# 310-812

**Sun**

*Sun Certified MySQL 5.0 Developer Part 1*

<http://www.ipass4sure.com/exams.asp?examcode=310-812>

The 310-812 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 310-812 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 310-812 exam is very challenging, but with our 310-812 questions and answers practice exam, you can feel confident in obtaining your success on the 310-812 exam on your FIRST TRY!

#### Sun 310-812 Exam Features

- Detailed questions and answers for 310-812 exam
- Try a demo before buying any Sun exam
- 310-812 questions and answers, updated regularly
- Verified 310-812 answers by Experts and bear almost 100% accuracy
- 310-812 tested and verified before publishing
- 310-812 examcollection vce questions with exhibits
- 310-812 same questions as real exam with multiple choice options

Acquiring Sun certifications are becoming a huge task in the field of I.T. More over these exams like 310-812 exam are now continuously updating and accepting this challenge is itself a task. This 310-812 test is an important part of Sun certifications. We have the resources to prepare you for this. The 310-812 exam is essential and core part of Sun certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 310-812 Test and save time and money while developing your skills to pass your Sun 310-812 Exam? Let us help you climb that ladder of success and pass your 310-812 now!

**QUESTION: 1**

Which of the following will be true about a table column if you plan to create an index on that column? Each correct answer represents a complete solution. Choose all that apply.

- A. The column contains very small number of NULL values.
- B. The column should contain a wide range of values.
- C. The table is updated frequently.
- D. The column is often used in the WHERE clause of SQL statements.

**Answer:** B, D

**QUESTION: 2**

You work as a Database Administrator for Company Inc. You have created a table named Employees and an index named emp\_index. You find that the index is not working properly and thus you want to remove it. Which of the following statements will you use to accomplish the task?

- A. DELETE INDEX emp\_index
- B. CANCEL INDEX emp\_index
- C. REMOVE INDEX emp\_index
- D. DROP INDEX emp\_index

**Answer:** D

**QUESTION: 3**

Which of the following is recommended for the files that are larger than 1 MB in size or for which the user wants to improve read performance?

- A. Enumerated data type
- B. Filestream data type
- C. String data type
- D. Datetime data type

**Answer:** B

**QUESTION: 4**

You work as a Database Designer for RealTech Inc. You have to design the database of a bank. The database has two tables:

Employee and Department. The Employee table has the following attributes:

EmpID (PK)

DeptID (FK)

Name

DateOfBirth

Designation

The Department table has the following attributes:

DeptID (PK)

DepartmentName

DeptID is the primary key (PK) of the Department table, whereas, after migration, in the above Employee table, it is the foreign key (FK). What does migration of the DeptID attribute to the child table Employee ensure?

- A. It ensures domain integrity.
- B. It ensures atomicity.
- C. It ensures referential integrity.
- D. It ensures faster data retrieval.

**Answer:** C

**QUESTION: 5**

Which of the following syntaxes will a user use to remove a database in MySQL?

- A. CANCEL DATABASE [IF EXISTS] database\_name;
- B. DROP DATABASE [IF EXISTS] database\_name;
- C. DELETE DATABASE [IF EXISTS] database\_name;
- D. REMOVE DATABASE [IF EXISTS] database\_name;

**Answer:** B

**QUESTION: 6**

Which of the following are the options for establishing a connection? Each correct answer represents a complete solution. Choose all that apply.

- A. --memory
- B. --port
- C. --protocol
- D. --host

**Answer:** B, C, D

**QUESTION: 7**

Which of the following methods is used to search a string based on a regular expression?

- A. find()
- B. discover()
- C. seek()
- D. match()

**Answer: D**

**QUESTION: 8**

You work as a Database Administrator for Company Inc. The company uses MySQL as the database development platform. You have created a database named Employee. Which of the following statements will prevent you from getting error messages if a database with the given name already exists on the database server?

- A. CREATE DATABASE IF NOT EXISTS Employee;
- B. CREATE DATABASE NOT EXISTS Employee;
- C. CREATE DATABASE NONAME EXISTS Employee;
- D. CREATE DATABASE IF NONAME EXISTS Employee;

**Answer: A**

**QUESTION: 9**

You work as a Database Administrator for Company Inc. You have created a new table named Employee. Now, you want to create a view employee\_view for this table. The view will contain the emp\_id, emp\_name, emp\_desig, salary, and emp\_dept of those employees whose salary is greater than \$25000. You do not want to make changes to the column values through the view. Which of the following syntaxes will you use to accomplish the task?

- A. CREATE VIEW employee\_view  
AS SELECT emp\_id, emp\_name, emp\_desig, emp\_dept  
FROM Employee  
ORDER BY salary > 25000  
WITH READ ONLY;
- B. CREATE VIEW employee\_view  
AS SELECT emp\_id, emp\_name, emp\_desig, emp\_dept  
FROM Employee  
WHERE salary > 25000  
WITH CHECK OPTION CONSTRAINT;
- C. CREATE VIEW employee\_view

```

AS SELECT emp_id, emp_name, emp_desig, emp_dept
FROM Employee
WHERE salary > 25000
WITH READ ONLY;
D. CREATE VIEW employee_view
AS SELECT emp_id, emp_name, emp_desig, emp_dept
FROM Employee
HAVING salary > 25000
WITH READ ONLY;

```

**Answer:** C

**QUESTION:** 10

You work as a Database Administrator for Company Inc. The company uses MySQL as its database. You have written the following MySQL statement to calculate the salary of employees:

```
SELECT (5000+((base_salary*5.0)/100)) FROM Employees;
```

What will happen if you remove the parentheses from the statement?

- A. The output will be more than the desired output.
- B. A syntax error will occur.
- C. The same value will be displayed.
- D. The output will be less than the desired output.

**Answer:** C

**QUESTION:** 11

You work as a Database Administrator for Company Inc. You have written the following code for creating a view:

```

CREATE VIEW Student_View
AS SELECT Stu_ID, Stu_Description
FROM Students
WHERE Stu_ID = 512
ORDERED BY Stu_Description;

```

After executing the above code, you got an error. Which of the following statements is incorrect in the view?

- A. WHERE Stu\_ID = 512
- B. ORDERED BY Stu\_Description;
- C. AS SELECT Stu\_ID, Stu\_Description
- D. CREATE VIEW Student\_View

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
