COG-632

IBM

IBM Cognos 10 BI Metadata Model Developer

<http://www.ipass4sure.com/exams.asp?examcode=COG-632>

The COG-632 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The COG-632 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The COG-632 exam is very challenging, but with our COG-632 questions and answers practice exam, you can feel confident in obtaining your success on the COG-632 exam on your FIRST TRY!

IBM COG-632 Exam Features

- Detailed questions and answers for COG-632 exam
- Try a demo before buying any IBM exam
- COG-632 questions and answers, updated regularly
- Verified COG-632 answers by Experts and bear almost 100% accuracy
- COG-632 tested and verified before publishing
- COG-632 examcollection vce questions with exhibits
- COG-632 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like COG-632 exam are now continuously updating and accepting this challenge is itself a task. This COG-632 test is an important part of IBM certifications. We have the resources to prepare you for this. The COG-632 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real COG-632 Test and save time and money while developing your skills to pass your IBM COG-632 Exam? Let us help you climb that ladder of success and pass your COG-632 now!

QUESTION: 1

Which of the following is true when applying object security in Framework Manager?

- A. If beginning to apply security by specifying object security on an object with no children, all other objects remain accessible to all users.
- B. If beginning to apply security by specifying object security on an object with no children, all other objects will not be accessible to all users.
- C. Allow overrides Deny if specified in the properties of the object.
- D. Child objects only inherit security from their parent if the Inherit property is set to Yes.

Answer: B

QUESTION: 2

Which of the following is correct regarding the Cognos 10 security environment?

- A. Cognos 10 must be configured to use only one authentication provider at a time.
- B. To perform authentication of users, a connection to the Cognos namespace must be defined.
- C. In Framework Manager, object security is implemented by defining access to objects for users, groups and roles defined in the authentication providers.
- D. In Framework Manager, object security is implemented by defining access to objects for groups and roles (of which users are members), not individual users.

Answer: C

QUESTION: 3

With respect to Cognos 10 security, which of the following is true of the Cognos namespace?

- A. Only contains predefined groups and roles.
- B. Can be used to create custom groups, roles and users.
- C. Can be used to create Cognos 10 specific groups and roles.
- D. Can be deleted if a different namespace is used to secure the environment.

Answer: C

QUESTION: 4

The groups and roles defined in the Cognos namespace can be used to assign access rights to which of the following Framework Manager objects?

- A. Query items.
- B. Data sources.
- C. Relationships.
- D. Parameter maps.

Answer: A

QUESTION: 5

Which of the following statements is correct regarding the implementation of object security in Framework Manager?

- A. Groups and roles can be created in the Cognos namespace when specifying access to objects.
- B. Even when object security is applied, if anonymous access is configured, every object in a Framework Manager project is visible to everyone.
- C. A user belongs to two groups. One of the groups is denied access to an object. The other group is granted access to the object. The result is that user has access to the object.
- D. Granting access to an object for one user, group or role (except the Everyone and All Authenticated Users groups), implicitly denies access to that object for all other users, groups or roles.

Answer: D

QUESTION: 6

What must a modeler consider when modeling for drill-through between multiple data sources?

- A. Drill-through values must be cast.
- B. Drill-through values must be conformed.
- C. Drill-through values must be consolidated.
- D. Drill-through values must be identifiers.

Answer: B

QUESTION: 7

A recursive relationship exists between SALES_STAFF_CODE and MANAGER_CODE in the SALES_STAFF data source query subject. This query subject is provided in a model to report authors. Using this query subject alone, report authors cannot create a report that includes management staff and the sales staff that report to them. How can the existing recursive relationship in the model be modified to provide this ability to report authors?

- A. Import a query subject that does not contain a recursive relationship.
- B. Create a star schema grouping that contains the SALES_STAFF data source query subject and a shortcut to the SALES_STAFF data source query subject.
- C. Create a model query subject with the appropriate relationship to the existing SALES_STAFF data source query subject and make both available to report authors.
- D. Create a shortcut to the SALES_STAFF data source query subject, and report authors will use it instead of the underlying query subject to create the required report.

Answer: C

QUESTION: 8

A user-defined function imported into Framework Manager can be viewed and used in the following locations?

- A. Viewed in the Explorer and used in the expression editor.
- B. Viewed in the Project Viewer and used in the expression editor.
- C. Viewed in the Explorer and used in the SQL of a model query subject.
- D. Viewed in the Diagram and used in the SQL of a data source query subject.

Answer: A

QUESTION: 9

In Framework Manager, if a modeler changes the business key for a level in a regular dimension, which of the following may change?

- A. Level MUN
- B. Level identifier
- C. Member MUNs
- D. Member aliases

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
