QUESTION 1

The manager of the IT department indicates that their company is pursuing a website expansion because of growing e-business sales. Which of the following people will be able to provide the necessary information to perform ROI analysis for this project?

- A. Webmaster
- B. Office manager
- C. Marketing manager
- D. Purchasing manager

Answer: C

QUESTION 2

An iSeries prospect is deciding between the proposed eServer i5 520 and a used i270 running V5R2. Which of the following considerations should impact the customer's decision?

- A. IBM will not transfer software to a used machine.
- B. The i270 uses SPD cards that will not be supported after V5R3.
- C. The customer must pay the Currency Access Fee with Software Maintenance.
- D. IBM requires an inspection fee for a Hardware Service contract for used equipment.

Answer: C

QUESTION 3

Certkiller .com says they feel constrained by the iSeries as a proprietary system. The customer believes they could correct this situation if they were on an open system. Which of the following should be discussed with this customer?

- A. LPAR capability on the iSeries allows multiple operating environments.
- B. Windows 2003 runs native on the iSeries with support for many types of software.
- C. Web enablement of 5250 applications with iSeries Access for Web removes old-looking green screens.
- D. WebSphere Portal Server Experience implementation allows many WebSphere products to run on the iSeries.

Answer: A

QUESTION 4

Certkiller .com is considering an HA solution for disaster recovery and backups. They require regular switch testing and a daily backup from the target system. What should they purchase?

- A. A single logically partitioned system

- B. Two servers in the same computer room
- C. High Availability model located in a remote location
- D. CBU (Capacity Backup Unit) located in a remote location

Answer: C

QUESTION 5

Which of the following describes a benefit of running Microsoft Windows based applications on an Integrated xSeries Server?

- A. SupportLine includes support for Windows issues.
- B. iSeries provides support for hot-spare Windows servers.
- C. Software Maintenance includes release updates for Windows.
- D. Windows service packs are automatically installed with iSeries PTFs.

Answer: B

QUESTION 6

Certkiller .com with an i810 is running multiple partitions with V5R3. Which of the following products is used to manage the partitions?

- A. IBM Director
- B. iSeries Navigator
- C. Management Central
- D. Hardware Management Console

Answer: B

QUESTION 7

A prospect has multiple Intel servers installed and would like to replace them with new application software on an iSeries. How can the disk requirements be determined?

- A. Add a growth factor to the total amount of disk on all existing processors.
- B. Complete a sizing based on the application volumes, number of users, and file requirements.
- C. Use an equal number of disk arms because response time is dependent on the number of disk arms.
- D. Check on each server for unused disk space and propose the amount of disk currently being actively used.

Answer: B

QUESTION 8

A prospect is considering a new e-business solution. They are comparing the iSeries to a Linux solution from a local systems integrator. Which of the following iSeries

advantages should be emphasized?

- A. LPAR
- B. Initial cost
- C. Reliability of hardware and software
- D. Availability of i5/OS or Linux as the base OS

Answer: C

QUESTION 9

Certkiller .com has asked for a proposal to combine several computing groups within their company. They have an i810 that is fully utilized, a small HP/UX system with an engineering application, and almost 40 Microsoft Windows servers with very low utilization. They also plan to add a Linux firewall. Which of the following will establish the requirements?

- A. Use Workload Estimator to establish the requirements for the i5/OS, AIX, Linux, and Windows workloads.
- B. Use Pilot Predict to model the existing and proposed workloads. Factor in the mutually agreed growth factor.
- C. Propose an iSeries running LPAR with i5/OS, Linux, AIX, and IXS to handle the combined and proposed workloads.
- D. Propose a study to review the applications, processing, storage, communications, and other considerations for all existing and proposed systems.

Answer: D

QUESTION 10

Certkiller .com has a fully utilized i810 Enterprise Edition. They like their applications and now need to add e-mail and collaboration capabilities for their remote offices. Which of the following will meet the customer's needs?

- A. Upgrade the i810 to an IBM eServer i5 570 Value Edition and add Lotus Domino.
- B. Upgrade the i810 to an IBM eServer i5 520 Enterprise Edition and add Lotus Domino.
- C. Upgrade the i810 to an IBM eServer i5 520 Value Edition and add Lotus Notes and Quickplace.
- D. Upgrade the i810 to an IBM eServer i5 520 Standard Edition and add Lotus Domino and Instant Messaging.

Answer: B

QUESTION 11

An iSeries prospect wants to communicate with their major supplier using a dedicated communication line and have their customers use a Web interface. They are also considering a small 5250-based application and want growth within the same serial number. Which of the following meets the customer's needs?
