C-TBIT44-71

SAP

*SAP Certified Development Associate - Process Integration
with SAP NetWeaver (PI 7.1)*

<http://www.ipass4sure.com/exams.asp?examcode=C-TBIT44-71>

The C-TBIT44-71 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The C-TBIT44-71 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The C-TBIT44-71 exam is very challenging, but with our C-TBIT44-71 questions and answers practice exam, you can feel confident in obtaining your success on the C-TBIT44-71 exam on your FIRST TRY!

SAP C-TBIT44-71 Exam Features

- Detailed questions and answers for C-TBIT44-71 exam
- Try a demo before buying any SAP exam
- C-TBIT44-71 questions and answers, updated regularly
- Verified C-TBIT44-71 answers by Experts and bear almost 100% accuracy
- C-TBIT44-71 tested and verified before publishing
- C-TBIT44-71 examcollection vce questions with exhibits
- C-TBIT44-71 same questions as real exam with multiple choice options

Acquiring SAP certifications are becoming a huge task in the field of I.T. More over these exams like C-TBIT44-71 exam are now continuously updating and accepting this challenge is itself a task. This C-TBIT44-71 test is an important part of SAP certifications. We have the resources to prepare you for this. The C-TBIT44-71 exam is essential and core part of SAP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real C-TBIT44-71 Test and save time and money while developing your skills to pass your SAP C-TBIT44-71 Exam? Let us help you climb that ladder of success and pass your C-TBIT44-71 now

QUESTION: 1

The PI Mail adapter is used to send and receive emails. Which protocols are supported?

Note: There are 3 correct answers to this question.

- A. SMTP
- B. HTTP
- C. IMAP4
- D. POP3

Answer: A, C, D

QUESTION: 2

You are implementing an IDoc-based scenario using SAP Netweaver PI and more specifically the sender IDoc adapter. Which of these steps are mandatory for the sender IDoc adapter to function properly? Note: There are 3 correct answers to this question.

- A. IDoc metadata must be imported into the Enterprise Services Repository.
- B. The Logical System name (ALE name) for the Business System must be defined in the SLD.
- C. A sender communication channel must be defined in the Integration Builder.
- D. An RFC destination must be defined on the sender system, pointing to the Integration Server client.

Answer: A, B, D

QUESTION: 3

Assume that your customer has a scenario in which a database table needs to be queried (i.e. to perform a SELECT statement and obtain the result set). What are the viable options for implementing this with the PI JDBC adapter? Note: There are 2 correct answers to this question.

- A. Use the sender JDBC adapter to query the database asynchronously.
- B. Use the sender JDBC adapter to query the database synchronously.
- C. Use the receiver JDBC adapter to query the database synchronously.
- D. Use the receiver JDBC adapter to query the database asynchronously.

Answer: A, C

QUESTION: 4

Which statements are correct when using the Receiver File adapter to process XML messages? Note: There are 2 correct answers to this question.

- A. The messages are processed based on a poll cycle.
- B. The adapter can convert the XML payload into a flat file.
- C. The adapter can FTP the file to a remote directory.
- D. The quality of service can be 'best effort' (BE) only.

Answer: B, C

QUESTION: 5

You have implemented a scenario where IDocs are posted to an ERP system using the receiver IDoc adapter. Which statements correctly describe the receiver IDoc adapter of SAP NetWeaver PI? Note: There are 3 correct answers to this question.

- A. IDoc packages are not supported, unless all IDocs are collected by BPM.
- B. Specific fields in the IDoc control record can be overwritten using the 'header mapping' functionality in the Receiver Agreement.
- C. Quality of service EOIO (exactly once in order) is supported, provided that the target system is a SAP Web AS 6.40 or above.
- D. If the target system is SAP Web AS 6.20 or under, then the quality of service BE (best effort) and EO (exactly once) can be used.
- E. A receiver communication channel must be defined in the Integration Builder.

Answer: B, C, E

QUESTION: 6

The communication between the Integration Server and the backend applications can be achieved without adapters. Which message protocol should you use for this communication type?

- A. RFC-XML
- B. PI-SOAP Protocol
- C. File
- D. JDBC 2.0

Answer: B

QUESTION: 7

A special aspect in B2B business processes is that the business partners involved in these processes do not usually provide information about their internal system landscape. Which configuration objects are relevant for B2B configuration? Note: There are 3 correct answers to this question.

- A. Receiver Determination
- B. Communication Party
- C. Software Component Version (SWCV)
- D. Communication Channel

Answer: A, B, D

QUESTION: 8

You configure the sender RFC adapter to convert RFC calls from a sender to XML messages. These XML messages are then sent to the Integration Server or to the PCK. What is the purpose of the RFC adapter parameter "Program ID"?

- A. The Program ID is a unique identifier for outbound proxies.
- B. The Program ID must uniquely describe the RFC sender communication channel in the configured application server gateway.
- C. The Program ID identifies proxy classes for Service Interfaces.
- D. The Program ID is used in correlation for binding abstract interfaces.

Answer: B

QUESTION: 9

You have created a deadline branch. When the deadline has expired, the integration process should be canceled. How can this be achieved?

- A. In the deadline branch, insert a control step that cancels the process.
- B. The process is automatically stopped once the deadline has expired.
- C. As the process can only be stopped by the administrator, a control step that raises an alert to inform the administrator has to be inserted.
- D. Insert a switch with an appropriate condition to stop the process.

Answer: A

QUESTION: 10

To react to situations where it is not possible or not advisable to continue a process in the normal way, you can define exceptions. Which statements correctly describe the triggering of exceptions? Note: There are 3 correct answers to this question.

- A. A synchronous or asynchronous Send step can trigger an exception when a system error occurs.
- B. Every step type can trigger an exception when a permanent error occurs.
- C. A Control step can trigger an exception.
- D. A Transformation step can trigger an exception.
- E. Exceptions can only be triggered by Control steps.

Answer: A, C, D

QUESTION: 11

Which of these operations can be performed by a Container Operation step? Note: There are 2 correct answers to this question.

- A. Incrementing a counter variable.
- B. Appending a message to a multiline container element.
- C. Removing a message from a multiline container element.
- D. Setting the value of an XML element of a message.

Answer: A, B

QUESTION: 12

You can create multiple configurations for one Integration Process without changing the appropriate process definition. Which of these parameters allows you to achieve this behavior?

- A. Process Signature
- B. Container Definition
- C. Correlation
- D. Configurable Parameters in Conditions

Answer: D

QUESTION: 13

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
