HP

Implementing HP Enterprise Virtual Array Solutions

<http://www.ipass4sure.com/exams.asp?examcode=HP0-678>

The HP0-678 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-678 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-678 exam is very challenging, but with our HP0-678 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-678 exam on your FIRST TRY!

HP HP0-678 Exam Features

- Detailed questions and answers for HP0-678 exam
- Try a demo before buying any HP exam
- HP0-678 questions and answers, updated regularly
- Verified HP0-678 answers by Experts and bear almost 100% accuracy
- HP0-678 tested and verified before publishing
- HP0-678 examcollection vce questions with exhibits
- HP0-678 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-678 exam are now continuously updating and accepting this challenge is itself a task. This HP0-678 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-678 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-678 Test and save time and money while developing your skills to pass your HP HP0-678 Exam? Let us help you climb that ladder of success and pass your HP0-678 now!

QUESTION 1:

How much rack unit space does an HSV2xx controller pair use?

- A. 1.5U
- B. 2U
- C. 3U
- D. 4U

Answer: D

QUESTION 2:

The command View EVAPerf enables you to monitor and display what EVA performance metrics? (Select thee.)

- A. Vraid level data
- B. Replication data
- C. Virtual Disk Data
- D. Port Status Data
- E. Quorum disk data
- F. Controller cache data

Answer: B,C,D

QUESTION 3:

How can the status of a specific EVA controller cache battery be checked?

- A. From the controller's EAB port
- B. by running controller diagnostics
- C. From Controller properties in command View EVA
- D. By Checking the battery status LED on the back panel of the controller

Answer: C

QUESTION 4:

You have a disk group that contains twelve 72GB and twelve 146GB disks. The occupancy level of each 72GB disk is approximately 36GB. What is the approximate occupancy level of each 146GB disk?

- A. 36GB
- B. 72GB
- C. 108GB

D. 145GB

Answer: B

QUESTION 5:

What does the EMU do? (Select two.)

- A. Monitors disk enclosure temperatures
- B. Monitors light wave strength of eh FC-AL port
- C. Monitors disk enclosure and controller temperature sensors
- D. Reports disk enclosure events through the Enclosure Address Bus (EAB)
- E. Reports logical disk read failure events through the Enclosure Address Bus (EAB)

Answer: A,D

Answer: B

QUESTION 12:

HP0-678

You connect a 0C6D expansion rack to a fully equipped 2C1D rack. What is the maximum number of disk drives that can be added to achieve a supported configuration?

- A. 56
- B. 60
- C. 72
- D. 8

Answer: C

QUESTION 13:

How can the status of a specific EVA controller cache battery be checked?

- A. From the controller's EAB port
- B. By running controller diagnostics
- C. From controller properties is command View EVA
- D. By checking the battery status LED on the backup panel of the controller

Answer: C

QUESTION 14:

When I/O requests are issued to a Vdisk on the non-owning controller? (Choose two.)

- A. I/O request issued have no performance impact
- B. A read request issued has no performance impact
- C. A write request issued has no performance impact
- D. A read request issued has higher performance impact
- E. A write request issued has a higher performance impact

Answer: C,D

QUESTION 15:

Using command View EVA, which attributes are displayed for HSV2x0 Controller Properties? (Choose three.)

- A. Mirror port states
- B. Temperature sensors
- C. Cache battery module states
- D. Environmental Monitor Unit (EMU)
- E. Levels of protection from shelf failures

Answer: A,B,C

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
