM

Question: 1
Scenario: An administrator is implementing a WANScaler appliance in the branch office of a
telemarketing environment. Most of the traffic in this environment is voice over IP based.
However, the billing and collections team needs access to web servers in the corporate office.
Users in this environment have complained that it takes too long for them to access data in the
morning, between 9:00 AM and 10:30 AM. Coincidentally, this is when most of the billing and
collections employees begin their day. Which traffic type could the administrator accelerate in this
environment?

A. FTP
B. UDP
C. HTTP
D. Telnet

Answer: C

Question: 2
Scenario: An administrator is implementing a WANScaler appliance in an environment where the
majority of the traffic types are candidates for acceleration. There is an undetermined amount of
critical unaccelerated traffic that needs to be considered.
Which two options should the administrator implement to ensure that unaccelerated network
traffic types are not suppressed in this environment? (Choose two.)

A. Select hardboost.
B. Select partial bandwidth.
C. Fix the bandwidth limit to 50%.
D. Set the initial bandwidth to 90%.

Answer: B, D

Question: 3
In a high availability pair, configuration changes should be made using which IP address?

A. Virtual IP address
B. Subnet IP address
C. WANScaler IP address
D. Management IP address

Answer: A

Question: 4
Scenario: An administrator designing a WANScaler implementation would like the implementation
to be set up based on the following considerations:

1.The data center supports multiple branch offices, of which only one has a WANScaler
appliance.
2.The branch office WANScaler appliance should connect directly to the WAN router for the
branch office.
3.The headquarters WANScaler appliance should connect directly to the WAN router for the
headquarters.
4.All traffic from the branch office to servers at the headquarters should flow through the branch
office WANScaler appliance. Which WANScaler deployment topology should be used in this type
of implementation?

A. Star

B. Token Ring
C. Point-to-point
D. Hub-and-spoke

Answer: C

Question: 5
Which TCP variant would be appropriate in an environment where a site is connected to multiple WAN links, each of which has no guaranteed bandwidth?

A. Inline
B. Variable
C. Softboost
D. Hardboost
E. Full bandwidth

Answer: C

Question: 6
Scenario: An administrator would like to implement five WANScaler appliances in an environment. Four of the appliances are deployed in the branch offices and one in the data center. Each office has a single circuit to the data center. All appliances will be implemented in inline mode. The administrator wants to leverage the automatic bandwidth allocation feature. The administrator has decided that WANScaler QoS will not be implemented in this environment. Which physical WANScaler topology will be appropriate for this implementation?

A. Mesh
B. Full Mesh
C. Point-to-point
D. Hub-and-spoke

Answer: D

Question: 7
An administrator is implementing WANScaler appliances in an environment.
The administrator has been instructed to configure WANScaler appliances to accelerate traffic.
What are three types of traffic that can be accelerated by WANScaler appliances? (Choose three.)

A. SIP
B. FTP
C. NFS
D. CIFS
E. TFTP

Answer: B, C, D

Question: 8
Scenario: An administrator is instructed to implement two WANScaler appliances in high availability mode for a virtual inline deployment. In this environment, the switches and routers are already connected. What is the minimum number of Ethernet cables required to set up the WANScaler appliances in a single LAN, single WAN deployment?
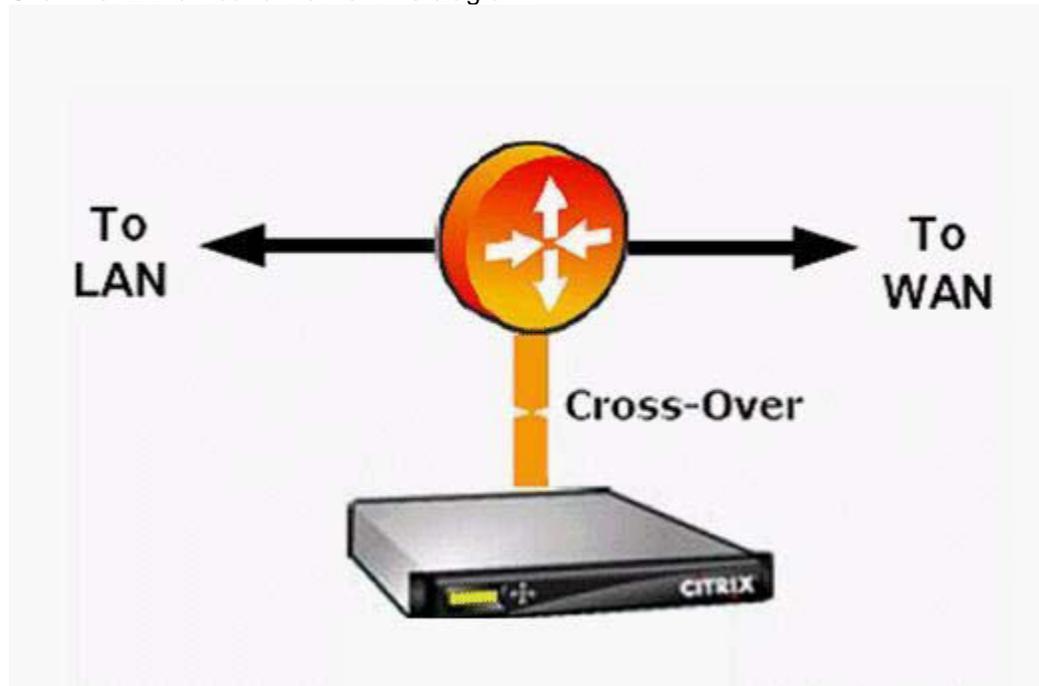

A. 1
B. 2

C. 3
D. 4

Answer: B

Question: 9
An administrator would like to implement a WANScaler appliance as depicted in the attached diagram.
Click the 'Exhibit' button to view the diagram.

In which deployment mode will the WANScaler appliance be implemented in this environment?

A. Inline
B. WCCP
C. Point-to-point
D. Virtual inline with policy-based routing

Answer: D

Question: 10
What should an administrator do to ensure that traffic is sent to the desired appliance when configuring WANScaler appliances in group mode?

A. Turn one of the appliances off in the group mode.
B. Assign the virtual IP address to the primary appliance.
C. Create forwarding rules that use explicit IP addresses.
D. Create a service class policy to manage the distribution of traffic.

Answer: C

Question: 11

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
