MB3-234

Microsoft
Great Plains 8.0 Manufacturing Applications

http://www.ipass4sure.com/exams.asp?examcode=MB3-234

The MB3-234 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The MB3-234 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The MB3-234 exam is very challenging, but with our MB3-234 questions and answers practice exam, you can feel confident in obtaining your success on the MB3-234 exam on your FIRST TRY!

Microsoft MB3-234 Exam Features

  - Detailed questions and answers for MB3-234 exam
  - Try a demo before buying any Microsoft exam
  - MB3-234 questions and answers, updated regularly
  - Verified MB3-234 answers by Experts and bear almost 100% accuracy
  - MB3-234 tested and verified before publishing
  - MB3-234 examcollection vce questions with exhibits
  - MB3-234 same questions as real exam with multiple choice options

Acquiring Microsoft certifications are becoming a huge task in the field of I.T. More over these exams like MB3-234 exam are now continuously updating and accepting this challenge is itself a task. This MB3-234 test is an important part of Microsoft certifications. We have the resources to prepare you for this. The MB3-234 exam is essential and core part of Microsoft certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real MB3-234 Test and save time and money while developing your skills to pass your Microsoft MB3-234 Exam? Let us help you climb that ladder of success and pass your MB3-234 now!

D - Used to see who has a bill of material record currently in use or locked

Answer: D

Question: 16
Which of the following is a routing status type?

A - Released
B - Archived
C - Not Released
D - Firmed

Answer: A, B, C

Question: 17
If quick manufacturing orders are being used, what option(s) must be marked in the Routing sequence entry screen?

A - Auto-Back flush Labor
B - Auto-Back flush Machine
C - Auto-Back flush Material
D - Auto-Back flush All

Answer: A, B

Question: 18
What type of routings can be creating within the Manufacturing Routing Module?

A - Planning or Manufacturing (Active) Routings
B - Manufacturing (Active) or Released Routings
C - Planned or Released Routings
D - Firmed Routings

Question: 19
Which of the following routing times are calculated on a per piece basis?

A - Setup Time
B - Labor Time
C - Machine Time
D - Queue Time

Question: 20
To make changes to a manufacturing (active) routing without changing the planning routing first, what window is used?

A - Manufacturing Order Routing Sequence Edit window
B - Routing Utilities window
C - Routing Sequence Entry window
D - Routing Query window

Question: 21
Assume the cost of one component is $10. In component transaction entry, a quantity of 5 for this component was issued for one MO. At MO receipt, an additional 2 were consumed, for at total consumed of 7. Also, a quantity of 3 was back flushed. What will be the Material variance for this component at MO Close?

A - $10
B - $20
C - $30
D - $50

Question: 22
What must be entered in the system before you can create a manufacturing order?

A - Item record
B - Bill of Material
C - Routing
D - Drawing must be assigned to the item

Question: 23
The Purchasing and Shipping buttons will be enabled on MO Entry if which of the follow statements are correct?

A - The finished good has more than one routing sequence
B - The finished good using the Primary Routing
C - The finished good has an outsourced routing sequence
D - The finished good is not active
