Microsoft

Microsoft Visio 2007 Application Development

<http://www.ipass4sure.com/exams.asp?examcode=70-545-CSharp>

The 70-545-CSharp practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 70-545-CSharp Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently.

The 70-545-CSharp exam is very challenging, but with our 70-545-CSharp questions and answers practice exam you can feel confident in obtaining your success on the 70-545-CSharp exam on your FIRST TRY!

Microsoft 70-545-CSharp Exam Features

- Detailed questions and answers for 70-545-CSharp exam
- Try a demo before buying any Microsoft exam
- 70-545-CSharp questions and answers, updated regularly
- Verified 70-545-CSharp answers by Experts and bear almost 100% accuracy
- 70-545-CSharp tested and verified before publishing
- 70-545-CSharp examcollection vce questions with exhibits
- 70-545-CSharp same questions as real exam with multiple choice options

Acquiring Microsoft certifications are becoming a huge task in the field of I.T. More over these exams like 70-545-CSharp exam are now continuously updating and accepting this challenge is itself a task. This 70-545-CSharp test is an important part of Microsoft certifications. We have the resources to prepare you for this. The 70-545-CSharp exam is essential and core part of Microsoft certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 70-545-CSharp Test and save time and money while developing your skills to pass your Microsoft 70-545-CSharp Exam? Let us help you climb that ladder of success and pass your 70-545-CSharp

QUESTION: 1

You have an ODBC database that contains information that you want to display in Office Visio 2007. You need to update the database records by modifying shape data from Visio 2007. What are three possible ways to achieve this goal? (Each correct answer presents a complete solution. Choose three.)

- A. In Visio, use the Link Data to Shapes command from the Data menu.
- B. In Visio, point to Visio Extras, start the Database Wizard, and then click Link shapes to database records.
- C. In Visio, click Import Data on the Plan menu.
- D. In Visio, point to Visio Extras and click Link to ODBC Database.
- E. Create custom code functions to read data from the data source, update the Shape Data rows, and then write the data to the data source.

Answer: B, D, E

QUESTION: 2

An External Data recordset named Computer Inventory contains a column named MachineSN. You create a new Office Visio 2007 diagram and load the Computers and Monitors stencil. A shape named PC Master from the Computers and Monitors stencil has a Shape Data row labeled Serial Number. To add a shape to the Visio 2007 diagram, you select the PC Master shape, and then drag and drop a row from the External Data window to the Visio 2007 page. You notice that the new shapes Serial Number row is empty. You need the values from the MachineSN column to be entered automatically into the row labeled Serial Number when you add the shape. What should you do?

- A. Change the name of the External Data recordsets column from MachineSN to Serial Number.
- B. Change the name of the External Data recordset from Computer Inventory to Serial Number.
- C. Modify the PC Master shape on the document stencil. Change the row name of the shape data row from Serial Number to MachineSN.
- D. Copy the PC Master shape to the document stencil. Change the label of the shape data row from Serial Number to _visDM_MachineSN.

Answer: A

QUESTION: 3

You have a drawing that contains custom shape data. You need to export the shape data to a new Microsoft Office Excel 2007 workbook. What should you do?

- A. Use the Database Wizard.
- B. Use the Reports command.

- C. Use the Export to Database command.
- D. Save the file as an XML drawing.

Answer: B

QUESTION: 4

You have a shape that contains a Shape Data row named Grade, where Type=0. You need to modify the Grade row so that it is visible and read-only within the Shape Data window and the Shape Data dialog box. What should you do?

- A. In the Prop.Grade row, change the value of the Type cell to 9.
- B. In the Prop.Grade row, change the value of the Type cell to 1, and the formula in the Format cell to =Prop.Grade.
- C. In the Prop.Grade row, change the formula in the Format cell to =LOCK.
- D. Insert a new user-defined cell with the formula =DEPENDSON(Prop.Grade)+SETF(GetRef(Prop.Grade),Prop.Grade).

Answer: B

QUESTION: 5

You receive an XML data file and a separate XML schema file. The XML schema file describes the XML data. You need to load the XML data file into the External Data window. Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)

- A. Transform the XML data file into the classic ActiveX Data Objects (ADO) RowsetSchema format.
- B. Verify that the XML data file is well-formed and uses the namespace <http://schemas.microsoft.com/visio/2006/extension>.
- C. In a code module, use the DataRecordsets object Add method in the Office Visio 2007 document.
- D. In a code module, use the DataRecordsets object AddFromXML method in the Office Visio 2007 document.

Answer: A, D

QUESTION: 6

You create a shape that has two Shape Data rows named Department and CostCode. Both the Department and the CostCode rows have the Type =1. The Department row Format cell has the formula =A;B. You need to modify the ShapeSheet to meet the following requirements: When a user selects Department A, only CostCodes A1 and A2 are visible.

When a user selects Department B, only CostCodes B1 and B2 are visible. What should you do?

- A. Insert a new user-defined cell and enter the formula =SETF(GetRef(Prop.CostCode.Format),=INDEX(LOOKUP(Prop.Department,Prop.Department.Format),"A1;A2|B1;B2", "|"))
- B. Enter the following formula in the Format cell of the CostCode Shape Data row.=INDEX(LOOKUP(Prop.Department,Prop.Department.Format),"A1;A2|B1;B2")
- C. Enter the following formula in the Format cell of the CostCode Shape Data row.="&INDEX(LOOKUP(Prop.Department,Prop.Department.Format),"A1;A2|B1;B2", "|")&"
- D. Enter the following formula in the Format cell of the CostCode Shape Data row.=INDEX(LOOKUP(Prop.Department,Prop.Department.Format),"A1;A2|B1;B2", "|")

Answer: D

QUESTION: 7

You need to create two PivotDiagrams in Office Visio 2007 by using the minimum number of Visio documents and pages. What should you do?

- A. Create two new Visio documents by using the PivotDiagram template.
- B. Create a new Visio document by using the PivotDiagram template. Insert a PivotDiagram into the existing page.
- C. Create a new Visio document by using the PivotDiagram template. Insert a new page, and then insert the PivotDiagram into the new page.
- D. Create two new Visio documents by using the PivotDiagram template. Copy the PivotDiagram from one document to a blank page in the other document.

Answer: B

QUESTION: 8

You need to create an organization chart of employees by using a comma-separated values (CSV) file and the Organization Chart Wizard. Which two columns must the CSV file contain? (Each correct answer presents part of the solution. Choose two.)

- A. A column that uniquely identifies each employee
- B. A column that identifies each employees job title
- C. A column that contains each employees department
- D. A column that identifies who each employee reports to

Answer: A, D

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
