- A. No, the IA firmware cannot be upgraded.
- B. No, the IA firmware can only be upgraded by returning it to HP.
- C. Yes, by logging into the IA web interface then downloading and installing the firmware from the HP website.
- D. Yes, by downloading the firmware file to a tftp server, connecting to the IA and then downloading the firmware file from the tftp server to the IA.

Answer: D

Question: 9

In which tier does HP Session Allocation Manager (SAM) validate logon information?

- A. Virtual tier
- B. Access tier
- C. Compute tier
- D. Resource tier

Answer: C

Question: 10

Which of the following Operating Systems would have the latest Administrative Templates in a CCI environment?

- A. Windows XP SP2
- B. Windows 2000 SP4
- C. Windows NT 4.0 SP4
- D. Windows Server 2003 SP1

Answer: A

Question: 11

In a real customer implementation, a user complains that he can't see his desktop effectively because his screen resolution is set to 1024x768. Due to accessibility requirements, he needs to have his resolution set to 800x600. What would be the best solution to solve the user's screen resolution with the least impact to other users?

- A. Create a new Policy in the SAM admin page set to 800x600 and assign to the user
- B. Create a new AD Group Policy set to 800x600 and assign to the users Security group
- C. Create a new Global Policy from the SAM admin page set to 800x600 and assign to the user
- D. Create a new Policy in the SAM admin page set to 800x600 and assign to the users security group

Answer: A

Question: 12

CCI users are unable to save their documents to a SAN. After checking the Active Directory setup, you verify that all users have been placed in the proper OU, named 'CCIUsers', and the associated group policy is properly redirecting the user's folders. However, when any attempt is made to save a document, an 'access denied' error is received. Checking the folder that the file should be saved to, you notice one of the NTFS permissions is incorrect, thereby preventing the document from being saved. Which of the following permissions should be changed?

- A. DesktopUsers: Allow Modify; This folder
- B. SYSTEM: Allow Full Control; This folder, subfolders and files
- C. Administrators: Allow Full Control; This folder, subfolders and files
- D. CCIUsers: Allow Read & Execute; This folder, subfolders and files

Answer: B

Question: 13
