IBM Worklight V6.0 Mobile Application Development Exam

The 000-278 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-278 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-278 exam is very challenging, but with our 000-278 questions and answers practice exam, you can feel confident in obtaining your success on the 000-278 exam on your FIRST TRY!

IBM 000-278 Exam Features

- Detailed questions and answers for 000-278 exam
- Try a demo before buying any IBM exam
- 000-278 questions and answers, updated regularly
- Verified 000-278 answers by Experts and bear almost 100% accuracy
- 000-278 tested and verified before publishing
- 000-278 exam questions with exhibits
- 000-278 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-278 exam are now continuously updating and accepting this challenge is itself a task. This 000-278 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-278 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-278 Test and save time and money while developing your skills to pass your IBM 000-278 Exam? Let us help you climb that ladder of success and pass your 000-278 now!

QUESTION: 1

A mobile application developer has a business requirement that data be encrypted while at rest on the mobile device. As data is stored in the encrypted cache, the application developer starts seeing strange behavior and cannot find this behavior in the documentation. What is the cause of the strange behavior?

- A. The encrypted cache is closed.
- B. The encrypted cache has exceeded the 5 Mb limit.
- C. The AES 256-bit encryption key is corrupt.
- D. The credentials used to open the cache are invalid.

Answer: B

QUESTION: 2

A mobile application developer has created and deployed an HTTP adapter which accepts a userid and returns employee location data. For the adapter to be invoked using the client side `WL.Client.invokeProcedure` API, which properties does the application developer need to include in the `invocationData` object?

- A. parameters, procedure
- B. parameters, procedure, timeout
- C. adapter, parameters, procedure
- D. adapter, parameters, procedure, timeout

Answer: C

QUESTION: 3

A mobile application developer has chosen to use the `JSONStore` API to cache data locally for use when the application is offline. Which statement accurately describes the `JSONStore` capabilities?

- A. The `JSONStore` has a maximum storage capacity of 5 MB.
- B. The `JSONStore` API can be extended to better fit their needs.
- C. The `JSONStore` extends the encrypted cache capability of supporting multiple users by adding support for indexes.
- D. The Worklight adapter that is being used with the `JSONStore` can request or pull updated data when working in connected mode.

Answer: B

QUESTION: 4

A Worklight application developer has used the File > New > Worklight Environment option from Worklight Studio to add a specific environment for Android to the project. This has created an Android folder under the apps\application name folder. Which new, unique folder name that does not exist in common is in the Android folder?

- A. js
- B. css
- C. native
- D. images

Answer: C

QUESTION: 5

A mobile application developer has created an application for indoor shopping mall customers. The application needs to distinguish shopping areas from eating areas inside the mall using WiFi. How can the application developer do this?

- A. Use WL.Device.getContext() to return the current geofence.
- B. Use a DwellInside trigger to determine which area the user is in.
- C. Use a PositionChange trigger to signal when the user moves into a different area.
- D. Use the WL.Device.Geo.Profiles API to set the acquisition policy to acquire information from bluetooth, NFC, and WiFi broadcasts.

Answer: B

QUESTION: 6

A mobile application developer is asked to work on a mobile project and build Web resources such as HTML, CSS and JavaScript that will later be packaged to complete the application by another developer. What application type should be selected by the application developer in Worklight Studio to accomplish this?

- A. Inner Application
- B. Shell Component
- C. Native Application
- D. Hybrid Application

Answer: A

QUESTION: 7

A mobile application developer wishes to mock up an application quickly using the built in Worklight Screen Templates for Dojo. How can the developer add a screen template to an existing Dojo project? From the Worklight Studio Design view:

- A. select File -> New -> Web Page and choose a template
- B. right click in the Outline pane, select Add and choose a template
- C. right click in the Mobile Navigation pane, select Add and choose a template
- D. right click on the <app name> folder, select New -> Web Page and choose a template

Answer: C

QUESTION: 8

A mobile application developer has written a Cordova plug-in for an application. The developer would like to now test its functionality. To do so, what must the application developer configure in the Worklight project? Declare the:

- A. plug-in name in config.xml.
- B. plug-in name in initOptions.js.
- C. plug-in name in the HEAD element of the application's .html file.
- D. .java class file name in AndroidManifest.xml.

Answer: A

QUESTION: 9

Pass4sure Certification Exam Features;

- Pass4sure offers over **4500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **150** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
