*Sas warehouse architect concepts*

<http://www.ipass4sure.com/exams.asp?examcode=A00-204>

The A00-204 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The A00-204 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The A00-204 exam is very challenging, but with our A00-204 questions and answers practice exam, you can feel confident in obtaining your success on the A00-204 exam on your FIRST TRY!

## SASInstitute A00-204 Exam Features

- Detailed questions and answers for A00-204 exam
- Try a demo before buying any SASInstitute exam
- A00-204 questions and answers, updated regularly
- Verified A00-204 answers by Experts and bear almost 100% accuracy
- A00-204 tested and verified before publishing
- A00-204 examcollection vce questions with exhibits
- A00-204 same questions as real exam with multiple choice options

Acquiring SASInstitute certifications are becoming a huge task in the field of I.T. More over these exams like A00-204 exam are now continuously updating and accepting this challenge is itself a task. This A00-204 test is an important part of SASInstitute certifications. We have the resources to prepare you for this. The A00-204 exam is essential and core part of SASInstitute certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real A00-204 Test and save time and money while developing your skills to pass your SASInstitute A00-204 Exam? Let us help you climb that ladder of success and pass your A00-204 now!

**QUESTION 1**

A data warehouse is being designed to allow analysis of a retail bank's customers. Customers can have one or more accounts and an account can be owned by one or more customers. An account fact table stores data by month and by account. Which of the following describes the model for the above business scenario?

- A. a customer dimension and an account dimension connected with a bridge table
- B. a fact table with customer and account dimension foreign keys
- C. a customer dimension with a foreign key to the account dimension
- D. an account dimension with a foreign key to the customer dimension

Answer: A

---

**QUESTION 2**

During warehouse process and architecture planning, which of the following are required inputs for an effective gap analysis of the operational source systems?

- I.detailed logical models
- II.locations of source data
- III.detailed physical models
- IV.business requirements document

- A. III and IV only
- B. I, III, and IV only
- C. I and III only
- D. I, II, and IV only

Answer: B

---

**QUESTION 3**

Which of the following statements is true regarding the creation and definition of the corporate subject model?

- A. It helps confirm the understanding of the business.
- B. Each subject must be comprehensively modeled.
- C. It is a combined result of the logical and dimensional modeling processes.
- D. The information needed to create the subject model is captured during the Requirements Phase.

Answer: A

---

**QUESTION 4**

A business analyst has developed a credit scoring model and wishes to apply this to all the customers in a denormalized table. The input table contains over 10 million rows and the output is to be retained for detailed analysis. Which of the following techniques optimizes performance?

- A. sampling
- B. ensuring that the WORK library is on a different disk
- C. indexing
- D. retaining only the columns required for the analysis

Answer: D

---

**QUESTION 5**

The extract, transform and load (ETL) process for building a data mart consists of a very small SAS data set joined with a very large database management system (DBMS) table. SAS/ACCESS technology will be used in the join process. The subset of the DBMS data required for the join will be retrieved into SAS. Which of the following enables this retrieval?

- A. using the DBKEY option
- B. extracting the entire universe of data from the DBMS for the join processing
- C. using cost-based optimizer on the DBMS
- D. using the BULKLOAD option

Answer: A

---

**QUESTION 6**

Which of the following must be considered when sizing disk space for a SAS data warehouse after the extract, transform and load (ETL) phase?

- I.catalog space
- II.transaction log space
- III.temporary table space
- IV.size of the fact and dimension tables

- A. II, III, and IV only
- B. I, II, and III only
- C. I, II, III, and IV
- D. I and IV only

Answer: A

---

**QUESTION 7**

Users of a warehouse request that a series of reports be generated and distributed on a monthly basis. In addition, the users want dynamic notification when any report information has been updated. Which of the following meets the above requirements?

- A. developing distributed object models using COM
- B. publishing and subscribing via message-oriented middleware technologies
- C. developing distributed object models using CORBA
- D. using LDAP enterprise directory services

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
