000-423

IBM

*IBM Certified Solution Developer - Information Analyzer
v8.5*

<http://www.ipass4sure.com/exams.asp?examcode=000-423>

The 000-423 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-423 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-423 exam is very challenging, but with our 000-423 questions and answers practice exam, you can feel confident in obtaining your success on the 000-423 exam on your FIRST TRY!

IBM 000-423 Exam Features

- Detailed questions and answers for 000-423 exam
- Try a demo before buying any IBM exam
- 000-423 questions and answers, updated regularly
- Verified 000-423 answers by Experts and bear almost 100% accuracy
- 000-423 tested and verified before publishing
- 000-423 exam questions with exhibits
- 000-423 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-423 exam are now continuously updating and accepting this challenge is itself a task. This 000-423 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-423 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-423 Test and save time and money while developing your skills to pass your IBM 000-423 Exam? Let us help you climb that ladder of success and pass your 000-423 now!

QUESTION: 1

You are trying to identify a multi-column primary key in a table of 50 million records. What steps can you take to minimize performance impact?

- A. None, you must always assess full volume of data.
- B. Use a data sample; apply regression analysis to identify statistically likely candidates; apply duplicate check.
- C. Use a data sample; limit the test to specific columns at one time; incrementally increase the number of possible column combinations.
- D. Use a data sample; apply functional dependency analysis to remove dependent columns; incrementally increase the number of possible column combinations.

Answer: C

QUESTION: 2

You submitted a column analysis job with the "Retain Scripts" set to no. The column analysis job finished with an "error encountered" final message. You have access to the DataStage Director client. Which option would allow you to find the source of the error?

- A. Create a log view in Information Analyzer and rerun the job. Examine the log to determine the error.
- B. Rerun the job with the "Retain Scripts" turned on. The error message will be returned to the Information Analyzer status window.
- C. Submit the job from Information Analyzer. After it finishes log onto DataStage Director and examine the job log to determine the source of the error.
- D. Submit the job from Information Analyzer and place it on hold. Log onto DataStage Director, release the job and examine the job log to determine the source of the error.

Answer: A

QUESTION: 3

While reviewing the results of a data rule test you find a logic error. Which option will allow you to troubleshoot this error?

- A. Set the debug option when submitting the test job, then review the log.
- B. Open a command window on the client, submit the job and view the log.
- C. Set Retain Scripts to on and use DataStage Director to review the job log.
- D. Create a log view to capture the CAS log. Rerun the rule and review the log.

Answer: A

QUESTION: 4

Which statement is true about analysis settings?

- A. Default Analysis settings can be created for individual users.
- B. Default Analysis settings cannot be configured for all projects.
- C. Default Analysis settings can be configured at the project level.
- D. Default Analysis settings are controlled by the DataStage Analysis project.

Answer: C

QUESTION: 5

In a large enterprise, the human resource business unit wants to ensure the restriction of the analysis and analysis results to a set of HR managers. Which configuration will support this requirement?

- A. Use operating system IDs and database IDs to restrict access.
- B. Use Information Server roles and security to restrict access to analysis and results.
- C. Install an Information Analyzer environment (analysis server, analysis engine, analysis database) for the HR business unit.
- D. Install an analysis engine for each business unit and one analysis database using Information server security to restrict access.

Answer: C

QUESTION: 6

Which of the following is true about ODBC DSN's (data source names)?

- A. No ODBC DSN's are required.
- B. You must manually create the Information Analyzer database DSN.
- C. You must create a DSN for the data sources on both the client and server.
- D. The Information Analyzer database DSN is automatically created at installation time.

Answer: B

QUESTION: 7

You are installing Information Analyzer and plan to use Oracle as the Information Analyzer analysis database. Which statement is true?

- A. The metadata database must also be Oracle.
- B. The metadata database does not have to be Oracle.
- C. Only Oracle RAC (Real Application Clusters) is supported.
- D. The Information Analyzer analysis database can not be Oracle.

Answer: B

QUESTION: 8

When analyzing large volumes of source data in column analysis, which two statements identify ways you can improve processing performance? (Choose two.)

- A. Use data sampling in Information Analyzer.
- B. Add more space to the Metadata repository.
- C. Modify the project Analysis settings to increase the buffer pools.
- D. Modify the DataStage apt config file to use multiple nodes and parallel process the data.
- E. Modify the Information Analyzer Analysis database config file to parallel process the data.

Answer: A, D

QUESTION: 9

When analyzing large number of columns in Information Analyzer, which two components may require capacity planning review? (Choose two.)

- A. Disk space on the Engine layer.
- B. Disk space on the Application Server.
- C. Buffer pools on the Application Server.
- D. Information Server Metadata repository.
- E. Information Analyzer Analysis database.

Answer: A, E

QUESTION: 10

When creating a Scheduling View, which two of the following options can be configured? (Choose two.)

- A. Status > Schedule > Pending
- B. Status > Task Run > Abnormally Ended
- C. Status > Task Run > Successfully Ended
- D. Origins > Information Analyzer > IA Export Project
- E. Origins > Information Analyzer > IA Report Execution

Answer: B, D

QUESTION: 11

You are managing a business analyst who is annotating column profile details with issues and resolutions. You wish to see how many annotations remain open for resolution. Which report should you create and review?

- A. Metric Summary Project Status report
- B. Metadata Summary-Column Profile Status report
- C. Project Status- Project Summary by Notes Status report
- D. Domain Quality Summary- Column Quality by Status report

Answer: C

QUESTION: 12

When working with Information Analyzer reports, which two functions require use of the reporting functionality in the Information Server Web Console? (Choose two.)

- A. Add the report to Favorites.
- B. Create the report as a PDF.
- C. Grant Access to report result.
- D. Create a Log Messages report.
- E. Choose Expiration Policy for Report.

Answer: C, E

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
