

000-439

IBM

Fundamentals of Enterprise Solutions Using IBM Tivoli Storage 2008

<http://www.ipass4sure.com/exams.asp?examcode=000-439>

The 000-439 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-439 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-439 exam is very challenging, but with our 000-439 questions and answers practice exam, you can feel confident in obtaining your success on the 000-439 exam on your FIRST TRY!

IBM 000-439 Exam Features

- Detailed questions and answers for 000-439 exam
- Try a demo before buying any IBM exam
- 000-439 questions and answers, updated regularly
- Verified 000-439 answers by Experts and bear almost 100% accuracy
- 000-439 tested and verified before publishing
- 000-439 exam questions with exhibits
- 000-439 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-439 exam are now continuously updating and accepting this challenge is itself a task. This 000-439 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-439 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-439 Test and save time and money while developing your skills to pass your IBM 000-439 Exam? Let us help you climb that ladder of success and pass your 000-439 now!

Question: 1

A business has ten servers that are critical and must be restorable at the disaster recovery site. Which three components must be considered in the disaster recovery site to implement this request? (Choose three.)

- A. SLAs
- B. Availability of HBAs
- C. IP network speed at the disaster site
- D. Backup and restore media infrastructure
- E. Amount of incremental data on the client
- F. Network speed from disaster site to primary site

Answer: A, C, D

Question: 2

During the planning and inventory phase of the consulting process, which two topics are part of the document describing the customer's current storage environment (baseline)? (Choose two.)

- A. Return on investment (ROI) analysis
- B. Customer's storage hardware assets
- C. Customer's long term business vision
- D. Customer's IT processes related to storage
- E. Mapping of IBM storage solutions that meet customer's needs

Answer: B, D

Question: 3

What information is relevant when creating a customer's baseline documentation as input to a storage solution design?

- A. Biggest risk factors
- B. IBM solution differentiators
- C. Business benefits provided by the solution
- D. IT organizational structure diagram and description

Answer: D

Question: 4

Who should attend an introductory meeting of a business continuity design and implementation project?

- A. IBM Tivoli Identity Manager administrator
- B. IBM Tivoli Enterprise Portal administrator

- A. Handling alerts
- B. Monitoring thresholds
- C. Handling documentation
- D. Managing network sockets
- E. Providing management reports

Answer: A, B

Question: 9

Which server component acts as a traffic controller by directing information and handling requests from the agent?

- A. TotalStorage Productivity Center for Data
- B. TotalStorage Productivity Center for Disk
- C. TotalStorage Productivity Center Basic Edition
- D. TotalStorage Productivity Center for Replication

Answer: A

Question: 10

Which two processes should be in place for a successful data management initiative? (Choose two.)

- A. Data security
- B. Data replication
- C. Data provisioning
- D. Change management
- E. Incident management

Answer: A, B

Question: 11

A customer plans to renew their storage infrastructure to cope with performance and availability requirements stated by IT management and business drivers. Which solution should be recommended to this customer?

- A. SAN Volume Controller
- B. Bare Machine Recovery
- C. Tivoli Enterprise Console
- D. IBM Tivoli Storage Manager

Answer: A

Question: 12

What are two benefits of mapping the customer business processes to the storage environment in the baseline gathering stage? (Choose two.)

- A. Identifies waste
- B. Describes costs clearly
- C. Provides audit-ready posture
- D. Defines steps and sequences
- E. Defines customer requirements

Answer: A, D

Question: 13

Which key business process is most necessary to understand in order to describe SLAs as they relate to storage?

- A. Audit procedures
- B. Hardware provisioning
- C. Customer service handling
- D. Maintenance and support services

Answer: B

Question: 14

What is required in order to back up a customer critical files?

- A. IBM Tivoli Storage Manager for SANs
- B. IBM TSM Hierarchical Storage Manager (HSM) on Windows
- C. IBM Tivoli Storage Manager for System Backup and Recovery
- D. Open File Support with IBM Tivoli Storage Manager Extended Edition

Answer: D

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
