# HH0-400

## Hitachi

### *Hitachi Data Systems Architect-Business Continuity*

<http://www.ipass4sure.com/exams.asp?examcode=HH0-400>

The HH0-400 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HH0-400 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HH0-400 exam is very challenging, but with our HH0-400 questions and answers practice exam, you can feel confident in obtaining your success on the HH0-400 exam on your FIRST TRY!

#### Hitachi HH0-400 Exam Features

- Detailed questions and answers for HH0-400 exam
- Try a demo before buying any Hitachi exam
- HH0-400 questions and answers, updated regularly
- Verified HH0-400 answers by Experts and bear almost 100% accuracy
- HH0-400 tested and verified before publishing
- HH0-400 examcollection vce questions with exhibits
- HH0-400 same questions as real exam with multiple choice options

Acquiring Hitachi certifications are becoming a huge task in the field of I.T. More over these exams like HH0-400 exam are now continuously updating and accepting this challenge is itself a task. This HH0-400 test is an important part of Hitachi certifications. We have the resources to prepare you for this. The HH0-400 exam is essential and core part of Hitachi certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HH0-400 Test and save time and money while developing your skills to pass your Hitachi HH0-400 Exam? Let us help you climb that ladder of success and pass your HH0-400 now!

**QUESTION: 1**

A customer's regulatory requirements require that they will have valid data at the recovery site regardless of any equipment or logical failure in the system or environment. How many DR site point-in-time copies are required if they want to be able to perform recovery testing?

- A. 1
- B. 2
- C. 3
- D. 4

**Answer: B**

**QUESTION: 2**

What are two best practices for DR testing? (Choose two.)

- A. Tests should be done at least twice a year.
- B. The secondary copy of data (B) can be used as the DR test copy.
- C. Testing should only be performed when new applications are added.
- D. When using a point-in-time copy solution, another copy (D) should be used for DR testing purposes.

**Answer: AD**

**QUESTION: 3**

What are two risks when extending a production SAN over distance? (Choose two.)

- A. A telecommunications outage will segment the fabric.
- B. RSCN storms may ensue from intermittent telecommunications issues.
- C. Any differences in domain IDs on the fabric switches between the sites will keep the fabrics from merging.
- D. Some Fibre Channel frames may occasionally cross the inter-site links and reach the incorrect storage array.

**Answer: AB**

**QUESTION: 4**

Which formula is appropriate to use when calculating resource requirements for TrueCopy Asynchronous?

- A. Bandwidth = [(peak write Mb/sec) / network compression ratio] + safety margin
- B. Journal Capacity = (peak write Mb/sec) \* anticipated network outage duration (minimum of 6 GB)
- C. Number of RAID groups for journal volumes = (peak write Mb/sec) / (total throughput per RAID group)
- D. Host delay = 2 \* [(distance between MCU and RCU) / (speed of light in glass)] + losses due to network overhead

**Answer:** A

**QUESTION: 5**

A customer is using TrueCopy Asynchronous to continuously replicate a database's data and log volumes. Which two statements are true? (Choose two.)

- A. A database checkpoint should be forced immediately upon failover.
- B. In the case of a planned outage, log volumes may not include all transactions.
- C. In the case of an unplanned outage, log volumes may not include all transactions.
- D. At recovery time, the database will rollback all uncommitted transactions in the logs.

**Answer:** CD

**QUESTION: 6**

A customer is using TrueCopy to replicate a database's data and log volumes. Which strategy will assist the customer with recovery from logical corruption such as a mistakenly dropped table?

- A. Use ShadowImage to create point-in-time copies for recovery.
- B. Use TrueCopy for data volumes only. Use log shipping to transfer individual transactions to the recovery facility.
- C. Manage database checkpointing so that logs retain sufficient transactions to allow playback up to the corruption event.
- D. Inflow control should be used to throttle incoming write traffic so that updates can be identified and prevented prior to their application onto the secondary volumes.

**Answer:** A

**QUESTION: 7**

Which is required for I/O consistent recoverability?

- A. Clustering software is in use at the recovery facility.
- B. Recovery volumes have preserved write order fidelity.
- C. Buffers on production hosts were fully de-staged to physical disk.
- D. Log shipping is used to transfer transactions to the recovery facility.

**Answer: B**

**QUESTION: 8**

What are three regulatory requirements pertaining to data retention? (Choose three.)

- A. Basel II
- B. ISO 9000
- C. SEC rule 17a
- D. Email Archiving
- E. Sarbanes-Oxley Act

**Answer: ACE**

**QUESTION: 9**

Basel II is the second Basel Accord and represents recommendations by bank supervisors and central bankers from 13 countries making up the Basel Committee on banking supervision to revise the international standards for measuring the adequacy of a bank's capital. Which three statements are true for Basel II? (Choose three.)

- A. It can easily be circumvented by regulatory arbitrage.
- B. It ensures that capital allocation is less risk conscious.
- C. It ensures that capital allocation is more risk conscious.
- D. It separates operational risk from credit risk, and quantifies both.
- E. It attempts to align economic and regulatory capital more closely to reduce the scope for regulatory arbitrage.

**Answer: CDE**

**QUESTION: 10**

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
