TT0-101

TIA

Convergence Technologies Professional

<http://www.ipass4sure.com/exams.asp?examcode=TT0-101>

The TT0-101 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The TT0-101 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The TT0-101 exam is very challenging, but with our TT0-101 questions and answers practice exam, you can feel confident in obtaining your success on the TT0-101 exam on your FIRST TRY!

TIA TT0-101 Exam Features

- Detailed questions and answers for TT0-101 exam
- Try a demo before buying any TIA exam
- TT0-101 questions and answers, updated regularly
- Verified TT0-101 answers by Experts and bear almost 100% accuracy
- TT0-101 tested and verified before publishing
- TT0-101 examcollection vce questions with exhibits
- TT0-101 same questions as real exam with multiple choice options

Acquiring TIA certifications are becoming a huge task in the field of I.T. More over these exams like TT0-101 exam are now continuously updating and accepting this challenge is itself a task. This TT0-101 test is an important part of TIA certifications. We have the resources to prepare you for this. The TT0-101 exam is essential and core part of TIA certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real TT0-101 Test and save time and money while developing your skills to pass your TIA TT0-101 Exam? Let us help you climb that ladder of success and pass your TT0-101 now!

Question: 1

A technician notices errors in a routing table. Which layer of the OSI model is associated with this situation?

- A. Network layer
- B. Session layer
- C. Transport layer
- D. Data link layer

Answer: A

Question: 2

Which layer of the OSI model is responsible for converting between ASCII and EBCDIC?

- A. Session layer
- B. Transport layer
- C. Application layer
- D. Presentation layer

Answer: D

Question: 3

Which of the following protocols is responsible for host-to-host communication services?

- A. IP
- B. TCP
- C. ARP
- D. SNMP

Answer: B

Question: 4

Which choice lists protocols that operate at the network layer of the OSI model?

- A. SIP and IPX
- B. SIP and H.323
- C. IP and IPX
- D. IP and H.323

Answer: C

Question: 5

Which of the following best describes the process of encapsulation?

- A. As data is processed by an application, special tags are added to mark the beginning of each block.
- B. As packets are received at a device, the low-level drivers add information indicating the source protocols.
- C. As data units are passed down the protocol stack, each layer adds information appropriate to the function of that layer.
- D. As each message is processed by a protocol on the transmitting end, the partner protocol on the receiving end builds an entry in the connection table.

Answer: C

Question: 6

Which choice shows the correct ordering of protocol data units, starting from the highest level (application layer) to the lowest level (physical layer)?

- A. Packet, frame, Data, bits
- B. Packet, data, frame, bits
- C. Data, segment, packet, frame
- D. Message, Segment, frame, packet

Answer: C

Question: 7

A customer wants to design an inexpensive LAN infrastructure so that the rest of the network is Not disrupted when a single cable is disconnected. Which physical topology is most appropriate for the customer to use?

- A Bus
- B. Star
- C. Ring
- D. Mesh

Answer: B

Question: 8

Which logical topology is implemented in an IEEE 802.5 network?

- A Bus
- B. Ring
- C. Star
- D. Partial mesh

Answer: B

Question: 9

A customer with 10 locations requests a proposal for a wide area network (WAN) network that will provide a redundant solution if one of the Telco connections fails. Which topology would best fill this request?

- A Star
- B. Mesh
- C. Ring
- D. Point-to-point

Answer: B

Question: 10

Under which of the following circumstances would a partial-mesh WAN topology be most appropriate?

- A. The customer has unlimited budget resources.
- B. The customer is using real time applications.
- C. The customer is using token ring LAN segments.
- D. The customer needs redundancy and reduced costs.

Answer: D

Question: 11

After two companies merge, their two networks need to be connected. Which of the following devices is most appropriate to connect the two networks?

- A. Router
- B. Switch
- C. Bridge
- D. NAT server

Answer: A

Question: 12

An existing network with 500 users and 25 servers is experiencing excessive broadcast traffic. Which of the following can be added to limit broadcasts?

- A. Router
- B. Switch
- C. Proxy server
- D. Traffic shaper

Answer: A

Question: 13

Which of the following devices maximizes the efficient utilization of LAN media?

- A. Hub
- B. Router
- C. Switch
- D. Bridge

Answer: C

Question: 14

A customer wants to implement real-time applications. Which of the following devices will allow Traffic segmentation and keep latency low?

- A. Hub
- B. Switch
- C. Router
- D. CSU/DSU

Answer: B

Question: 15

Which of the following protocols uses the Data Link Connection Identifier (DLCI)?

- A. PPP
- B. SONET
- C. 802.3
- D. Frame relay

Answer: D

Question: 16

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
