HP0-K03

HP

Integrating and Managing HP BladeSystem in the Enterprise

<http://www.ipass4sure.com/exams.asp?examcode=HP0-K03>

The HP0-K03 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-K03 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-K03 exam is very challenging, but with our HP0-K03 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-K03 exam on your FIRST TRY!

HP HP0-K03 Exam Features

- Detailed questions and answers for HP0-K03 exam
- Try a demo before buying any HP exam
- HP0-K03 questions and answers, updated regularly
- Verified HP0-K03 answers by Experts and bear almost 100% accuracy
- HP0-K03 tested and verified before publishing
- HP0-K03 examcollection vce questions with exhibits
- HP0-K03 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-K03 exam are now continuously updating and accepting this challenge is itself a task. This HP0-K03 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-K03 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-K03 Test and save time and money while developing your skills to pass your HP HP0-K03 Exam? Let us help you climb that ladder of success and pass your HP0-K03 now!

Question: 1

Which feature of PMP enables you to compare a newly established performance baseline with a previously created one?

- A. static analysis
- B. offline analysis
- C. online analysis
- D. comparative analysis

Answer: B

Question: 2

Which tool analyzes the server configuration and recommends an action to resolve known performance problems on HP BladeSystem c-Class server blades?

- A. iLO 2
- B. Onboard Administrator
- C. Performance Management Pack
- D. BladeSystem Integrated Manager

Answer: C

Question: 3

For optimal performance of an Infiniband switch in an HP BladeSystem c-Class, where should the mezzanine card in the blade server be installed?

- A. PCI-X slot 1
- B. any PCIe x4 slot
- C. Mezzanine position 1
- D. Mezzanine position 2

Answer: D

Question: 4

Which component of the optional Brocade 4Gb SAN Switch Power Pack can help administrators monitor specific fabric metrics from an SID (Source ID) to a DID (Destination ID), so they can fine-tune and scale the fabric more efficiently?

- A. ISL Trunking
- B. Fabric Watch
- C. Extended Fabric
- D. Advanced Performance Monitoring

Answer: D

Question: 5

Which Windows Performance Monitor counter is the most important counter for detecting memory bottlenecks in a Windows environment?

- A. disk:writes/second
- B. disk:pages/second
- C. paging file/%usage
- D. disk:pagefaults/second

Answer: B

Question: 6

Your customer is running a Linux-based application on a c-Class server blade and has a performance issue with the application response time. What are the first actions in helping your customer resolve the performance problem? (Select two.)

- A. develop an action plan
- B. complete an environmental assessment
- C. use the Onboard Administrator to update all firmware
- D. determine the tools to use and gather performance data
- E. determine one or more possible reasons for a bottleneck

Answer: B, D

Question: 7

Where does Performance Management Pack (PMP) derive its statistical analysis from?

- A. CPU Management Port using Microsoft Management Protocol (MMP)
- B. Insight Management Agents using Simple Network Management Protocol (SNMP)
- C. Integrated Performance Management chip using the Desktop Management Protocol (DMI)
- D. Integrated Performance Management chip using Simple Network Management Protocol (SNMP)

Answer: B

Question: 8

Which tool is designed to reduce the risk of security threats by automating acquisition and deployment of patches, and continuously enforcing their persistence in the Windows operating system environment?

- A. Integrated Lights Out (iLO)
- B. Virtual Machine Management (VMM)
- C. Performance Management Pack (PMP)
- D. Vulnerability and Patch Management (VPM)

Answer: D

Question: 9

Which database is supported by HP Vulnerability and Patch Management (VPM)?

- A. Oracle
- B. MySQL
- C. Postgresql
- D. Microsoft SQL

Answer: D

Question: 10

Where can you change the rebuild priority for a Smart Array controller on a BL460c?

- A. ACU
- B. ORCA
- C. RBSU
- D. Onboard Administrator

Answer: A

Question: 11

Which UNIX tool is capable of sending an alarm when one of the metrics exceeds a user-defined threshold?

- A. sar
- B. top
- C. iostat
- D. vmstat
- E. glance

Answer: E

Question: 12

What is the purpose of the Insight Display chat mode screen on a Blade Server rack?

- A. to display the active OA IP address and active OA service IP address
- B. to display helpful information such as contact phone numbers on the Insight Display
- C. to communicate between someone in front of the display and the remote administrator using the web interface
- D. to communicate between someone in front of the display and the remote administrator using a cell phone two-way pager

Answer: C

Question: 13

What is the default IP address of the front diagnostics port of a p-Class server blade?

- A. 127.0.0.1
- B. 192.168.1.1
- C. 192.168.1.2
- D. 192.168.1.5

Answer: B

Question: 14

For troubleshooting reasons, you want to disable dynamic power saving mode on a c-Class power enclosure. What is the correct way to do this?

- A. Slide the switch on the power management module to the on position.
- B. Disable the dynamic power saving mode in RBSU for the first blade in the enclosure.
- C. Log on to the Insight Display and disable the dynamic power saving mode under the power management tab.
- D. Log on to the Onboard Administrator and disable the dynamic power saving mode under the power management tab.

Answer: D

Question: 15

What are the common chipsets available for the Fibre mezzanine cards on the c-Class BladeSystem? (Select two.)

- A. Intel
- B. AMD

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
