## Nortel

*Communication Server 1000 Rls. 6.0 Platform Arch and Upgrade*

<http://www.ipass4sure.com/exams.asp?examcode=920-362>

The 920-362 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 920-362 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 920-362 exam is very challenging, but with our 920-362 questions and answers practice exam, you can feel confident in obtaining your success on the 920-362 exam on your FIRST TRY!

### Nortel 920-362 Exam Features

- Detailed questions and answers for 920-362 exam
- Try a demo before buying any Nortel exam
- 920-362 questions and answers, updated regularly
- Verified 920-362 answers by Experts and bear almost 100% accuracy
- 920-362 tested and verified before publishing
- 920-362 examcollection vce questions with exhibits
- 920-362 same questions as real exam with multiple choice options

Acquiring Nortel certifications are becoming a huge task in the field of I.T. More over these exams like 920-362 exam are now continuously updating and accepting this challenge is itself a task. This 920-362 test is an important part of Nortel certifications. We have the resources to prepare you for this. The 920-362 exam is essential and core part of Nortel certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 920-362 Test and save time and money while developing your skills to pass your Nortel 920-362 Exam? Let us help you climb that ladder of success and pass your 920-362 now!

**QUESTION: 1**

A large customer continues to hire new employees and keeps adding new IP telephones to meet their telephony requirements. However, upon reviewing the Call Server history file, you notice the following error code. SCH1976. Basic IP user License counter has reached its maximum limit. Which item best describes the cause of this error code?

- A. Basic IP User Licenses and Temporary User Licenses are exhausted.
- B. Basic IP User Licenses, Temporary User Licenses, and IP User Licenses are exhausted.
- C. Basic IP User Licenses and IP User Licenses are exhausted.
- D. Basic IP User Licenses are exhausted.

**Answer: C**

**QUESTION: 2**

A customer with a newly installed Communication Server (CS) 1000E Rls. 6.0 SA Co-Res is reporting dropped calls between the two campus sites. You suspect the call server is not terminating the call and decide to login and review the configuration and collect the logs from the active Call Server. Which CS 1000E hardware component will you access to verify the configuration and review the logs?

- A. Co-resident Call and Signaling Server running on Dell R300 server
- B. Co-resident Call and Signaling Server running on HP DL320 server
- C. Co-resident Call and Signaling Server running on IBM x3550 server
- D. Co-resident Call and Signaling Server running on CPPM server

**Answer: D**

**QUESTION: 3**

A customer purchased a Media Gateway (MG) 1000B Rls. 6.0 system to add to an existing Communication Server (CS) 1000 Rls. 6.0 system. Which statements regarding the hardware components within a release 6.0 Branch Office are true? (Choose two.)

- A. The MG 1000B supports Co-Res and SIP Line Gateway on separate physical servers.
- B. The MG 1000B supports Co-Res and Signaling Server Gateway on the same physical server.
- C. The MG 1000B supports a redundant Co-Res Call Servers.
- D. The MG 1000B supports Co-Res and SIP Line Gateway on the same physical server.

**Answer: A, B**

**QUESTION: 4**

A customer is planning to deploy a multi-site Communication Server (CS) 1000E network with a UCM Security Domain that includes a Primary Security Server and a Backup Security Server. Which statements regarding the Backup Security Server are true? (Choose two.)

- A. It manages authorization requests when the Primary is not available.
- B. It manages configuration changes when the Primary is not available.
- C. It manages authentication requests when the Primary is not available.
- D. It issues certificates to servers when the Primary is not available.

**Answer:** A, C

**QUESTION: 5**

A customer is installing a Communication Server (CS) 1000E Rls. 6. 0 System with Unified Communications Management. The Linux base software has been installed and the CPPM Co-Resident Call Server and Signaling server has been configured as a member server within an existing CS 1000 Rls 6. 0 security domain. Which statement describes the process the administrator must use to deploy applications to the CPPM Co-Resident?

- A. Log in to the UCM of the Primary Security Server and access the Base Manager to deploy.
- B. Log in to the Base Manager and access local Deployment Manager to deploy.
- C. Log in to the Base Manager and access central Deployment Manager to deploy.
- D. Log in to the UCM of the Primary Security Server and access central Deployment Manager to deploy.

