# 250-622

## Symantec

*Implementation of DP Solutions for UNIX using NBU  
5.0*

<http://www.ipass4sure.com/exams.asp?examcode=250-622>

The 250-622 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 250-622 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 250-622 exam is very challenging, but with our 250-622 questions and answers practice exam, you can feel confident in obtaining your success on the 250-622 exam on your FIRST TRY!

### Symantec 250-622 Exam Features

- Detailed questions and answers for 250-622 exam
- Try a demo before buying any Symantec exam
- 250-622 questions and answers, updated regularly
- Verified 250-622 answers by Experts and bear almost 100% accuracy
- 250-622 tested and verified before publishing
- 250-622 examcollection vce questions with exhibits
- 250-622 same questions as real exam with multiple choice options

Acquiring Symantec certifications are becoming a huge task in the field of I.T. More over these exams like 250-622 exam are now continuously updating and accepting this challenge is itself a task. This 250-622 test is an important part of Symantec certifications. We have the resources to prepare you for this. The 250-622 exam is essential and core part of Symantec certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 250-622 Test and save time and money while developing your skills to pass your Symantec 250-622 Exam? Let us help you climb that ladder of success and pass your 250-622 now!

**QUESTION: 1**

Which command is used to install NetBackup on a UNIX client where rsh is not available?

- A. bpcd\_install
- B. update\_clients
- C. bpclient\_install
- D. install\_client\_files

**Answer:** D

**QUESTION: 2**

Which two steps are performed to set up a scratch pool? (Choose two.)

- A. create a volume pool.
- B. add a line in bp.conf: SCRATCH\_POOL = SCRATCH
- C. create a file called SCRATCH\_POOL and type SCRATCH in it
- D. mark the checkbox called "Scratch Pool" in the NetBackup Administration Console

**Answer:** A, D

**QUESTION: 3**

A moderately used database server must be configured as a NetBackup client. The database application is custom built and is not covered by a NetBackup database agent. The server is in production around-the-clock. Backups must not interrupt production, and open files must be backed up. The DB data exists on SAN attached disks, though available disk space is scarce. Which of the following backup methods would best fit this scenario?

- A. Copy-on-write snapshot
- B. Mirror snapshot
- C. VERITAS Snapshot Provider enabled backup
- D. Block level incremental backups

**Answer:** A

**QUESTION: 4**

NetBackup has been installed in a SAN with a shared robot that contains ten drives. However, only four drives appear as selectable and there are only four unique drive paths in the OS. Which two commands are used to correct this problem? (Choose two.)

- A. tpconfig
- B. sg.build
- C. tpautoconf
- D. sg.install
- E. shared\_drive\_notify

**Answer:** B, D

**QUESTION: 5**

Which three NetBackup processes are running after a successful master server installation? (Choose three.)

- A. bprd
- B. bptm
- C. bpjobd
- D. bpdbm
- E. bpdm

**Answer:** A, C, D

**QUESTION: 6**

You have been given a NetBackup 5.0 configuration to implement that contains the following operating system levels. Which three are supported by NetBackup? (Choose three.)

- A. Microsoft Windows 98
- B. Sun Solaris 9
- C. IBM OS390
- D. HP HP/UX 11i
- E. RedHat AS 3.0

**Answer:** B, D, E

**QUESTION: 7**

You need to add a number of Windows servers from another department to your Solaris NetBackup master server. The system administrator for these systems has given you a Domain Administrator account and permission to install the client, but he will not be available to help you. He has not given you access to the computer room where the systems are physically located. What is the supported method for installing the client?

- A. share the installation CD on the network, log into the systems via a Remote Terminal session, map the CD and run setup.exe
- B. from the Administration client on the master server select all the remote clients in Host Properties, right-click, and select Remote Client Install
- C. log in to any Windows system on the domain as the domain administrator, run Launch.exe on the installation CD and install to network clients
- D. remote installation to Windows clients is not allowed from a UNIX Master; the system administrator will have to give you physical access to the clients.

**Answer:** C

**QUESTION: 8**

You have an MSSQL database that you need to add to your environment. Which three items do you need to know before backups can be configured? (Choose three. )

- A. the version of MSSQL being used
- B. the kind of authentication being used
- C. the directories in which the database files are located
- D. the backup retentions needed by the DBA

**Answer:** A, B, D

**QUESTION: 9**

You are installing NetBackup Database agents into an environment with a high level of change control. You are using all of the relevant Database agents. Which database forces you to restart the database though it does not necessarily require rebooting the whole system?

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
