310-152

Sun

Sun Certified Backup and Recovery Engineer (emphasis on Solstice Backup)

<http://www.ipass4sure.com/exams.asp?examcode=310-152>

The 310-152 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 310-152 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 310-152 exam is very challenging, but with our 310-152 questions and answers practice exam, you can feel confident in obtaining your success on the 310-152 exam on your FIRST TRY!

Sun 310-152 Exam Features

- Detailed questions and answers for 310-152 exam
- Try a demo before buying any Sun exam
- 310-152 questions and answers, updated regularly
- Verified 310-152 answers by Experts and bear almost 100% accuracy
- 310-152 tested and verified before publishing
- 310-152 examcollection vce questions with exhibits
- 310-152 same questions as real exam with multiple choice options

Acquiring Sun certifications are becoming a huge task in the field of I.T. More over these exams like 310-152 exam are now continuously updating and accepting this challenge is itself a task. This 310-152 test is an important part of Sun certifications. We have the resources to prepare you for this. The 310-152 exam is essential and core part of Sun certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 310-152 Test and save time and money while developing your skills to pass your Sun 310-152 Exam? Let us help you climb that ladder of success and pass your 310-152 now!

QUESTION: 1

ABC Oil Company purchased an L700 library with 10 DLT8000 (High Voltage Differential) tape drives. You have been asked to connect all the tape drives to a Brocade Fabric switch using Crossroads SCSI/Fibre channel router/bridge. Which action must you take to configure the drive connections?

- A. Connect the Crossroad bridge to the DLT8000 drives using a 25m Fibre cable and terminate with a differential low voltage terminator.
- B. Connect the Crossroads bridge to the DLT8000 drives using a 15m SCSI cable and terminate the bus with a single ended SCSI terminator.
- C. Connect the Crossroads bridge to the DLT8000 drives using a 10m SCSI cable and terminate the bus with a differential low voltage terminator.
- D. Connect the Crossroads bridge to the DLT8000 drives using a 20m SCSI cable and terminate the bus with a differential high voltage terminator.

Answer: D

QUESTION: 2

A customer has an L700 with four 9840 tape drives and 100 cartridges that are bar coded. The Backup Administrator must add a client. From where in the GUI interface do you add a client?

- A. Client List under Server Menu
- B. Client Setup under Client Menu
- C. Client Menu under Client Setup
- D. Client Setup under Server Menu

Answer: B

QUESTION: 3

Which describes how a tape is automatically cloned?

- A. After the backup has completed, the tape is rewound and copied to the clone tape.
- B. While the backup is running, it writes the backup to both the backup tape and the clone tape.
- C. While the backup is running, it writes to the clone then to the regular backup tape which is normally stored offsite.
- D. While the backup is running, the regular backup tape is written to, but the data is cached and then written to the clone tape with a slight delay from the original tape.

Answer: A

QUESTION: 4

Which three are known reliable recording formats for tape drives? (Choose three.)

- A. serial
- B. parallel
- C. serpentine
- D. helical scan
- E. synchronous
- F. asynchronous

Answer: B, C, D

QUESTION: 5

A backup server has a direct attached SCSI disk and a DLT7000 tape drive. The peak read throughput of the disk drive is 8Mbytes/sec. The Ultra SCSI HBAs (40Mbytes/sec throughput) are used for disk and tape drive. What is the maximum throughput of data that can be written to the tape drive without any compression?

- A. 8 Mbytes/sec
- B. 5 Mbytes/sec
- C. 40 Mbytes/sec
- D. 10 Mbytes/sec

Answer: B

QUESTION: 6

One important aspect that you must consider when doing backups is the size of the backup window. You will need to determine how long your backups are going to take in order to know what an appropriate window will be. Which is the formula for calculating backup time?

- A. backup time = restore time / data size
- B. backup time = transfer rate / data size

- C. backup time = data size / transfer rate
- D. backup time = transfer rate / restore time

Answer: C

QUESTION: 7

What is the definition of multistreaming?

- A. the sending of a single thread to multiple tapes or disk devices
- B. the sending of multiple threads from a single system to a backup server
- C. the sending of data from multiple sources to a single tape or disk device
- D. the sending of multiple streams from several systems to multiple backup servers

Answer: B

QUESTION: 8

How does multiplexing differ from multistreaming?

- A. It sends a single thread to multiple tapes or disk devices.
- B. It sends multiple threads from a single system to a backup server.
- C. It sends data from multiple sources to a single tape or disk device.
- D. It sends multiple streams from several systems to multiple backup servers.

Answer: C

QUESTION: 9

Which does a switched-fabric tape SAN enable?

- A. centralized administration
- B. backup process automation
- C. Network backups for small remote hosts
- D. sharing of tape resources among many servers

Answer: D

QUESTION: 10

Which is a Disaster Recovery Plan?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
