The 000-001 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-001 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently.
The 000-001 exam is very challenging, but with our 000-001 questions and answers practice exam, you can feel confident in obtaining your success on the 000-001 exam on your FIRST TRY!

IBM 000-001 Exam Features

- Detailed questions and answers for 000-001 exam
- Try a demo before buying any IBM exam
- 000-001 questions and answers, updated regularly
- Verified 000-001 answers by Experts and bear almost 100% accuracy
- 000-001 tested and verified before publishing
- 000-001 exam questions with exhibits
- 000-001 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-001 exam are now continuously updating and accepting this challenge is itself a task. This 000-001 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-001 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 000-001 Test and save time and money while developing your skills to pass your IBM 000-001 Exam? Let us help you climb that ladder of success and pass your 000-001 now!

Exam Name:	Fundamentals of Applying Maximo Enterprise Asset Management Solutions V2		
Exam Type:	IBM	Exam Code:	000-001
Certification	IBM Solution Advisor	Total Questions:	123

Question: 1
A competitor in the IBM Maximo Asset Management (IMAM) domain claims that their product contains pre-built workflows and common tasks that span and integrate across asset applications. What should a solution advisor do when a customer is considering such a solution?

A. Dispute the vendor's claims that these pre-built workflows even exist.
B. Inform the organization that workflow is an unimportant component in asset.
C. Inform the organization that all vendors have the same pre-built workflows incorporated in their products.
D. Inform the customer that if current business processes do not exactly match these workflows, customization is required.

Answer: D

Question: 2
What are two common reporting requirements? (Choose two.)

A. The database connectivity method
B. The number of users in the solution
C. The number of reports being installed
D. Ability to send completed reports by e-mail
E. Reporting output available in Microsoft Excel

Answer: D,E

Question: 3
What is a rotating item?

A. A rotating item is an individual item that is defined with a common item number. An item is designated as rotating because one wants to be able to create individual asset records by using the information (Classification, Specification, and Item Assembly Structure) contained on the item record.
B. A rotating item is a set of items that are defined with a specific code. An item is designated as rotating because one does not want to be able to create individual asset records by using the information (Classification, Specification, and Item Assembly Structure) contained on the item record.
C. A rotating item is a set of kits that are defined with a specific description and GL. An item is designated as rotating because one has the single cost to manage prefers to be able to create individual asset records by using the information (Classification, Specification, and Item Assembly Structure) contained on the assembly record.
D. A rotating item is an individual item that is defined with a common item number and can be a spare part. An item is designated as rotating because one wants to be able to create multiple asset records by using the information (Classification, Specification, and Item Assembly Structure) contained on the item set records.

Answer: A

Question: 4
What will happen to associated preventive maintenance (PM) records when an asset is decommissioned?

A. There is no automatic method to change the PM(s) status to INACTIVE.
B. The PM(s) will become in INACTIVE if 'Change the Status of All Associated PM(s) to Inactive?' is checked while decommissioning the asset.

C. The only way to change the status of the PM(s) to INACTIVE is to remove the assets from the PM(s) and then change the status of the PM(s) to INACTIVE.
D. If the 'Change the Status of All Associated PM(s) to Inactive?' is not selected during decommissioning, the PM(s) status will remain ACTIVE; however, work order cannot be generated from the PM having a decommissioned asset.

Answer: B

Question: 5
Which application is installed with IBM Enterprise Asset Management for providing reporting capability?

A. Open Database Platform
B. External Report Integration
C. Business Objects/Crystal Reports
D. Business Intelligence Reporting Tool

Answer: D

Question: 6
What is a feature of the Integration Framework?

A. Allow bulk importing of XML or flat files.
B. Allow bulk importing from Excel spreadsheets.
C. Allow bulk importing from external/legacy system.
D. Allow bulk importing from one database platform to another.

Answer: A

Question: 7
A customer's plant maintenance manager invites a solution advisor to discuss Enterprise Asset Management in general and how it might help the maintenance group work more effectively and efficiently. What should the solution advisor do in the first meeting with the plant maintenance manager?

A. Ask the plant maintenance manager about the company's history, competition, and market value.
B. Ask the plant maintenance manager about their background, education, and professional experience.
C. Ask the plant maintenance manager about current systems in use, issues with the system, and key areas where the manager wants to see improvements.
D. Ask the plant maintenance manager about the number of employees, union representation, and how IBM Maximo Asset Management can represent employees and their skill sets.

Answer: C

Question: 8
A company just hired a new plant maintenance manager, and they are concerned about the number of corrupt asset records in the present system. In future they want to prevent this from happening. When implementing the new solution, what is recommended?

A. All maintenance personnel have full access to all records.
B. All maintenance personnel have read-only access to all data.
C. Only a very limited number of personnel have full access to static data records, but all maintenance personnel are able to enter work order data.

D. Maintenance personnel should not be using the system, and should only write entries on printed work orders and hire input clerks to enter these into the system.

Answer: C

Question: 9
When discussing plant maintenance with plant maintenance managers, frequently the topic of using preventive maintenance (PM) comes up. If this is used extensively and the PM work orders are regularly completed, what is told by this about the operation?

A. It is likely that equipment will break down frequently.
B. It is likely that equipment will break down infrequently.
C. It shows that maintenance is performed on an as needed basis.
D. It shows that there are frequent crises when it comes to maintaining equipment.

Answer: B

Question: 10
Which two aspects of the client's environment will help determine sizing of the solution? (Choose two.)

A. the number of users
B. the number of locations
C. the number of types of hardware
D. the number of security protocols
E. the number of types of operating systems

Answer: A,B

Question: 11
Which two internet browsers are supported with IBM Maximo Asset Management V7.1? (Choose two.)

A. Opera
B. Netscape
C. Mozilla Firefox
D. Google Chrome
E. Microsoft Internet Explorer

Answer: C,E

Question: 12
Which aspect of the client's environment restricts how an asset management tool can be deployed?

A. which database servers are in use
B. which types of hardware are in use
C. which operating systems are in use
D. which authentication and security protocols are in use

Answer: D

Question: 13
With which three other business initiatives does Enterprise Asset Management-a business paradigm-integrate strategic planning? (Choose three.)
