Answer: B, C

Question: 4

Which server options does Navision allow?

- A - Windows 2000 Server
- B - Microsoft SQL Server
- C - Navision Database Server
- D - Win-Serv

Answer: B, C

Question: 5

You are preparing to do your first Navision database backup. What are some advantages of using the Navision client based backup function?

- A - The system tests the database for errors, so incorrect information is not copied to a backup.
- B - The data is not compressed, allowing for faster recovery.
- C - You can continue to work in Navision while you are making a backup.
- D - The system compares the tables against the last backup and only copies information that has been changed.

Answer: A, C

Question: 6

CUSTOM SETUP, from the Installation Wizard, offers a number of specific FEATURES. Which of the following is NOT one of them?

- A - Navision Toolbar For Outlook
- B - Object Designer
- C - HELP
- D - MDAC

Answer: B

Question: 7

What Navision files are removed from the computer during the uninstall process?

- A - All files related to Navision are removed.
- B - Only selected features are removed.
- C - All Navision files except locally stored licenses, databases and database backups are removed.
- D - All files related Navision are moved to the Recycle Bin in case the uninstall was made by mistake.

Answer: C

Question: 8

What two properties have a positive impact in an effort to speed up Navision's response time?

- A - Commit Cache
- B - NetType
- C - Object Cache
- D - TempPath

Answer: A, C

Question: 9

Which type of installation is recommended for a Navision single user workstation?

- A - minimum
- B - maximum
- C - complete
- D - typical

Answer: C

Question: 10

You are 80% finished doing a client install and realize you are installing on the wrong computer. You attempt to cancel the installation, what happens to the portions of the program already installed?

- A - Nothing, you can not stop the installation process once it begins.
- B - Nothing, the installed portions stay in the program folders in case you reinstall at a later time.
- C - The installed files are moved to the temporary folder so they can be accessed in case of another installation attempt.
- D - Microsoft Installer will perform a rollback and restore the computer to the state it was in before the installation began.

Answer: D

Question: 11

When starting Navision, and opening a specific database, which of the following statements are true?

- A - You must enter an ID and password regardless of the Authentication method you select.
(Database server authentication or Windows authentication)
- B - You can open and work in more than one company at a time.
- C - You must enter an ID and password only if using the Windows Authentication method.
- D - You must enter an ID and password only if using the Database Authentication method.

Answer: D

Question: 12

When using the Microsoft Installer to make changes to the setup configuration, which of the statements are incorrect?

- A - A description of the selected feature is given on the right side of the screen.
- B - Click on a Feature Icon to display drop down list of options.
