Question: 1

You are asking a question that requires a respondent to choose more than one way to deal with a given scenario. You therefore need to allow the respondent to provide more than one response to the question. Which of the following input types should you choose?

- A - Combo box
- B - Alternative box
- C - Check box
- D - Multi box

Answer: C

Question: 2

When setting up a questionnaire, what impact does selecting the All check box have?

- A - All respondents must answer the questionnaire
- B - All questions in a questionnaire must be served to the respondent
- C - All questions must be answered correctly
- D - All questions must be answered to complete the questionnaire

Answer: D

Question: 3

Which of the following are elements in a questionnaire?

- A - Question template
- B - Question type
- C - Form template
- D - Form type

Answer: B, C

Question: 4

You want to create a questionnaire that you will use as a test at the end of a course. Respondents will need to achieve a certain score in order to receive credit for passing the course. Which of the following are setup fields on answers that allow you to use scoring?

- A - Points
- B - Max. Number of points
- C - Mm. Number of points
- D - Correct answer

Answer: A, D

Question: 5

You are creating a questionnaire in which you'll evaluate point scores, so you therefore need to select the method you want to use to calculate results. On which of the following do you indicate the result calculation method you want to use?

- A - Result group
- B - Question
- C - Answer
- D - Answer group

Answer: B

Question: 6

Because some components of a questionnaire are directly related to others, such as questions and answers (response options), when creating a new questionnaire you must create some elements in a particular order. Which of the following describes when you should create an answer group?

- A - Before a question, but after a Questionnaire
- B - Before a question
- C - After a question, but before a Questionnaire
- D - Before a question, but after a result group

Answer: B

Question: 7

When using a conditional question structure on a questionnaire, which of the following elements determines which question will be asked after the primary question?

- A - Question
- B - Answer
- C - Sequence number
- D - Result group

Answer: B

Question: 8

Which of the following options can you select as the input type for an open question?

- A - Check box
- B - Alternative button
- C - Combo box
- D - Text

Answer: D

Question: 9

When setting up a questionnaire, which of the following information is mandatory?

- A - Questions
- B - Answer groups
- C - Answers C
- D - Questionnaire type

Answer: D

Question: 10

What are result groups used for?

- A - Allocating points to questions
- B - Allocating points to answers
- C - Collecting points allocated to questions
- D - Collecting points allocated to answers

Answer: D

Question: 11

You are creating a questionnaire that tests knowledge in three subject areas. To sort points achieved according to each subject area you can create three result groups, one for each subject. From which form do you create result groups?

- A - From the Questionnaire form
- B - From the Question form
- C - From the Answer group form
- D - In the Setup menu

Answer: A

Question: 12

You have a specific question that is particularly important for determining the scope of a respondent's knowledge about a given subject, and you want to add sub-questions to further explore the subject on the same page of the questionnaire. What do you need to do?

- A - You must select the Several rows check box on the General tab page of the Question form, and use the same response type for all sub-questions
- B - You can add sub-questions at any time by simply asking questions in a logical sequence
- C - You can add your sub-questions on the Text tab of the question so that they will be displayed along with the original question
- D - You cannot ask sub-questions

Answer: A

Question: 13

Which of the following roles related to questionnaires is supported by the Enterprise Portal?

- A - Microsoft Axapta administrator
- B - Line manager
- C - Customer
- D - Questionnaire participant

Answer: D

Question: 14

When you want to calculate results for a questionnaire based on points assigned to the questions, which of the following selections should you make on the Questions form?

- A - You should choose Question in the Result calculation field, and then select the result group(s) to which you want to distribute points
- B - You should choose None in the Result calculation field, and then select the result group(s) to which you want to distribute the points
- C - You should choose Question in the Result calculation field, and then select the Mandatory check box to ensure that respondents complete the question
- D - Since you can only assign points to answers, you cannot calculate points for questions

Answer: A

Question: 15

Which of the following applies to the Back button?

- A - Disabling it will also temporarily disable the Back button in a browser
- B - Disabling it will not disable the Back button in a browser
