# HP0-052

## HP

### *Planning and Design of HP 9000/HP Integrity Server Solutions*

<http://www.ipass4sure.com/exams.asp?examcode=HP0-052>

The HP0-052 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-052 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-052 exam is very challenging, but with our HP0-052 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-052 exam on your FIRST TRY!

#### HP HP0-052 Exam Features

- Detailed questions and answers for HP0-052 exam
- Try a demo before buying any HP exam
- HP0-052 questions and answers, updated regularly
- Verified HP0-052 answers by Experts and bear almost 100% accuracy
- HP0-052 tested and verified before publishing
- HP0-052 examcollection vce questions with exhibits
- HP0-052 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-052 exam are now continuously updating and accepting this challenge is itself a task. This HP0-052 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-052 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-052 Test and save time and money while developing your skills to pass your HP HP0-052 Exam? Let us help you climb that ladder of success and pass your HP0-052 now!

**QUESTION: 1**

A customer with under-utilized x86 servers running Linux would like some hardware for a new high-value application running on HP-UX. What should you propose to the customer to address these needs?

- A. Replace existing hardware with HP 9000 servers.
- B. Consolidate onto Integrity servers using migration services.
- C. Use upgrade services from HP to determine the correct approach.
- D. Consolidate existing applications onto fewer servers and reuse the remaining servers for the new application.

**Answer: B**

**QUESTION: 2**

The HP Itanium platform is one example of how an HP solution can be of value to the customer. What are some of the benefits of the Itanium multi-operating system environment? Select THREE.

- A. efficiency
- B. future proofing
- C. hardware durability
- D. ability to support six operating systems
- E. reduced Total Cost of Ownership (TCO)

**Answer: A, B, E**

**QUESTION: 3**

Which resources will help you to compare HP Integrity servers to the competition's servers? Select TWO.

- A. Product Bulletin
- B. Proposal Web
- C. IDEAS International
- D. Competitive Server Battle Room
- E. Performance Quick Reference Tool (PQRT)

**Answer: C, E**

**QUESTION: 4**

Why do customers who run Linux prefer industry-standard servers over proprietary hardware platforms? Select TWO.

- A. lower acquisition cost
- B. rip and replace support
- C. variety of clustering options
- D. flexibility of software options

**Answer:** A, D

**QUESTION: 5**

Your customer has an average processor utilization that is less than 30% for all their HP Integrity servers running multiple HP-UX and Linux instances. Processor performance only becomes an issue at week end, month end, and quarter end. Which HP software solutions best address the problem without changing any hardware? Select TWO.

- A. temporary instant capacity (TiCAP)
- B. HP Open View Performance Agent
- C. global Workload Manager (gWLM)
- D. HP GlancePlus/UX and MeasureWare

**Answer:** A, C

**QUESTION: 6**

Which design feature does an HP 9000 have as an advantage over similar IBM Power4 systems to offer investment protection?

- A. hot-plug CPUs
- B. virtual partitions
- C. in-box upgrades to future CPU platforms
- D. in-band and out-of-band migration management

**Answer:** C

**QUESTION: 7**

A medium-sized business recently experienced a catastrophic failure. The company's independent hardware and software vendors could not fix the problem in a timely manner because each believed the failure was the other vendor's responsibility. What opportunity does HP have in this situation?

- A. HP Services supports third-party solutions.
- B. HP high availability solutions fit every budget.
- C. HP hardware is designed with extended mean time between failures (MTBF).
- D. HP hardware and software support services ensure a single point of contact for problem resolution.

**Answer:** D

**QUESTION: 8**

A customer is worried about investing in HP Integrity servers because the IBM representative said that the Itanium 2 processor will go out of production due to low independent software vendor (ISV) support. Which responses are correct for this concern? Select TWO.

- A. More than 7000 ISVs are developing software for the Itanium 2 processor and the number is growing.
- B. HP Integrity Virtual Machine will enable the customer to run any x86 application without performance loss.
- C. The roadmap for HP Integrity servers indicates that future processor developments will be included in the customer's business plans.
- D. Even though there are only 3,000 ISVs developing software to run on Itanium 2 processors, they cover every needed type of application.

**Answer:** A, C

**QUESTION: 9**

What is an advantage of Itanium-based processors over proprietary PA-RISC-based processors?

- A. provides high reliability and availability
- B. provides mission-critical application support
- C. supports different operating systems and applications
- D. provides more than 4GB available memory per application

**Answer: C**

**QUESTION: 10**

What advantage does HP have in resource partitioning over its competitors?

- A. HP partitioning enables management of resources across multiple hardware platforms.
- B. There is no difference because HP and IBM use the same product for workload management.
- C. HP partitioning supports Workload Manager, which provides Service Level Objective-based resource partitioning.
- D. HP partitioning supports Process Resource Manager, which provides Service Level Objective-based resource partitioning.

**Answer: C**

**QUESTION: 11**

Your task is to prepare a document that focuses on the competitive positioning of HP Integrity servers against other vendors. Which competitive concept should be included in your document?

- A. HP delivers proprietary technology and complete solutions for Linux.
- B. HP delivers industry-standard platforms and limited solutions for Linux.
- C. HP delivers industry-standard platforms and complete solutions for Linux.
- D. HP delivers proprietary technology to lower total cost of ownership (TCO).

**Answer: C**

**QUESTION: 12**

Which can be identified as HP investment protection strategies? Select TWO.

- A. long-term support for AlphaServers
- B. long-term support for NonStop servers
- C. introduction to HP OpenView Operations
- D. upgrade to HP Systems Insight Manager (HP SIM)
- E. upgrade from a PA-RISC server to an AlphaServer
- F. upgrade from a PA-RISC server to an Itanium 2 system

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
