1Y0-A21

Citrix

Basic Administration for Citrix NetScaler 9.2

<http://www.ipass4sure.com/exams.asp?examcode=1Y0-A21>

The 1Y0-A21 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 1Y0-A21 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 1Y0-A21 exam is very challenging, but with our 1Y0-A21 questions and answers practice exam, you can feel confident in obtaining your success on the 1Y0-A21 exam on your FIRST TRY!

Citrix 1Y0-A21 Exam Features

- Detailed questions and answers for 1Y0-A21 exam
- Try a demo before buying any Citrix exam
- 1Y0-A21 questions and answers, updated regularly
- Verified 1Y0-A21 answers by Experts and bear almost 100% accuracy
- 1Y0-A21 tested and verified before publishing
- 1Y0-A21 examcollection vce questions with exhibits
- 1Y0-A21 same questions as real exam with multiple choice options

Acquiring Citrix certifications are becoming a huge task in the field of I.T. More over these exams like 1Y0-A21 exam are now continuously updating and accepting this challenge is itself a task. This 1Y0-A21 test is an important part of Citrix certifications. We have the resources to prepare you for this. The 1Y0-A21 exam is essential and core part of Citrix certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 1Y0-A21 Test and save time and money while developing your skills to pass your Citrix 1Y0-A21 Exam? Let us help you climb that ladder of success and pass your 1Y0-A21 now!

QUESTION: 1

In order to prevent configuration errors from typographical errors and to streamline the creation of expressions, an administrator should leverage _____ when creating policies. (Choose the correct option to complete the sentence)

- A. Pattern sets
- B. Entity template
- C. Inline expressions
- D. named expression

Answer: A

QUESTION: 2

An administrator has executed the following commands:

- enable ns feature
- add service s1 1.1.1.1 HTTP 80
- add service s2 1.1.1.2 HTTP 80
- add lb vserver vs1 HTTP 1.1.1.3 80

However, the administrator notices that the virtual server state is DOWN. Which action must the administrator take to set the virtual server state to UP?

- A. Set lb vserver vs1 –state UP
- B. Bind a monitor to the services
- C. Set vserver vs1 –accessDown yes.
- D. Bind the two services to the lb vserver vs1.

Answer: D

QUESTION: 3

The expression `<url ==txt res http header content-encoding == text/html>` can be used for _____ and _____. (Choose the correct two options to complete the sentence)

- A. caching
- B. compression
- C. load balancing
- D. surge protection

Answer: A, B

QUESTION: 4

An administrator is configuring a virtual server for encrypted traffic from clients that needs to be decrypted prior to being forwarded to the back-end servers. Which type of virtual server and service should the administrator configure?

- A. SSL server and service
- B. SSL_TCP virtual server and service
- C. SSL_TCP virtual server and TCP service
- D. STCP virtual server and SL_TCP service

Answer: C

QUESTION: 5

What can an administrator configure to perform a health check for a SVC1, which is transferring HTTPS traffic so that a probe is only sent when there is no traffic to the server?

- A. an HTTP monitor with the secure parameter selected
- B. an HTTP monitor with the transparent parameter selected
- C. an HTTP-Inline with the secure parameter selected
- D. an HTTP-ECV with the transparent parameter selected

Answer: C

QUESTION: 6

Which trap can an administrator set on a NetScaler system so that an alert is sent whenever an SNMP management application that does NOT have access privileges attempts to access a NetScaler?

- A. loginFailure
- B. accessFailure
- C. accessDenied
- D. authenticationFailure

Answer: D

QUESTION: 7

Scenario: A network administrator working with two NetScaler systems has encountered an issue with HA. The administrator notices that HA synchronization is failing. The administrator has already run the <show node> command on both nodes but needs more information. Which two additional steps should the administrator take to collect the appropriate data in order to troubleshoot this issue? (Choose two.)

- A. Collect the files in /var/core.
- B. Collect the files in /var/log/auth.log.
- C. Run show techsupport from both NetScalers.
- D. Run /netscaler/nstrace.sh -sz 0 to gather an nstrace.

Answer: A, D

QUESTION: 8

Scenario: An administrator finished installing a NetScaler appliance and configured a load balancing virtual server that has four services bound. The configured load balancing method for the virtual server is set to use least connection. The administrator later added a fifth server to the virtual server. However, when testing load balancing, the administrator finds that the virtual server is using round robin instead of least connection. Why would the NetScaler system be using round robin as the load balancing method instead of least connection?

- A. The administrator did not save the configuration correctly.
- B. The NetScaler is using slow start mode for the virtual server.
- C. Least connection will only function when more than five servers are load balanced.
- D. Least connection is not a load balancing method that can be used for Web servers.

Answer: B

QUESTION: 9

When leveraging the Dashboard, which information would indicate to an administrator that server performance has been improved after caching in a network environment?

- A. Client connection count increases

- B. Server-side request rate increases
- C. Client connection count decreases
- D. Sever-side request rate decreases

Answer: D

QUESTION: 10

Scenario: An administrator has set up four Web servers for toad balancing. The administrator wants to monitor the response codes from the site to determine whether the site is up. The administrator has bound a custom HTTP mentor to the WTTP services. When the monitor is bound, the services go down so the administrator unbinds the monitor to bring the state of the services to UP. The administrator runs a HTTP header trace and finds that the site is responding with a redirect. Which two options can the administrator use to get the service state to UP? (Choose two.)

- A. Create a new HTTP monitor with a 200 response code and bind it to the service.
- B. Create a new HTTP monitor with a longer response timeout and bind ft to the service.
- C. Modify the custom HTTP monitor with the same redirect response code the site is sending and bind ft to the service.
- D. Modify the custom HTTP monitor with the HTTP request going to a page that responds with a 200 response code and bind it to the service.

Answer: A, C

QUESTION: 11

Select the option that best describes your experience with planning the network deployment and architecture for a NetScaler 8.2 implementation.

- A. I have extensive experience identifying DNS needs and disaster recovery needs for a NetScaler implementation. I also have extensive experience determining the appropriate RNAT, VLAN(s), and IP addressing configurations when planning the network deployment.
- B. I have some knowledge that would help me identify DNS and basic disaster recovery needs for a NetScaler implementation. I also have some knowledge on RNAT, VLANs and IP addressing needs but would need someone with more experience to assist me with making the necessary configurations for a NetScaler deployment.
- C. I have some experience identifying DNS needs and basic disaster recovery needs for a NetScaler implementation. I also have some basic knowledge of how to determine the

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
