# HP0-Y21

**HP**

*ProCurve Core Competencies*

<http://www.ipass4sure.com/exams.asp?examcode=HP0-Y21>

The HP0-Y21 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-Y21 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-Y21 exam is very challenging, but with our HP0-Y21 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-Y21 exam on your FIRST TRY!

## HP HP0-Y21 Exam Features

- Detailed questions and answers for HP0-Y21 exam
- Try a demo before buying any HP exam
- HP0-Y21 questions and answers, updated regularly
- Verified HP0-Y21 answers by Experts and bear almost 100% accuracy
- HP0-Y21 tested and verified before publishing
- HP0-Y21 examcollection vce questions with exhibits
- HP0-Y21 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-Y21 exam are now continuously updating and accepting this challenge is itself a task. This HP0-Y21 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-Y21 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-Y21 Test and save time and money while developing your skills to pass your HP HP0-Y21 Exam? Let us help you climb that ladder of success and pass your HP0-Y21 now!

**Question: 1**

What is the default state of a ProCurve switch port configured for port-based authentication using 802.1X?

- A. Authorized
- B. Authenticated
- C. Unauthorized
- D. Learning

**Answer: C**

**Question: 2**

You must configure five ports on a ProCurve Switch 3500yl for port-based 802.1X authentication. The users will be subject to access policies applied by Identity Driven Manager. Which device's IP address must be included in the switch configuration?

- A. RADIUS server
- B. Windows Domain Controller
- C. Certification Authority
- D. PCM+ server

**Answer: A**

**Question: 3**

You must create a user in Windows Active Directory to support MAC authentication for a ProCurve switch. What is the password for the switch's user?

- A. Serial number
- B. RADIUS shared secret
- C. MAC address
- D. IP address

**Answer: C**

**Question: 4**

In addition to IP address, which criteria can be used to identify a Network Resource in Identity Driven Manager? (Select two.)

- A. WLAN
- B. Protocol
- C. MAC address
- D. SSID
- E. TCP/UDP port

**Answer: B, E**

**Question: 5**

Which statement is true about 802.1X user authentication on ProCurve switches?

- A. The supplicant and authentication server must support the same EAP method.
- B. A switch passes EAP messages between the supplicant and authentication switch without modification or translation.
- C. Different RADIUS servers must be configured on the switch if authentication of both switch management users and 802.1X supplicants will be performed.

D. If a supplicant receives an EAP-Request message specifying a particular EAP method to be supported, the authentication session is closed if the supplicant does not support that EAP method.

**Answer: A**

**Question: 6**

What is an operational difference between the MD5 and TLS EAP methods?

- A. MD5 uses certificates for authentication; TLS uses a challenge/handshake mechanism for authentication.
- B. MD5 uses a name and password to produce a session key; TLS uses a name and password along with digital certificates to produce a session key.
- C. MD5 uses a challenge/handshake mechanism to authenticate the client to the server; TLS uses digital certificates for mutual authentication.
- D. MD5 uses certificates for authentication and encryption; TLS uses a challenge/handshake mechanism for authentication and encryption.

**Answer: C**

**Question: 7**

Which user-defined object in Identity Driven Manager is similar to an Access Control Entry (ACE) configured on a ProCurve switch?

- A. Access Profile
- B. Network Resource
- C. Access Policy
- D. Network Access Rule

**Answer: D**

**Question: 8**

A Web authenticator port on ProCurve Switch 3500yl is currently in the authenticating state. How is the client's traffic affected by this condition?

- A. The client can communicate only with destinations in the authorized VLAN.
- B. The client is prevented from communicating with any IP address until the RADIUS server responds indicating the user has been authenticated.
- C. The client can send and receive traffic only through TCP port 80.
- D. Any DNS name resolves to the switch IP address and any IP address resolves to the switch MAC address.

**Answer: D**

**Question: 9**

Which sources of user identity are directly supported by the user import feature in Identity Driven Manager? (Select three.)

- A. CSV file
- B. RADIUS server
- C. XML file
- D. Windows Active Directory
- E. SQL database
- F. ODBC database
- G. LDAP server

**Answer: C, D, G**

**Question: 10**

Which EAP methods support authentication of an 802.1X supplicant based on a user's name and password? (Select two.)

- A. TLS
- B. TTLS
- C. PEAP
- D. CHAP
- E. SIM
- F. SPAP

**Answer: B, C**

**Question: 11**

You have enabled and activated 802.1X authentication for ports 1-4 on a ProCurve Switch 3500yl. VLAN membership of the ports is at default settings. Users connecting to the switch will authenticate using Windows IAS and be assigned to VLANs based on policies applied by Identity Driven Manager. You enter the following command:

```
3500yl(config)#aaa port-access authenticator ethernet 1-4 unauth-vid 55
```

What is the VLAN membership of these ports while no clients are connected?

- A. VLAN 1
- B. VLAN 55
- C. VLAN assigned by RADIUS server
- D. VLAN assigned by IDM

**Answer: A**

**Question: 12**

You have enabled Web-Auth using default settings for users connecting through a port on a ProCurve Switch 5412zl. How many clients can connect simultaneously through this port?

- A. 1
- B. 4
- C. 16
- D. 32

**Answer: A**

**Question: 13**

What is the effect of entering the following command at the CLI of a ProCurve Switch 5406zl?

```
5406zl(vlan-100)#interface a1
```

- A. Port A1 is enabled.
- B. The CLI enters the configuration context for port A1.
- C. Port A1 becomes a tagged member of VLAN 100.
- D. The CLI displays the status of port A1.

**Answer: B**

## Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
