EMC

EMC Storage and Information Infrastructure Exam

<http://www.ipass4sure.com/exams.asp?examcode=E20-500>

The E20-500 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The E20-500 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The E20-500 exam is very challenging, but with our E20-500 questions and answers practice exam, you can feel confident in obtaining your success on the E20-500 exam on your FIRST TRY!

EMC E20-500 Exam Features

- Detailed questions and answers for E20-500 exam
- Try a demo before buying any EMC exam
- E20-500 questions and answers, updated regularly
- Verified E20-500 answers by Experts and bear almost 100% accuracy
- E20-500 tested and verified before publishing
- E20-500 examcollection vce questions with exhibits
- E20-500 same questions as real exam with multiple choice options

Acquiring EMC certifications are becoming a huge task in the field of I.T. More over these exams like E20-500 exam are now continuously updating and accepting this challenge is itself a task. This E20-500 test is an important part of EMC certifications. We have the resources to prepare you for this. The E20-500 exam is essential and core part of EMC certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real E20-500 Test and save time and money while developing your skills to pass your EMC E20-500 Exam? Let us help you climb that ladder of success and pass your E20-500 now!

QUESTION: 1

When data is written to a SnapView source LUN, at what point are the data chunks saved to the Reserved LUN pool?

- A. During synchronization
- B. Every time data is changed on the source
- C. Every time write cache is flushed
- D. When source data is changed for the first time

Answer: D

QUESTION: 2

What are the primary goals of an optimization engagement?

- A. Avoid future problems, reduce complexity, enable high availability
- B. Fix existing problems, avoid future problems, reduce costs
- C. Fix existing problems, improve utilization, increase efficiency
- D. Reduce costs, reduce complexity, increase efficiency

Answer: D

QUESTION: 3

What does Inter-Switch Link trunking do?

- A. Allows ports on the same blade to be used for ISL
- B. Enables ISL between switches to reach up to 200 km distances
- C. Prohibits a port from becoming an E_Port for fabric security
- D. Aggregates the bandwidth of multiple ISLs

Answer: D

QUESTION: 4

After a Data Mover failover, how is the failback operation performed?

- A. Automatically
- B. Data Mover failover is not supported
- C. Manually
- D. Recovery is not needed until another failure occurs

Answer: C

QUESTION: 5

A customer implemented BCVs with mirrors for use with the most critical business volumes. The standard volumes were established with the BCVs at the start of the day, but later in the day the customer discovered data corruption. Which action would enable a restore from uncorrupted BCV volumes?

- A. DifferentialSplit
- B. InstantSplit
- C. Protected Restore
- D. ReverseSplit

Answer: D

QUESTION: 6

You are giving a presentation to a customer about EMC virtualization products. They specifically ask about file storage virtualization. Which EMC product enables file storage virtualization using industry-standard protocols and mechanisms in a heterogeneous environment?

- A. Invista
- B. Rainfinity
- C. RecoverPoint
- D. Vmware

Answer: B

QUESTION: 7

An EMC ControlCenter customer is a United States Department of Defense contractor. The contractor needs to show that there is controlled user access to devices and to the modification of these devices. This will allow the contractor to provide proof of compliance and accountability. Which security feature of EMC ControlCenter should you discuss with the contractor to satisfy this requirement?

- A. Data collection policy (DCP)
- B. EMC Secure Remote Support (ESRS) Gateway
- C. Role-based access control (RBAC)
- D. Secure Socket Layer (SSL)

Answer: C

QUESTION: 8

Your customer is experiencing write performance problems on a RAID 5 LUN used for backup-to-disk on its CX3 array. The LUN has been placed on ATA drives. The customer has determined that it would like the LUN on Fibre Channel drives instead. The customer has requested you provide the best option to alleviate this performance problem, keeping downtime to a minimum. What action would you recommend?

- A. Create a new LUN on fibre drives and restore the data from tape to the new LUN.
- B. Implement a newer array and use MirrorView to migrate the data.
- C. Use Dynamic Virtual LUN functionality to move the LUN from ATA to fibre drives.
- D. Use SnapView to make a clone of the LUN on fibre drives and assign the LUN to the appropriate storage group.

Answer: C

QUESTION: 9

A customer has a CX3-80 for Exchange and a critical OLTP database application. Over the last month, during monthly batch processing, users complain of slow response times. Which solution will you recommend to solve this issue?

- A. Access Logix
- B. Performance Manager
- C. Navisphere Quality of Service Manager

D. StorageScope

Answer: C

QUESTION: 10

For reporting purposes, which source provides data for the ETL process to populate the StorageScope repository?

- A. EMC ControlCenter Repository
- B. Host Agents
- C. Master Agents
- D. Store

Answer: A

QUESTION: 11

You are proposing a NAS solution for your customer. The final solution includes:

Celerra NS40 integrated

Twenty six (26) 146 GB disk drives One Celerra Enterprise license One Celerra SnapSure license Two EMC CAVA licenses

What hardware is the customer required to provide for the above licensed solution?

- A. A modem for Celerra dial-home
- B. A server for CLARAlert email home
- C. An ESRS gateway for secure notifications
- D. Two servers for antivirus scanning

Answer: D

QUESTION: 12

Which license is required if you wish to implement Inter-VSAN Routing (IVR)?

- A. Enterprise License Package
- B. SAN Extension

- C. SANTap
- D. Storage Service Enabler

Answer: A

QUESTION: 13

A company has an existing DMX-3 2500 in Data Center 1 and a CX3-80 in Data Center 2. Both offices are production sites. There are two dedicated DS3 connections. The company needs to migrate a 300 GB UNIX database from Data Center 2 to Data Center 1. They are not concerned about how much time the replication will take. Which EMC solution should you discuss?

- A. MirrorView/A
- B. RecoverPoint/SE
- C. RepliStor
- D. SAN Copy

Answer: D

QUESTION: 14

Your customer wishes to deploy a new streaming media application using large multimedia files. These files will be used to provide training to employees. The customer would like to store the media files on its CLARiiON CX3 array. The application performance in a proof of concept has not been acceptable, and the customer has narrowed the problem down to a disk. The customer deployed the application and data files on a single RAID 5 4+1 LUN. The application data has various I/O sizes, and the media file I/O size is 1024 KB. The customer is confident the application will perform adequately on the CLARiiON, but is unsure what changes should be made to the configuration. The customer also wants the best balance of performance and cost. What would you recommend the customer change in its configuration to achieve the highest performance?

- A. Place the media files and application files on separate RAID 1 groups.
- B. Place the media files on a RAID 3 group and the application files on a RAID 5 group.
- C. Place the media files and application files on separate RAID 5 4+1 groups.
- D. Place the media files on a RAID 5 group and the application files on a RAID 3 group.

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
