QUESTION 1

Which port is automatically placed in VLAN1 when an xl Access Controller Module is successfully installed in a Switch 5300xl?

- A. Client Port
- B. Access Port
- C. Virtual Uplink port
- D. Virtual downlink port

Answer: C

QUESTION 2

Certkiller.com site requires a new wireless network with 19 access points. The customer is evaluating solutions based on the Wireless Edge Services xl Module and on standalone AP 530s. Why is the Wireless Module a superior solution for the deployment of multiple ProCurve radios?

- A. The Wireless Module Supports 802.1x authentication. The standalone AP solution supports only web authentication
- B. The Wireless Module provides centralized management and configuration for all associated RPs. The standalone AP solution requires separate configuration of each AP
- C. The Wireless Module supports Layer 2 roaming. The standalone AP solution provides no roaming support
- D. The Wireless Module provides PoE for associated RPs. The standalone AP solution requires purchase of a separate PoE switch, such as a ProCurve 2600-PWR

Answer: B

QUESTION 3

By default, how do users identify themselves to the Secure Access 700wl Series as guests?

- A. The users must click the "Guest" button on the logon page
- B. The users must be associated with an SSID reserved for guests
- C. The users must be assigned to the "Guest Access" identify Profile
- D. The users must be associated with a System-defined Guest Access Connection Profile

Answer: A

QUESTION 4

Which applications must be hosted on the same computer to enable ProCurve Manger Plus/Identify Driven Manager to function in a Windows Environment? (Choose two.)

- A. PCM+ Server
- B. DHCP Server

- C. Identify Driven Manager
- D. Internet Authentication Services
- E. Active Directory Domain Controller

Answer: A,C

QUESTION 5

At Certkiller .com site, users in the Graphics Department use peer-to-peer applications to share source files. Which feature must be configured on the Secure Access 700wl Series to support these applications?

- A. VPN Encryption
- B. Real IP Addressing
- C. Adaptive Client Support
- D. Network Address Translation

Answer: B

QUESTION 6

At Certkiller .com site, you must configure a Wireless Edge Services xl Module and associated Radio Ports to assign users to administratively defined VLANs based on job function. This will enable access control for wireless users based on router-based ACLs. How can you accomplish this without configuration a separate SSID for each job function and VLAN?

- A. Configure ProCurve Mobility Manager to apply VLAN tags based on the users connection parameters
- B. Configure the customers RADIUS server to provide a VLAN ID in the authentication response
- C. Configure a separate Radio Port for each user type and associate it with a VLAN ID
- D. Configure the switch port that supports each Radio Port to be a tagged member of all required user VLANs

Answer: B

QUESTION 7

At Certkiller .com site, you must configure a Secure Access 700wl system to use LDAP and Active Directory to authenticate Sales users. Which element of the Rights Assignment must match the Active Directory group name for these users?

- A. Identify Profile
- B. Access Policy
- C. Connection Profile
- D. Authentication Policy

Answer: A

QUESTION 8

Exhibit:

Row	Identity Profile	Connection Profile	Access Policy
1	Marketing	Main Office	Marketing
2	Guest	Any	Guest Access
3	Authenticated	Any	Employees
4	Any	Main Office	Unauthenticated
5	Any	Any	Unauthenticated

John is a user associated with the "Marketing" identity Profile who connects through an xl access Controller Module associated with the "Main Office" Connection Profile. In the Exhibit, identify the row in the Rights Assignment table that will apply to John while the Secure Access 700wl system is evaluating his credentials.

- A. 1
- B. 2
- C. 3
- D. 4
- E. 5

Answer: D

QUESTION 9

Which ProCurve secure mobility solution enables the setting of priorities for traffic entering through any AP?

- A. Mobility Manager
- B. Procurve Manager
- C. Secure Access 700wl Series
- D. Wireless Edge Services xl Module

Answer: C

QUESTION 10

By default, What access is allowed by the outside world Allowed Traffic filter on the Secure Access 700wl Series?

- A. All addresses not defined by the @INTRANET@ address variable
- B. All addresses associated with the @INTERNET@ address variable
- C. All Addresses not associated with system-defined address variable
- D. All addresses not discovered on routers and switches during 700wl installation

Answer: A
