HP0-P15

HP

Planning and Design of HP SuperDome 2 Server Solutions

<http://www.ipass4sure.com/exams.asp?examcode=HP0-P15>

The HP0-P15 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-P15 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-P15 exam is very challenging, but with our HP0-P15 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-P15 exam on your FIRST TRY!

HP HP0-P15 Exam Features

- Detailed questions and answers for HP0-P15 exam
- Try a demo before buying any HP exam
- HP0-P15 questions and answers, updated regularly
- Verified HP0-P15 answers by Experts and bear almost 100% accuracy
- HP0-P15 tested and verified before publishing
- HP0-P15 examcollection vce questions with exhibits
- HP0-P15 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-P15 exam are now continuously updating and accepting this challenge is itself a task. This HP0-P15 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-P15 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-P15 Test and save time and money while developing your skills to pass your HP HP0-P15 Exam? Let us help you climb that ladder of success and pass your HP0-P15 now!

QUESTION: 1

What is the correct definition of the HP Converged Infrastructure?

- A. It packages IT components into one virtual shared resource that can be shared across the enterprise.
- B. It matches the supply of IT resources with the demand for business applications and delivers a services-oriented infrastructure.
- C. It enables purpose-centric solutions, such as those built for scale, holistic energy management, and adaptive software, that deliver performance, efficiency, and value.
- D. It evolves the IT infrastructure from a product-centric approach to a technology-based approach.

Answer: B

QUESTION: 2

What is included in a BladeSystem Matrix product number (SKU)? (Select two.)

- A. Converged Infrastructure assessment service
- B. installation and setup services
- C. HP Flex Financing
- D. integrated IT infrastructure platform
- E. proof of concept

Answer: B, D

QUESTION: 3

Click the Exhibit button.

A teal-colored rectangular box with a thin black border containing white text. The text describes the ability to automate resource provisioning and recovery within a pool, involving IT architects on the provider side and line-of-business application owners on the requester side who reserve resources for testing, QA, or production support.

the ability to automate the provisioning and recovery of resources within a pool from both the provider-side (IT architects) and the requester-side (line-of-business application owners who want to reserve resources from a pool to test, QA, or support applications in production)

Which HP Converged Infrastructure core component does the statement in the exhibit describe?

- A. Virtual Resource Pools
- B. FlexFabric
- C. Infrastructure Operating Environment
- D. Data Center Smart Grid

Answer: C

QUESTION: 4

What are the characteristics of the HP Infrastructure Operating Environment? (Select two.)

- A. enables dynamic tuning of resources
- B. virtualizes network systems and protocols
- C. regulates power in the data center
- D. optimizes the data center cooling environment
- E. speeds time to application value

Answer: A, E

QUESTION: 5

How many Onboard Administrator (OA) modules and Global Partition Services Modules (GPSMs) ship standard in a single Superdome 2 enclosure?

- A. two OA modules and four GPSMs
- B. two OA modules and two GPSMs
- C. four OA modules and two GPSMs
- D. four OA modules and four GPSMs

Answer: B

QUESTION: 6

A Superdome 2 with a single nPar and five Integrity Virtual Machines is running Microsoft Windows Server 2008 R2. What would happen if you used Locality-Optimized Resource Alignment (LORA) in this system?

- A. The Integrity Virtual Machine host would not boot.
- B. Integrity Virtual Machines would not boot.
- C. Performance would improve.
- D. The nPar would be limited to vPars only.

Answer: C

QUESTION: 7

Which components can be mixed in a Superdome 2 partition?

- A. processors with different frequencies
- B. processors with different cache sizes
- C. DIMM speeds
- D. DIMM sizes

Answer: D

QUESTION: 8

Which system requirements are necessary to implement Locality-Optimized Resource Alignment (LORA) in order to increase system performance? (Select two.)

- A. Dual Data Rate 3 (DDR-3) DRAMs
- B. sx3000 based Superdome 2
- C. Non-Uniform Memory Architecture (NUMA)
- D. Uniform Memory Architecture (UMA)
- E. HP-UX 11i v3 Update 3 or later

Answer: C, E

QUESTION: 9

Click the Exhibit button.

- consolidate servers, storage systems, network devices, processors, applications, databases, and sites to increase cost savings, manageability, and usage
- automate infrastructure management processes such as asset tracking, application and patch provisioning, code deployment and rollback, monitoring and failover, and assigning computing resources
- create server, storage, and network pools to share resources across multiple applications or departments to maximize utilization and ROI at minimum cost

Your customer is looking for an HP Service offering that would meet the goals listed in the exhibit. Which HP Service offering should you recommend?

- A. Applications Modernization Services
- B. Mission Critical Services
- C. Data Center Modernization Services
- D. Converged Infrastructure Services

Answer: C

QUESTION: 10

Which Superdome 2 features have a clear advantage over Sun UltraSparc T2 systems regarding the solution infrastructure and I/O RAS (reliability, availability, and scalability)?

- A. redundant I/O paths
- B. fault-tolerant I/O fabric
- C. hot-swap, dual-grid (N+N) power
- D. electrically isolated partitions

Answer: B

QUESTION: 11

When positioning the Superdome 2 against Sun systems regarding workload management and utility pricing, which competitive advantage should you point out to your customers?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
