000-935

IBM

IBM Tivoli Workload Scheduler for z/OS V8.3 Administration

<http://www.ipass4sure.com/exams.asp?examcode=000-935>

The 000-935 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-935 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-935 exam is very challenging, but with our 000-935 questions and answers practice exam, you can feel confident in obtaining your success on the 000-935 exam on your FIRST TRY!

IBM 000-935 Exam Features

- Detailed questions and answers for 000-935 exam
- Try a demo before buying any IBM exam
- 000-935 questions and answers, updated regularly
- Verified 000-935 answers by Experts and bear almost 100% accuracy
- 000-935 tested and verified before publishing
- 000-935 exam questions with exhibits
- 000-935 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-935 exam are now continuously updating and accepting this challenge is itself a task. This 000-935 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-935 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-935 Test and save time and money while developing your skills to pass your IBM 000-935 Exam? Let us help you climb that ladder of success and pass your 000-935 now!

Question: 1

How does TWSz use the JES2 exit 7? (Choose three.)

- A. To create an IJ1 event when a job is submitted to the JES2 internal reader
- B. To create a type A5 event record when a job completes JES2 purge processing
- C. To create a type A3P event record when a job completes JES2 output processing
- D. To create a type A1 event record when a job completes JES2 conversion processing
- E. To create an SYY event record when a dataset defined as a dataset trigger is created.
- F. To create a type A4 event record when a JES2 JOE (Job Output Element) completes PRINT processing

Answer: B, C, D

Question: 2

Which statement is true about TWSz E2E jobs having predecessors on the mainframe or using special resources?

- A. All predecessors of FTA operations must be on non-reporting workstations to avoid loss of fault tolerance.
- B. This results in a loss of Fault Tolerance, because the FTA must be in communication with the mainframe to resolve these dependencies.
- C. This is not possible because once the plan is sent to the FTA from the mainframe there is no further communication between them until a new plan is sent.
- D. Special resources can be used for E2E jobs only if they represent a file defined in the home directory of the FTA on which the job is scheduled.

Answer: B

Question: 3

The job created by the APAR tape function (dialog option 9.9) can have which type of files as its output?

- A. Tape files only, since the IBM APAR process requires tapes.
- B. Any tape or disk file with the exception of zip and tar files.
- C. Files smaller than 10 megabytes, otherwise they cannot be transmitted.
- D. Any tape or disk files as long as all the necessary TWS files are copied

Answer: D

Question: 4

Which panel row command allows the user to bypass all prompts when performing a Job Level restart?

- A. RC.1
- B. FJR
- C. SJR
- D. FSR

Answer: B

Question: 5

In which library is the source code and JCL for compiling the TWSz JES and SMF jobtracking exits found?

- A. SEQQSAMP library

- B. SEQQTBL0 library
- C. SEQQMISC library
- D. SEQQDATA library

Answer: A

Question: 6

What are the four valid Restart and Cleanup (RCL) types?

- A. None, Manual, Immediate, and Automatic
- B. None, Deferred, Immediate, and Automatic
- C. None, Manual, Immediate, and Deferred
- D. None, Manual, Immediate, and Yes

Answer: A

Question: 7

Which external dependencies are resolved when an LTP Modify for a single application (EQQLTMOO) is run?

- A. No external dependencies are resolved.
- B. All external dependencies are resolved regardless of the application.
- C. Only those external dependencies for the specific application chosen are resolved.
- D. Only those external dependencies outside of the current planning period are resolved.

Answer: A

Question: 8

What is the period definition required to schedule an occurrence to run every 10 work days?

- A. A cyclic period with PERIOD TYPE A and an INTERVAL of 10
- B. A cyclic period with PERIOD TYPE W and an INTERVAL of 10
- C. A non-cyclic period with PERIOD TYPE A and an INTERVAL of 10
- D. A non-cyclic period with PERIOD TYPE W and an INTERVAL of 10

Answer: B

Question: 9

A job which executed before the CP EXTEND job failed to track correctly. Which statement is true about how EQQAUDIT should be set up to determine the cause of the tracking problem?

- A. EQQAUDIT must be run with SYSIN option JTX.
- B. EQQAUDIT must be run with the TRL (tracklog) SYSIN option.
- C. EQQAUDIT may be run with the JTX option as long as the "start time" coded is before the time that the CP EXTEND job was run.
- D. Since CP EXTEND has executed, option 10.1 (interactive Audit/Debug cannot be used so option 10.2 (AUDIT BATCH) must be used instead.

Answer: B

Question: 10

What are two special considerations when backing up the EQQADDS? (Choose two.)

- A. The EQQADDS is heavily LSR buffered, so it cannot be backed up while the TWSz controller is running.

- B. The EQQADDS is a SPANNED VSAM KSDS dataset, and cannot be backed up to a sequential dataset (such as tape) via REPRO.
- C. The EQQADDS must be maintained in synchronization with the LTP and CP. A backup should be taken any time significant changes are made to any TWSz applications.
- D. The TWSz controller automatically backs up the EQQADDS to the EQQADBKP dataset whenever the CP is backed up. Therefore, it is not necessary to ever do an EXTERNAL (outside of TWSZ controller processing) of this dataset.
- E. The EQQADDS includes both the APPLICATION DESCRIPTION records and the JCL VARIABLE TABLES. If any date-related variables are defined, the dataset must be backed up every morning at one minute after midnight.

Answer: B, C

Question: 11

Where can you specify at the global level the values for Deadline Smoothing Factor and Deadline Feedback Limit?

- A. JTOPTS
- B. OPCOPTS
- C. RESOPTS
- D. XCFOPTS

Answer: A

Question: 12

The Current Plan Extend ended with a condition code 0008. The applications causing the problem have been corrected in the AD database. Which process should be run before rerunning the Current Plan Extend job?

- A. Mass Update
- B. Current Plan Trial
- C. Current Plan Replan
- D. Long Term Plan Modify All

Answer: C

Question: 13

An external product monitors DASD usage and submits a job to defrag the DASD when needed. The defrag jobs should not run during the prime customer day (06:00 to 22:00) as they might impact online response times and transaction rates. It is possible to access the skeleton JCL used for the defrag job and it is possible to control the jobname. A special resource called DEFrag has been defined that is only available for the interval 22:00 to 06:00. Which three actions must be taken to finish this solution? (Choose three.)

- A. Define the DEFrag special resource on the operation in the dummy DEFrag application as shared
- B. Add the DEFrag special resource to the operation in the ETT added application as exclusive use
- C. Update the generic job skeleton from the external product to be submitted with TYPRUN=HOLD
- D. Add a DEFrag application, using ETT and jobname replace, containing a dummy operation defined on a CPU workstation
- E. Track the job through ETT and add a dummy DEFrag application that contains an operation on a general workstation

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
