# 000-585

## IBM

*IBM Datacap Taskmaster Capture V8.1*

The 000-585 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-585 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-585 exam is very challenging, but with our 000-585 questions and answers practice exam, you can feel confident in obtaining your success on the 000-585 exam on your FIRST TRY!

### IBM 000-585 Exam Features

- Detailed questions and answers for 000-585 exam
- Try a demo before buying any IBM exam
- 000-585 questions and answers, updated regularly
- Verified 000-585 answers by Experts and bear almost 100% accuracy
- 000-585 tested and verified before publishing
- 000-585 exam questions with exhibits
- 000-585 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-585 exam are now continuously updating and accepting this challenge is itself a task. This 000-585 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-585 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-585 Test and save time and money while developing your skills to pass your IBM 000-585 Exam? Let us help you climb that ladder of success and pass your 000-585 now!

**QUESTION: 1**

What tool would a Deployment Professional use to configure Rulerunner Enterprise (aka Quattro) background tasks?

- A. Datacap Studio
- B. Rulerunner Manager
- C. Taskmaster Server Manager
- D. Taskmaster Application Manager

**Answer: B**

**QUESTION: 2**

What is the Taskmaster Server?

- A. a Server that client applications use to create tasks.
- B. one of many Datacap applications that access the admin and engine databases.
- C. a Windows service which controls authentication, database access, and batch processing.
- D. a Windows service which controls authentication, database access, and the creation of tasks.

**Answer: C**

**QUESTION: 3**

Which operating system does Datacap support?

- A. AIX
- B. iOS
- C. Linux
- D. Microsoft Windows

**Answer: D**

**QUESTION: 4**

Which steps are needed to configure a Datacap application to use Oracle or MSSQL?

- A. During installation, populate DB server name and account information, test sample application
- B. Run DB definition scripts, populate the databases, configure an application to use the database, verify DB connection
- C. Install using default settings. Once installed, use Taskmaster Server Manager to point Datacap to DB server. Use Application Wizard to copy applications to DB server
- D. Ensure the database server is installed. Enter the database server name and credentials when prompted by the installation wizard. Test sample application when install completes.

**Answer:** B

**QUESTION: 5**
