LOT-917

IBM

Administering IBM Connections 3.0

<http://www.ipass4sure.com/exams.asp?examcode=LOT-917>

The LOT-917 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The LOT-917 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The LOT-917 exam is very challenging, but with our LOT-917 questions and answers practice exam, you can feel confident in obtaining your success on the LOT-917 exam on your FIRST TRY!

IBM LOT-917 Exam Features

- Detailed questions and answers for LOT-917 exam
- Try a demo before buying any IBM exam
- LOT-917 questions and answers, updated regularly
- Verified LOT-917 answers by Experts and bear almost 100% accuracy
- LOT-917 tested and verified before publishing
- LOT-917 examcollection vce questions with exhibits
- LOT-917 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like LOT-917 exam are now continuously updating and accepting this challenge is itself a task. This LOT-917 test is an important part of IBM certifications. We have the resources to prepare you for this. The LOT-917 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real LOT-917 Test and save time and money while developing your skills to pass your IBM LOT-917 Exam? Let us help you climb that ladder of success and pass your LOT-917 now!

QUESTION: 1

Juan is preparing Tivoli Directory Integrator to populate and maintain Profiles records, and he must configure the environment so that the Connections and Tivoli Directory Integrator solution tasks can connect to the database hosting the Profiles database. How does he configure the database drivers so that they are available to the solution?

- A. He copies the database JDBC drivers to the `jvm/jre/lib/ext` subdirectory of the Tivoli Directory Integrator installation.
- B. No driver configuration is necessary, because all database connections are managed by the database client software.
- C. He updates the Tivoli Directory Integrator solution's `profiles_tdi.properties` file, and sets the `dbrepos_jdbc_driver` property to a local directory path containing the database JDBC drivers.
- D. He updates the `ibmdisrv` file in the Tivoli Directory Integrator installation directory and adds a the local directory path containing the database JDBC drivers using the `"-driverpath"` parameter on the Java invocation command.

Answer: D

QUESTION: 2

Bob needs to configure federated repositories using LDAP over SSL. Identify which of the following tasks is not required to enable SSL communication over LDAP?

- A. Change the port number to the SSL port of the LDAP server.
- B. Select the SSL alias defined by Bob in the trust store in the federated repositories configuration.
- C. Add a signer certificate to the trust store in WebSphere Application Server by retrieving the certificate from the LDAP port.
- D. Generate a self-signed certificate with an alias using the `ikey` manager utility and add it to the Websphere Application Server certificate store.

Answer: D

QUESTION: 3

Joe has installed and enabled the mobile feature. He has been using the self-signed SSL certificate produced by WebSphere Application Server, rather than having a trusted certificate. What must he do to allow iPhone and iPod Touch users to access secure pages from their devices without receiving warnings about the untrusted certificate?

- A. The mobile feature does not support authenticated access or HTTPS communication.
- B. The mobile feature does not support authenticated access or HTTPS communication.

C. Nothing. The iPhone and iPod Touch devices automatically trust the self-signed certificate and allow the user to access Connections information without warnings being shown.

D. Send an email to his users with the certificate as an attachment, ask them to open the attachment from the device. When they do, the device recognizes it, and installs the certificate.

Answer: D

QUESTION: 4

Baxter just installed the Search application on multiple nodes. What configuration does Baxter need to perform to initialize the search index on all nodes?

- A. Set SEARCH_INDEX_DIR on all nodes to the same network share
- B. Copy the search index to the same place on each node
- C. Build the search index on each node
- D. Nothing; the index is automatically created across all the nodes

Answer: B

QUESTION: 5

Patrick has defined an IBM HTTP Server and mapped his installed features to it. However, he still sees that the port numbers are in the URL when he uses a link from the navigation bar. What is the most likely reason this is happening?

- A. The host alias has not been defined for his features.
- B. The feature's port numbers have not been removed from the serverindex.xml file.
- C. The feature's port numbers must be removed from the IBM HTTP Servers httpd.conf file.
- D. The feature's port numbers have not been removed from the LotusConnections-config.xml file.

Answer: D

QUESTION: 6

Judy wrote an audit tool that plugs into Connections using the Event SPI. How is an Event SPI implementation deployed?

- A. The extension is a stand-alone JAR file that must be added to every EAR file. This process can be manually copied to the EAR or deployed using the WebSphere Application Server administrative application update tools.
- B. Judy must create a WAR file that must then be deployed to every EAR file that you want to audit. The LotusConnections-config.xml file must be updated by adding a new service entry.
- C. The extension must be included in an EAR file and deployed to an existing or new cluster. The LotusConnections-config.xml file must be updated by adding a new service entry.
- D. The extension is deployed as a WebSphere Application Server shared library.

Answer: D

QUESTION: 7

Arthur, the administrator, has just configured the <languageSelector> element in the LotusConnections-config.xml file with a value of defaultLanguage="en" and no additional language elements listed. What is the user experience for Miguel, a user, when he accesses Connections features with a locale setting of "es" (Spanish) in his browser?

- A. The language that Miguel can view the Connections interface in a web browser is based on his preferredLanguage.
- B. The default value of the server operating system that Connections was installed on is French, so Miguel is only able to see the user interface in French.
- C. Because the default language is "en" and no additional language elements are included in the LotusConnections-config.xml file, Miguel only sees the English Connections interface.
- D. Miguel sees the user interface in Spanish because the browser locale setting overrides the default language setting in the LotusConnections-config.xml file. But, he can select any language that he wants from the toggle button.

Answer: C

QUESTION: 8

When you installed Connections you specified Oracle for the RDBMS system to store data. What must you do to enable the applications to use the JDBC driver?

- A. Install the Oracle thin client on all WebSphere Application Server nodes.
- B. Install the Oracle thin client on the deployment manager and stop and restart all nodes.
- C. Copy the Oracle JDBC driver to the same location on all nodes.
- D. Install Oracle SQL Plus on all WebSphere Application Server nodes and configure the TNS Listener with the Oracle server connection URL.

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
