642-545

Cisco

Implementing Cisco Security Monitoring, Analysis and Response System

<http://www.ipass4sure.com/exams.asp?examcode=642-545>

The 642-545 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 642-545 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 642-545 exam is very challenging, but with our 642-545 questions and answers practice exam, you can feel confident in obtaining your success on the 642-545 exam on your FIRST TRY!

Cisco 642-545 Exam Features

- Detailed questions and answers for 642-545 exam
- Try a demo before buying any Cisco exam
- 642-545 questions and answers, updated regularly
- Verified 642-545 answers by Experts and bear almost 100% accuracy
- 642-545 tested and verified before publishing
- 642-545 examcollection vce questions with exhibits
- 642-545 same questions as real exam with multiple choice options

Acquiring Cisco certifications are becoming a huge task in the field of I.T. More over these exams like 642-545 exam are now continuously updating and accepting this challenge is itself a task. This 642-545 test is an important part of Cisco certifications. We have the resources to prepare you for this. The 642-545 exam is essential and core part of Cisco certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 642-545 Test and save time and money while developing your skills to pass your Cisco 642-545 Exam? Let us help you climb that ladder of success and pass your 642-545 now!

Question: 1

The Cisco Security Monitoring, Analysis, and Response System (Cisco Security MARS) is an appliance-based, all-inclusive solution that provides unmatched insight and control of your existing security deployment. Which three items are correct with regard to Cisco Security MARS rules? (Choose three.)

- A. There are three types of rules.
- B. Rules can be deleted.
- C. Rules can be created using a query.
- D. Rules trigger incidents.

Answer: A, C, D

Question: 2

Which three benefits are of deploying Cisco Security MARS appliances by use of the global and local controller architecture? (Choose three.)

- A. A global controller can provide a summary of all local controllers information (network topologies, incidents, queries, and reports results).
- B. A global controller can provide a central point for creating rules and queries, which are applied simultaneously to multiple local controllers.
- C. A global controller can correlate events from multiple local controllers to perform global sessionizations.
- D. Users can seamlessly navigate to any local controller from the global controller GUI.

Answer: A, B, D

Question: 3

Which item is the best practice to follow while restoring archived data to a Cisco Security MARS appliance?

- A. Use Secure FTP to protect the data transfer.
- B. Use "mode 5" restore from the Cisco Security MARS CLI to provide enhanced security during the data transfer.
- C. Choose Admin > System Maintenance > Data Archiving on the Cisco Security MARS GUI to perform the restore operations on line.
- D. To avoid problems, restore only to an identical or higher-end Cisco Security MARS appliance.

Answer: D

Question: 4

A Cisco Security MARS appliance can't access certain devices through the default gateway. Troubleshooting has determined that this is a Cisco Security MARS configuration issue. Which additional Cisco Security MARS configuration will be required to correct this issue?

- A. Use the Cisco Security MARS GUI to configure multiple default gateways
- B. Use the Cisco Security MARS GUI or CLI to configure multiple default gateways
- C. Use the Cisco Security MARS GUI or CLI to enable a dynamic routing protocol
- D. Use the Cisco Security MARS CLI to add a static route

Answer: D

Question: 5

Which two options are for handling false-positive events reported by the Cisco Security MARS appliance? (Choose two.)

- A. mitigate at Layer 2
- B. archive to NFS only
- C. drop
- D. log to the database only

Answer: C, D

Question: 6

What is the reporting IP address of the device while adding a device to the Cisco Security MARS appliance?

- A. The source IP address that sends syslog information to the Cisco Security MARS appliance
- B. The pre-NAT IP address of the device
- C. The IP address that Cisco Security MARS uses to access the device via SNMP
- D. The IP address that Cisco Security MARS uses to access the device via Telnet or SSH

Answer: A

Question: 7

Which statement best describes the case management feature of Cisco Security MARS?

- A. It is used in conjunction with the Cisco Security MARS incident escalation feature for incident reporting
- B. It is used to capture, combine and preserve user-selected Cisco Security MARS data within a specialized report
- C. It is used to automatically collect and save information on incidents, sessions, queries and reports dynamically without user interventions
- D. It is used to very quickly evaluate the state of the network

Answer: B

Question: 8

Which two configuration tasks are needed on the Cisco Security MARS for it to receive syslog messages relayed from a syslog relay server? (Choose two.)

- A. Define the syslog relay collector.
- B. Add the syslog relay server application to Cisco Security MARS as Generic Syslog Relay Any.
- C. Define the syslog relay source list.
- D. Add the reporting devices monitored by the syslog relay server to Cisco Security MARS.

Answer: B, D

Question: 9

Here is a question that you need to answer. You can click on the Question button to the left to view the question and click on the MARS GUI Screen button to the left to capture the MARS GUI screen in order to answer the question. While viewing the GUI screen capture, you can view the complete screen by use of the left/right scroll bar on the bottom of the GUI screen. Choose the correct answer from among the options. What actions will you take to configure the MARS appliance to send out an alert when the system rule fires according to the MARS GUI screen shown?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