**Answer:** D

**QUESTION: 6**

A Communication Server (CS) 1000E Rls. 6. 0 customer opened a trouble ticket that a newly installed system with SIP Line Gateway cannot place calls to an existing 5. x site. After investigating the problem you isolate the problem to the SIP Line Gateway settings. Which SIP Line Gateway Setting is most likely to block calls between the two sites?

- A. Security Policy - Security Disabled
- B. Security Policy - Best Effort
- C. Security Policy - Secure Local
- D. Security Policy - Secure End-to-End

**Answer:** D

**QUESTION: 7**

A customer that recently deployed a Communication Server 1000 Rls. 6. 0 system with Unified Communications Management would like to take advantage of the UCM log forwarding capability. Which statement regarding UCM Logging Services is true?

- A. Only Application logs can be forwarded to aSyslog server.
- B. Only OAM and Security logs can be forwarded to aSyslog server.
- C. Application, OAM and Security logs can all be forwarded to aSyslog server.
- D. Only Security logs can be forwarded to aSyslog server.

**Answer: B**

**QUESTION: 8**

At a customer site, you installed a Communication Server (CS) 1000 Rls. 6. 0 SA Co-Res system with the following CS 1000 applications. Call Server, Signaling Server, Element Manager, Network Routing Service Manager, and Subscriber Manager. Upon accessing Subscriber Manager, information regarding the System ID is displayed on the screen and you're not able to navigate the Subscriber Manager web page. Which task is required next before you can navigate and manage the Subscriber Manager Application?

- A. Copy and Paste the system ID information and create a new Subscriber Manager certificate within the UCM Private Certificate Authority.
- B. Copy and Paste the system ID information to the Nortel.com Keycode Retrieval System to generate a license file.
- C. Export the system ID as an XML file and distribute the file to the CS 1000 Element Managers as a trusted application.
- D. Export the system ID as an XML file and synchronize the file information with the customer's LDAP server.

**Answer: B**

**QUESTION: 9**

From which two parts is the Fully Qualified Domain Name (FQDN) composed and in what order must they be configured?

- A. first the host name and then the domain name
- B. first the domain name and then the host name
- C. first the COTS server IP address and then the port number
- D. first the COTS server port number and then the IP address

**Answer:** A

**QUESTION:** 10

A Communication Server (CS) 1000E Rls. 6. 0 customer site has both Signaling Server Gateway and SIP Line Gateway up communicating with the CS 1000 Call Server Which statement is true regarding the configuration similarities between the Signaling Server Gateway and SIP Line Gateway?

- A. They each load-balance the registration of IP telephones.
- B. They both require separate Zone-based configuration for codec selection.
- C. They both use virtual TNs.
- D. They each require Application Module Link configuration.

**Answer:** C

**QUESTION:** 11

A customer with a Communication Server (CS) 1000E Rls. 6. 0 SA Co-Res system is experiencing an Element Manager issue where the page cannot be displayed to the users. In order to resolve this problem you decide to reboot the Element Manager. The CPPM Co-Res server has the following deployed applications. Call Server, Signaling Server, Element Manager, and Network Routing Service. Which option allows for the least service interruption when restarting the Signaling Server application?

- A. Restart the Signaling Server application via Element Manager - Maintenance.
- B. Restart the Signaling Server application by pressing the INI button on the CPPM server.
- C. Restart the Signaling Server application by pressing the RST button on the CPPM server.
- D. Restart the Signaling Server application by logging into the Base Manager and restartingJboss.

**Answer:** A

**QUESTION:** 12

A customer is adding two Commercial Off the Shelf (COTS) servers to their Communication Server (CS) 1000 Rls. 6. 0 multi-site network. One of the COTS servers is designated as the Primary Security Server and the other as the Backup Security Server. They have a large network, so it has been decided to centralize the Network Routing Service (NRS) functionality on one of the COTS servers. In addition, the customer has decided to use Subscriber Manager and Element Manager. Which deployment combinations best meets the customer requirements? (Choose two. )

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
