000-113

IBM

*IBM Systems Storage Solution Design Entry/Midrange
for DS series v1*

<http://www.ipass4sure.com/exams.asp?examcode=000-113>

The 000-113 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-113 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-113 exam is very challenging, but with our 000-113 questions and answers practice exam, you can feel confident in obtaining your success on the 000-113 exam on your FIRST TRY!

IBM 000-113 Exam Features

- Detailed questions and answers for 000-113 exam
- Try a demo before buying any IBM exam
- 000-113 questions and answers, updated regularly
- Verified 000-113 answers by Experts and bear almost 100% accuracy
- 000-113 tested and verified before publishing
- 000-113 exam questions with exhibits
- 000-113 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-113 exam are now continuously updating and accepting this challenge is itself a task. This 000-113 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-113 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-113 Test and save time and money while developing your skills to pass your IBM 000-113 Exam? Let us help you climb that ladder of success and pass your 000-113 now!

Question: 1

The total number of backend loops on a DS5300 storage server is _____.

- A. 2
- B. 4
- C. 8
- D. 16

Answer: D

Question: 2

Your customer has purchased a new DS4800 88A. They have used the SMdemo program to become familiar with Storage manager GUI, but they would like additional training on how to maintain this customer setup and maintained subsystem. Where would you direct them to find this additional training?

- A. Contact your IBM Business Partner
- B. Download IBM Redbooks
- C. Buy IBM education packs
- D. All of the above

Answer: D

Question: 3

What does the "Recovery Guru" provide?

- A. Saves an IBMDS storage array configuration.
- B. Displays fault summary, fault details and recover procedures.
- C. Displays History log (MEL)
- D. Restores a saved IBM DS storage array configuration.

Answer: B

Question: 4

A large animation company needs to purchase 50 TB of usable storage. They have specified that this storage be allocated in nine-disk RAID 5 LUNs (8 data disks and 1 parity) using 1 TB drives. They expect that they will need to grow to 200 TB and want to place this behind a single controller enclosure. What is the IBM subsystem that will support this configuration?

- A. DS4700
- B. DS4800
- C. DS5300
- D. All of the above

Answer: C

Question: 5

A Customer has the need to consolidate their data center to a single enterprise class storage platform. They currently have fibre channel and SATA technology in use today. They are expanding their environment and will require more than 200 disk drives when fully implemented in the course of the next 18 months for quick recovery volumes, HSM and TSM storage pools. What platform makes the most sense?

- A. DS4200
- B. DS4700 Model 70

- C. DS4700 Model 72
- D. DS5300

Answer: D

Question: 6

A customer has 50TB of high speed storage and would like to hold a full copy of this on the same storage array. Which storage array would you need to suggest to support this configuration plus support a 20% capacity increase?

- A. DS3400
- B. DS4700 model 70
- C. DS4700 model 72
- D. DS5000

Answer: D

Question: 7

The customer is undertaking a server consolidation program and will purchase an IBM BladeCenter to achieve this consolidation. The customer has 50TB of data to store as a result of this consolidation exercise. Which storage array would not support this configuration?

- A. DS3400
- B. DS4700 model 70
- C. DS4700 model 72
- D. DS5100

Answer: A

Question: 8

DS5000 Storage Manager can discover and manage which storage systems?

- A. All IBM DS storage products
- B. IBM DS5000, DS4000, and DS3000 storage systems
- C. Only IBM DS5000 storage systems
- D. Any storage system

Answer: B

Question: 9

In an SAN Volume Controller virtualized storage pool with both EMC and IBM storage arrays under its management. What function would you use to copy data from the EMC to the IBM storage array.

- A. Time Finder
- B. Volume copy
- C. SRDF
- D. Flashcopy

Answer: D

Question: 10

Select the information you should acquire from the customer when developing a backup solution:

- A. Recovery Time Objective (RTO)

- B. Recovery Point Objective (RPO)
- C. Total Capacity
- D. All of the above

Answer: D

Question: 11

An IBM DS5000 storage subsystem is required to be installed by a CE in all geographies except which of the following?

- A. AG (US and Canada)
- B. AP (Asia Pacific)
- C. LA (Latin America)
- D. NWIOT and SEIOT (NW and SE Europe)

Answer: D

Question: 12

Your customer is designing a data warehousing application. They require the highest performance with the highest possible reliability. Cost is not a concern. This customer should use

- A. JBOD
- B. RAID 5
- C. RAID 6
- D. RAID 10

Answer: D

Question: 13

An IBM Customer Engineer is on site installing a new DS5100. What reference guide would give instructions surrounding how to install the multipathing driver to attach to a POWER 6 Server running AIX?

- A. Host Support Guide (HSG)
- B. IBM Redbooks
- C. DS5000 Support Matrix
- D. DS5000 Implementation Cookbook

Answer: A

Question: 14

A customer has a number of fibre attached DS3000, DS4000, and DS5000 storage arrays that they want to centrally manage, use and share these storage arrays with five clustered POWER 595 servers. What IBM product would provide a fully supported configuration for this functionality?

- A. IBM System Storage SAN18B-R multiprotocol router
- B. IBM System Storage SAN Volume Controller
- C. IBM Remote Support Manager (RSM)
- D. IBM Storage Manager Version 10.10

Answer: B

Question: 15

What is true of DS5000 storage servers?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
