L50-501

LSI

LSI SVM5 Implementation Engineer

<http://www.ipass4sure.com/exams.asp?examcode=L50-501>

The L50-501 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The L50-501 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The L50-501 exam is very challenging, but with our L50-501 questions and answers practice exam, you can feel confident in obtaining your success on the L50-501 exam on your FIRST TRY!

LSI L50-501 Exam Features

- Detailed questions and answers for L50-501 exam
- Try a demo before buying any LSI exam
- L50-501 questions and answers, updated regularly
- Verified L50-501 answers by Experts and bear almost 100% accuracy
- L50-501 tested and verified before publishing
- L50-501 examcollection vce questions with exhibits
- L50-501 same questions as real exam with multiple choice options

Acquiring LSI certifications are becoming a huge task in the field of I.T. More over these exams like L50-501 exam are now continuously updating and accepting this challenge is itself a task. This L50-501 test is an important part of LSI certifications. We have the resources to prepare you for this. The L50-501 exam is essential and core part of LSI certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real L50-501 Test and save time and money while developing your skills to pass your LSI L50-501 Exam? Let us help you climb that ladder of success and pass your L50-501 now!

QUESTION: 1

During the SVM Management software installation, which two adapters would you select to be controlled by the SVM? (Choose two.)

- A. Emulex Fibre Channel adapter
- B. Qlogic Fibre Channel adapter
- C. Microsoft iSCSI initiator
- D. Smart Array controller

Answer: B, C

QUESTION: 2

At the end of the SVM installation, which three actions should you perform to ensure that the installation is correct? (Choose three.)

- A. Test failover between two SVMs to make sure that you can successfully failover between SVMs.
- B. Make sure that the SVM recognizes the DPM and that the DPM recognizes all of the devices that are connected to the DPM ports.
- C. Make sure that the SVM and DPM recognize the LUNs available on the storage array.
- D. Make sure that the DPMs can communicate with each other.
- E. Make sure that the LSI Failover Driver is installed on the SVM server.

Answer: A, B, C

QUESTION: 3

Which parameter must be the same for SVM servers that manage the same SVM domain?

- A. serial number
- B. SVM domain name
- C. computer name
- D. WWNN

Answer: B

QUESTION: 4

Your current SAN environment includes a storage system with LUNs exposed directly to Windows hosts. You have been asked to integrate this storage system into the new SVM domain. Which statement is correct?

- A. The existing data can be moved to an SVM virtual volume while the application is still writing to the source LUN.
- B. The physical LUN containing the data must be unmounted from the host while the data is been moved to an SVM virtual volume.
- C. The physical LUN containing the data must be mounted to the host while the data is been moved to an SVM virtual volume.
- D. The physical LUN containing the data must be mounted to the SVM servers while the data is been moved to an SVM virtual volume.

Answer: B

QUESTION: 5

You have a customer that feels that their application can take advantage of striping their data. Which two conditions will improve performance? (Choose two.)

- A. Striping across two different storage systems.
- B. Servers are running a transactional application where I/Os per second are required.
- C. Disks that are available for inclusion in the stripe set are not of equal size.
- D. Disks that are available for inclusion in the stripe set are of equal size.

Answer: A, D

QUESTION: 6

What is the difference between the active SVM server and the passive SVM server?

- A. The passive SVM server takes control when the active SVM server is too busy.
- B. The passive SVM server is a standby server only and does not perform any management tasks.
- C. The passive SVM server can only modify objects but cannot create objects.
- D. The passive SVM server can only manage user accounts.

Answer: B

QUESTION: 7

What should you do before starting the SVM server software upgrade process?

- A. Reboot the SVM server.
- B. Disconnect the SVM Fibre Channel cables.
- C. Shut down the SVM Web server.
- D. Uninstall the SVM server agent.

Answer: B

QUESTION: 8

What are two requirements to set up a stretched SVM domain across two datacenters on the same campus? (Choose two.)

- A. Both SVM servers must be located on the same site.
- B. The sites must be interconnected through two fabrics/ISLs.
- C. Each site must have a minimum of one copy of the setup volume.
- D. A dedicated IP link must be provided to interconnect the SVM servers.

Answer: B, C

QUESTION: 9

When adding storage to an existing SVM pool, what must be considered?

- A. Growing the LUN will provide better utilization of storage.
- B. Always pay attention to the performance characteristics of the storage.
- C. Always select storage with different storage characteristics.
- D. Adding storage to an existing pool will reduce performance.

Answer: B

QUESTION: 10

Where is the SVM metadata stored?

- A. On a mirror, between the two SVM internal hard drives.
- B. On a mirror, between the managed storage array LUNs and the SVM internal hard drive.
- C. On a mirror, between managed storage array LUNs.
- D. On a mirror, between the two SVM internal hard drive partitions.

Answer: C

QUESTION: 11

Two SVM servers in SVM Domain A are connected over Fibre Channel with two SVM servers in SVM Domain B. The SVM servers' HBA at each domain can see the SVM servers' HBA at the other SVM domain. What should you do to interconnect the SVM domains?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
