# HH0-280

## Hitachi

### *HDS Implemetation Specialist-Storage Management*

<http://www.ipass4sure.com/exams.asp?examcode=HH0-280>

The HH0-280 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HH0-280 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HH0-280 exam is very challenging, but with our HH0-280 questions and answers practice exam, you can feel confident in obtaining your success on the HH0-280 exam on your FIRST TRY!

#### Hitachi HH0-280 Exam Features

- Detailed questions and answers for HH0-280 exam
- Try a demo before buying any Hitachi exam
- HH0-280 questions and answers, updated regularly
- Verified HH0-280 answers by Experts and bear almost 100% accuracy
- HH0-280 tested and verified before publishing
- HH0-280 examcollection vce questions with exhibits
- HH0-280 same questions as real exam with multiple choice options

Acquiring Hitachi certifications are becoming a huge task in the field of I.T. More over these exams like HH0-280 exam are now continuously updating and accepting this challenge is itself a task. This HH0-280 test is an important part of Hitachi certifications. We have the resources to prepare you for this. The HH0-280 exam is essential and core part of Hitachi certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HH0-280 Test and save time and money while developing your skills to pass your Hitachi HH0-280 Exam? Let us help you climb that ladder of success and pass your HH0-280 now!

**QUESTION: 1**

Which attributes must be changed to a minimum value of 100 when installing the database component of Hitachi Storage Services Manager (HSSM) on a Solaris 10 server?

- A. project.max-shm-ids project.max-sem-ids
- B. set semsys: seminfo\_semmsl set semsys: seminfo\_semmns
- C. set semsys: seminfo\_semopm set semsys: seminfo\_semvmx
- D. set shmsys: shminfo\_shmsegs set semsys: seminfo\_semmni

**Answer:** A

**QUESTION: 2**

A customer is currently upgrading their Hitachi Device Manager (HDvM) server from version 4.3 to version 5.x. One of their local system administrators has asked for your help in assessing their User group definitions. Which two statements are true? (Choose two.)

- A. HDvM will migrate the User groups into Resource groups.
- B. User groups must be manually converted using HDvM CLI commands.
- C. The local system administrator is assigned permissions of Modify + View.
- D. The local system administrator is assigned permissions of User Management + Admin + Modify + View.

**Answer:** A, D

**QUESTION: 3**

Which three Hitachi products can you use to monitor the Hitachi Dynamic Provisioning (HDP) I capacity? (Choose three.)

- A. Hitachi Tuning Manager
- B. Hitachi Device Manager
- C. Hitachi Provisioning Manager
- D. Hitachi Tiered Storage Manager
- E. Hitachi Command Control Interface

**Answer:** A, B, E

**QUESTION: 4**

Which statement is correct about managing cache partitions?

- A. You cannot shrink a cache partition while I/O is running.
- B. You cannot extend a cache partition while I/O is running.
- C. You cannot change anything in a cache partition while I/O is running.
- D. You can move objects to a different cache partition while I/O is running.

**Answer:** D

**QUESTION: 5**

Which statement is true regarding the Hitachi Device Manager (HDvM) Command Line Interface (CLI)?

- A. Only the HDvM CLI can be used for adding storage systems.
- B. Only the HDvM CLI can use LUSE to extend a LUN which is already mapped to a server.
- C. The HDvM CLI and HDvM GUI can display total RAW capacity on a 9900V, USP, or USP V in one screen.
- D. By modifying the server.property file in HDvM you can initiate a scheduled "subsystem refresh" for all connected systems.

**Answer:** B

**QUESTION: 6**

Hitachi Dynamic Provisioning (HDP) on the USP V requires the setting of thresholds for the POOL and Dynamic Provisioning (DP)-Volumes Which two statements are true? (Choose two.)

- A. The fixed threshold of the Pool can be modified.
- B. The DP-Volume threshold can be set between 5% to 100%.
- C. The DP-Volume threshold does not refer to the DP-Volume usage.
- D. All DP alerts can be completed by the customer without usage of the SVP.

**Answer:** C, D

**QUESTION: 7**

Which two are required for Hitachi Storage Services Manager (HSSM) to discover a Brocade switch on a newly installed HSSM server? (Choose two.)

- A. The Rapid program must be set to 1.

- B. The Rapid program must be disabled.
- C. The Enterprise Manager must be installed.
- D. The IP address of the SMI-S Proxy must be entered.

**Answer:** A, D

**QUESTION: 8**

Which two statements are true when you create Virtual Volumes for Hitachi Dynamic Provisioning in a USP V? (Choose two.)

- A. You can use any OPEN emulation type.
- B. You can use only emulation type OPEN-V.
- C. The maximum number of Virtual Volumes per pool is 4,096.
- D. The maximum number of Virtual Volumes per USP V storage system is 32,768.

**Answer:** B, C

**QUESTION: 9**

Your customer has a configuration consisting of a USP600 and two AMS systems both with Fibre Channel and Serial-ATA (SATA) storage. They are assessing the relative impact on their locations when using Hitachi Tiered Storage Manager for volume migrations. Which two statements are true? (Choose two.)

- A. After the LUN pointers are swapped, the previous cache entries are still valid.
- B. Impact to application response time is comparable to ShadowImage management of a pair.
- C. Impact to application response time during a volume migration is slower than ShadowImage management of a pair.
- D. After the LUN pointers are swapped, the cache entries are no longer valid, so new data cache is repopulated.

**Answer:** B, D

**QUESTION: 10**

What are three key benefits of Universal Volume Manager (UVM)? (Choose three.)

- A. UVM integrates heterogeneous systems.
- B. UVM enables deployment of multi-tiered storage.
- C. UVM migrates multi-tiered storage data non-disruptively.
- D. UVM enables performance analyzing of multi-tiered storage.

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
