HP0-S15

HP

Planning and Designing ProLiant Solutions for the Enterprise

<http://www.ipass4sure.com/exams.asp?examcode=HP0-S15>

The HP0-S15 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-S15 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-S15 exam is very challenging, but with our HP0-S15 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-S15 exam on your FIRST TRY!

HP HP0-S15 Exam Features

- Detailed questions and answers for HP0-S15 exam
- Try a demo before buying any HP exam
- HP0-S15 questions and answers, updated regularly
- Verified HP0-S15 answers by Experts and bear almost 100% accuracy
- HP0-S15 tested and verified before publishing
- HP0-S15 examcollection vce questions with exhibits
- HP0-S15 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-S15 exam are now continuously updating and accepting this challenge is itself a task. This HP0-S15 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-S15 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-S15 Test and save time and money while developing your skills to pass your HP HP0-S15 Exam? Let us help you climb that ladder of success and pass your HP0-S15 now!

Question: 1

Which application requires 100% uptime, where unavailability can have catastrophic business impact?

- A. Mission-critical application
- B. Business-critical application
- C. Continuous effort application
- D. Disaster-recovery application

Answer: B

Question: 2

What benefit is provided from a fault-tolerant system?

- A. 99.99% availability
- B. Maximum availability regardless of the circumstances
- C. Clustering with failover processes and application monitoring
- D. Component level redundancy, with a limited percentage of downtime

Answer: B

Question: 3

E-commerce sites are an example of which implementation?

- A. Mission-critical application
- B. Business-critical application
- C. Continuous effort application
- D. Disaster-recovery application

Answer: B

Question: 4

The following questions are asked during which part of the planning cycle?

What is the expected availability of the new solution?

What is the projected role of the new server?

What kind of system management tools are required?

- A. Site survey
- B. Scope of work
- C. Needs analysis
- D. Implementation timeline

Answer: A

Question: 5

What is used to secure access to the System Management Homepage? (Select two.)

- A. IP restriction
- B. Secure Shell (SSH)
- C. Web-based secured login
- D. SNMP community names
- E. Multiple login authentications

Answer: A, C

Question: 6

What action does HP Systems Insight Manager (HP SIM) take when a blade server is identified through another system in the same rack or enclosure?

- A. The system is catalogued to be polled during the next discovery task
- B. Associations are made between the blade server operating system to the next blade server operating system using the Interconnect ID.
- C. Associations are made between the iLO and the enclosure in which the system resides.
- D. HP Systems Insight Manager (HP SIM) requests all relevant information about the blade server to the HP BladeSystem Integrated Manager.

Answer: C

Question: 7

Which management protocol is used by the Onboard Administrator for BladeSystem c-Class to send event notifications for thresholds and faults to HP Systems Insight Manager (HP SIM)?

- A. Extended Management Layer (XML) protocol
- B. Web-based Enterprise Management (WBEM)
- C. Windows Management Instrumentation (WMI)
- D. Simple Network Management Protocol (SNMP)

Answer: D

Question: 8

What can be imported into the System Management Homepage to increase security?

- A. Local server certificate
- B. Encrypted password file
- C. SECURE Shell (SSH) public key
- D. 128bit RC4 encryption license

Answer: A

Question: 9

When configuring the authorizations for the System Management Homepage (SMH) on a Linux server, what should the system manager do to allow access for the root user?

- A. Create a password for root in SMH.
- B. Add root to the administrators group in SMH.
- C. Import the password file from Linux into SMH.
- D. Enter the root username and password to log into SMH.

Answer: D

Question: 10

What is one of the primary responsibilities of Integrated Lights-Out (iLO) in the server blade p-class architecture?

- A. Control the distribution of virtual IP-addresses and link them to the physical MAC addresses.
- B. Control and regulate access to the power management module when using the RS-232 connection method.
- C. Monitor and control the communication on the network bus used by the power and enclosure management module.

D. Assist in managing power resources by acting as an intelligent interface to the server blade infrastructure and its power management module.

Answer: D

Question: 11

Which HP SAN design is recommended for anyone just starting with SAN technology?

- A. HP standard design
- B. Variation of an HP standard design
- C. Flexible design using HP standard design
- D. Custom design using HP StorageWorks SAN design rules

Answer: A

Question: 12

Which layer-two protocol provides neighbor device discovery and runs on all networking devices such as routers, bridges and switches?

- A. Cisco Discovery Protocol (CDP)
- B. Transmit Control Protocol (TCP)
- C. Virtual Router Redundancy Protocol (VRRP)
- D. Simple Network Management Protocol (SNMP)

Answer: A

Question: 13

Which tool gives you an intuitive and secure interface to review in-depth information on hardware configuration, performance metrics and system thresholds and is part of the ProLiant Support Pack?

- A. HP Control Tower
- B. HP System Management Homepage
- C. HP Performance Management agents
- D. HP Systems Insight Manager (HP SIM)

Answer: B

Question: 14

What do you need to access the Onboard Administrator for a BladeSystem c-Class enclosure remotely? (Select two.)

- A. A standard USB cable
- B. An RS-232 serial cable
- C. A compatible web browser
- D. A terminal emulation program
- E. The Onboard Administrator IP address

Answer: C, E

Question: 15

What is the recommended method of configuring the access security control between HP Systems Insight Manager (HP SIM) and the System Management Homepage (SMH)?

- A. Configure trust by name in HP SIM

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
