000-574

IBM

IBM Tivoli WebSphere App Studio V3.2

<http://www.ipass4sure.com/exams.asp?examcode=000-574>

The 000-574 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-574 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-574 exam is very challenging, but with our 000-574 questions and answers practice exam, you can feel confident in obtaining your success on the 000-574 exam on your FIRST TRY!

IBM 000-574 Exam Features

- Detailed questions and answers for 000-574 exam
- Try a demo before buying any IBM exam
- 000-574 questions and answers, updated regularly
- Verified 000-574 answers by Experts and bear almost 100% accuracy
- 000-574 tested and verified before publishing
- 000-574 exam questions with exhibits
- 000-574 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-574 exam are now continuously updating and accepting this challenge is itself a task. This 000-574 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-574 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-574 Test and save time and money while developing your skills to pass your IBM 000-574 Exam? Let us help you climb that ladder of success and pass your 000-574 now!

QUESTION: 1

Which change is made by the WebSphere Studio Application Monitoring V3.2 distributed Data Collector installer (both GUI and silent)?

- A. adding SMF support
- B. adding a custom service called "AM Custom Service"
- C. creating the user "amuser" in the base operating system
- D. sourcing the database user's profile in the profile for the user "amuser"

Answer: B

QUESTION: 2
