HP0-Y29

HP

Installing an HP Networking IP Telephony Solution

<http://www.ipass4sure.com/exams.asp?examcode=HP0-Y29>

The HP0-Y29 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The HP0-Y29 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The HP0-Y29 exam is very challenging, but with our HP0-Y29 questions and answers practice exam, you can feel confident in obtaining your success on the HP0-Y29 exam on your FIRST TRY!

HP HP0-Y29 Exam Features

- Detailed questions and answers for HP0-Y29 exam
- Try a demo before buying any HP exam
- HP0-Y29 questions and answers, updated regularly
- Verified HP0-Y29 answers by Experts and bear almost 100% accuracy
- HP0-Y29 tested and verified before publishing
- HP0-Y29 examcollection vce questions with exhibits
- HP0-Y29 same questions as real exam with multiple choice options

Acquiring HP certifications are becoming a huge task in the field of I.T. More over these exams like HP0-Y29 exam are now continuously updating and accepting this challenge is itself a task. This HP0-Y29 test is an important part of HP certifications. We have the resources to prepare you for this. The HP0-Y29 exam is essential and core part of HP certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real HP0-Y29 Test and save time and money while developing your skills to pass your HP HP0-Y29 Exam? Let us help you climb that ladder of success and pass your HP0-Y29 now!

QUESTION: 1

Click the Exhibit button.

You have provisioned MAC address data for a phone as shown in the exhibit. What happens when the phone powers up?

- A. The phone prompts for a password without prompting for a phone number. If the correct password for phone number 1102 is entered, the phone registers as phone number 1102.
- B. The phone prompts for a phone number. If 1102 is input, the phone completes registration without prompting for a password. If any other phone number is input, the phone prompts for a password.
- C. The phone does not prompt for a phone number or password, but registers automatically with phone number 1102.
- D. The phone is not allowed to register because it is not locked.

Answer: A

QUESTION: 2

Which statements are true about the "Export Data" capability on VCX? (Select two.)

- A. Exported data may be viewed on the Central Management Console.
- B. The call processor service must be stopped before exporting data.
- C. It is only possible to export data from one data table at a time.
- D. Data may be exported to a file.

Answer: A, D

QUESTION: 3

Which type of ACD group is described in the following paragraph? This method uses an ordered list of agents for the group. When a call rings into the ACD group it is routed to the next agent on the list following the agent whom last answered a call for the ACD group. If that agent does not answer the call after a preset amount of time the call will be routed to the next agent on the list. The call will continue to be transferred in this pattern until it is answered or

until the predetermined total timeout is reached. Then the call will be sent to the call coverage for the ACD group.

- A. Linear
- B. Circular
- C. Calling Group
- D. Least Call Count
- E. Most Idle Agent

Answer: B

QUESTION: 4

Which type of ACD group is described in the following paragraph? The call is routed first to the agent whom has answered fewer ACD calls than any other agent. If that agent does not answer after a preset amount of time the call will be routed to the agent in that group with the next-lowest call count. The call will continue to be transferred in this pattern until it is answered or until the predetermined total timeout is reached.

- A. Linear
- B. Calling Group
- C. Least Call Count
- D. Circular
- E. Most Idle Agent

Answer: C

QUESTION: 5

Which type of ACD group is described in the following paragraph? When a call rings into the ACD group it rings all members of the group simultaneously. The call will continue to ring all members until it is answered or until the predetermined total timeout is reached.

- A. Calling Group
- B. Most Idle Agent
- C. Least Call Count
- D. Circular
- E. Linear

Answer: A

QUESTION: 6

Which statements are correct about ACD group counters? (Select two.)

- A. Counters may be reset at any time by any logged-in member of the ACD group.
- B. Counters may be configured to automatically reset at a configurable time each day.
- C. Counters are maintained for all ACD group types.
- D. Counters may be configured to automatically reset each time an ACD group is opened or closed.
- E. ACD group counter data includes number of agent login attempts and number of calls transferred to the ACD group call coverage.

Answer: B, D

QUESTION: 7

You have two ACD groups built and 32 agents assigned to the ACD pool on your VCX. Twelve agents are currently assigned to an ACD group. Two of those agents are assigned to two ACD groups. How many ACD agent licenses does this configuration use on the VCX?

- A. 32
- B. 34
- C. 44
- D. 46

Answer: A

QUESTION: 8

Click the Exhibit button.

Mailbox Options > Find Me Follow Me > Add Destination Number

Find Me Follow Me

Use this page to add destination numbers and to specify no answer timeout values.

Fields marked with an asterisk * are required.

Help

Add Destination Number

*Number 1

Number 2

Number 3

*No Answer Timeout 45 (Seconds)

Save Reset Cancel

Note: No answer timeout configuration applies to all destination numbers.

You are provisioning data for the Find Me Follow Me Feature. Which statement about Number 1, Number 2, and Number 3 is true?

- A. The Find Me Follow Me feature attempts to reach the subscriber by first alerting the number specified by Number 1. If no answer is received, the feature alerts the next number in the sequence.
- B. The Find Me Follow Me feature attempts to reach the subscriber by first alerting the number in the sequence after that at which the subscriber was last reached. If no answer is received, the feature alerts the next number in the sequence.
- C. The Find Me Follow Me feature attempts to reach the subscriber by alerting all specified numbers simultaneously.
- D. The Find Me Follow Me feature attempts to reach the subscriber by first alerting the number at which the subscriber was last reached. If no answer is received, the feature alerts the next number in the sequence.

Answer: A

QUESTION: 9

DRAG DROP

Click the Task button. You are recording an audio file to upload to IP Messaging via the IP Messaging Web GUI. Select the correct parameter values to choose when saving the file.

Answer:

QUESTION: 10

DRAG DROP

Click the Task button. Match the username/default password to the user interface for logging in.

Answer:

QUESTION: 11

Click the Exhibit button.

The figure shows part of a SIP transaction between a media gateway and a VCX Call Processor service. Which SIP role does the VCX Call Processor service play in the transaction?

- A. Notification Server
- B. User Agent Server
- C. User Agent Client
- D. Update Client

Answer: B

QUESTION: 12
