1Y0-A22

Citrix

Citrix XenApp 6.5 Advanced Administration

The 1Y0-A22 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 1Y0-A22 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 1Y0-A22 exam is very challenging, but with our 1Y0-A22 questions and answers practice exam, you can feel confident in obtaining your success on the 1Y0-A22 exam on your FIRST TRY!

Citrix 1Y0-A22 Exam Features

- Detailed questions and answers for 1Y0-A22 exam
- Try a demo before buying any Citrix exam
- 1Y0-A22 questions and answers, updated regularly
- Verified 1Y0-A22 answers by Experts and bear almost 100% accuracy
- 1Y0-A22 tested and verified before publishing
- 1Y0-A22 examcollection vce questions with exhibits
- 1Y0-A22 same questions as real exam with multiple choice options

Acquiring Citrix certifications are becoming a huge task in the field of I.T. More over these exams like 1Y0-A22 exam are now continuously updating and accepting this challenge is itself a task. This 1Y0-A22 test is an important part of Citrix certifications. We have the resources to prepare you for this. The 1Y0-A22 exam is essential and core part of Citrix certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 1Y0-A22 Test and save time and money while developing your skills to pass your Citrix 1Y0-A22 Exam? Let us help you climb that ladder of success and pass your 1Y0-A22 now!

QUESTION: 1
Scenario: an administrator has configured a XenApp Web site and customized the footer text of the site to reflect the required customer – specific hyperlinks. The administrator now plans to back up the site.Which file must the administrator backup?

A. Default ica
B. Web config
C. Repair SFO
D. Webinterface.conf
E. LoginmainForFootinc

Answer: D

Explanation:
The footer text is in the webinterface.conf file in the \conf folder of your webinterface See

parametersgransden.html

QUESTION: 2
Scenario: the Citrix Administrator of a large farm needs to perform a health check after a scheduled update window. The health check should alter the administrator when the server is unavailable to users.Which action must the administrator take to perform a health check after a scheduled update window?

A. Use PowerShell SDK scripts to verify the applied updates.
B. Use MFCOM to check applied updates and enabled logons.
C. Use MFCOM scripts to verify enabled logons and open Citrix ports.
D. Use PowerShell SDK scripts to check enabled logons and open Citrix ports.

Answer: D

Explanation:
Checking   Server   Availability   –   XenApp   6   PowerShell   SDK
http://blogs.citrix.com/2010/08/19/checkingserver-availability-xenapp-6-powershell-sdk/   with
these scripts you can check if logons are enabled, ports are open etc

QUESTION: 3
Scenario: an administrator in a XenApp farm is in the process of replacing a couple of the failed XenApp servers in the farm. The administrator has been instructed to execute the DSCHECK command once the servers have been replaced.What will be the outcome of executing the DSCHECK command?

A. Recover the local data store
B. Purge corrupt local host cache entries
C. Purge the data store of incorrect entries
D. Display information about servers in the farm

Answer: D

Explanation:
Dscheck performs a variety of tests to validate the integrity of a server farm's data store. When run without parameters, only these tests are run.Dscheck reports the results of the tests in several ways. First, it sends any errors found as well as a summary to the Event log and to the command window. You can also write the output produced by dscheck to a file.Second, several performance monitor values are updated under the performance object for Citrix XenApp.These values include a count of server errors, a count of application errors, a count of group errors, and an overall flag indicating that errors were detected.Third, dscheck returns an error code of zero for a successful scan (no errors are found) and an error code of one if any problems are encountered.

QUESTION: 4
Refer to the exhibit.

In order for the Web Interface server to correctly work with the Access Gateway Enterprise configuration in the attached exhibit, the administrator must configure the authentication point at_____.

A. LDAP

B. RADIUS
C. The Web Interface
D. The Access Gateway

Answer: C

QUESTION: 5
An administrator needs to validate the data store in an XenApp farm.The administrator should use the DSCHECK command with the /CLEAN parameter after

_____.

A. Restoring the data store
B. Backing up the data store
C. Restarting the XenApp
D. Restarting the IMA Service on the data collector

Answer: B

Explanation:
When you run dscheck with the /clean option, the utility runs tests and removes inconsistent data (typically servers and applications) from the data store. Because removing this data can affect the farm's operation, be sure to back up the data store before using the /clean option.
http://support.citrix.com/proddocs/topic/xenapp5fp-w2k3/ps-commands-dscheck.html

QUESTION: 6
Scenario: A XenApp Administrator needs to deploy a small MSI package across all XenApp servers. This package requires a restart which needs to be scheduled to ensure that all servers do no restart at once.Which action must the administrator take to fulfill the requirement?

A. Set up installation manager
B. Configure Health Monitoring and Recovery
C. Create a maintenance policy in the AppCenter console
D. Use the XenApp Server Role Manager to install Installation manager

Answer: A

Explanation:
Installation Manager deploy MSI Package on XenApp Servers. D, not install on XenApp Server Role Manager.

QUESTION: 7

Scenario: an administrator used the Server Configuration Tool to install a Microsoft SQL Server Express data store database automatically as part of a XenApp6.5 farm installation. The initial configuration considered of a single zone and serves in a single physical location. The administrator added an equal number of servers and users to the farm at a second physical location over a WAN. Which action would require the administrator to migrate the data store database from Microsoft SQL Server Express to Microsoft SQL server?

A. Adding an additional zone to the farm
B. Replicating the data store to a second database
C. Moving the datastore from local storage to SAN storage
D. Adding the configuration logging database to the same SQL server

Answer: B

Explanation:
From the planning section in xa6.5: SQL Server Express is suitable for all small and many medium Environments located in one physical location, which do NOT have branch offices across a WAN Adding a zone is only necessary when you add new servers at a new location, so this means answer A but the planning guide also says: When deploying large farms across a WAN, you can obtain a performance advantage by replicating the data store and distributing the load over multiple database servers. SQL Server and Oracle are suitable for large farms and support replication

QUESTION: 8
Which two methods can an administrator use to configure Web Interface in high availability mode? (Choose two)

A. Windows Cluster services
B. NetScaler Load Balancing feature
C. Windows Load Balancing services
D. NetScaler Access Gateway feature

Answer: B, C

QUESTION: 9
Scenario: an administrator used the Server Configuration Tool to install a Microsoft SQL Server Express data store database automatically as part of a XenApp 6.5 farm installation. The initial configuration consisted of a single zone and serves in a single physical location. The administrator added an equal number of servers and users to farm at a second physical location over a WAN. Which new requirement would require the administrator to migrate the data store database from Microsoft SQL server Express to Microsoft SAL Server?

A. Implementing database mirroring

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
